show list.

The inventory report showed beef cow at 31.16 million head, which is down 181,000 head from a year ago. In our area, beef cow numbers were up in Texas, Oklahoma and Kansas with Colorado and out west less because of the drought.

With grains reaching a higher figure for the last several months several farmers are talking about planting for grain rather than pasture. The world is projected to produce 1.13 billion metric tons

of corn, which is down 9.7 metric tons than predicted last month.

With the talk of higher corn it is hard for me to see why we would think feeders would get much higher. I realize we would like to feed them less days in the feedlot but it has been our choice. Prices have to go up.

We all knew a farmer in the old days who loved to farm as he would drive the tractor all day. Either he loved to farm or needed to get away from Grandma for a few hours. I have to

laugh when I think about my grandpa when he was about 90 years old. And the lady who was helping clean their house was about 45 years old. Grandpa said, "Would you help me take out this trash?" After about five minutes Grandma decided Grandpa had been out there long enough so she opened the door and hollered as loud as she could, "Ben Nine, you get in here and I mean right now!"

You can never underestimate these 90-year-old men.

I had a busi-

nessman call me about a former employee. He said, "Tell me about this man." I said, "OK, I will. He should go very far and the sooner he starts the bet-

ter."

## Elk City Couple Receive Grand Larceny Charges After Stealing Railroad Items

February 8, 2021 - An Elk City couple are accused of stealing railroad items in Erick, and have both received felony grand larceny charges in Beckham County.

According to a probable cause affidavit, the Beckham County Sheriff's Office was contacted by a concerned Erick citizen who said she witnessed two individuals, later identified as being 49-year-old Jeffery Dewayne Pogue and 34-year-old Callie Jae Long, allegedly loading their vehicle with items from a building that was being used by Farm Rail for storage. By the time a detective with the sheriff's office arrived, he had found that the couple had been pulled over by the Erick Police Department. When talking with Pogue, he would tell the detective that he did indeed take items and said he thought it was okay to do so.

During a search of the car, the detective would find railroad spikes, anchors, and plates in the trunk. The affidavit stated that an employee from Farm Rail would arrive and tell authorities that the value of the items was approximately \$2,500, and that Farm Rail did request to file charges on both suspects.

Both Pogue and Long were arrested and booked into the Beckham County Jail and later received one charge each of grand larceny – a felony.

Their next court date is February 22.

Serving all members  
is what we do **best**

Protecting and preserving the rural way of life is what we work for on a daily basis. But rural Oklahoma is not only made up of farmers and ranchers. It is also the teachers, coaches, local business owners, and first responders that make up our community. From representation at the state Capitol to special member discounts and beyond, we help sustain the rural way of life Oklahomans have come to know and love.

Achieving the satisfaction of our customer is as important as achieving the satisfaction and welfare of our final consumer, the patient. Therefore, we try to establish strong relationships with our customers based on a tailored service and on maintaining collaboration and cooperation, able to fulfill all the needs that may arise. In short, no matter the type of customer – small dispensaries, corporate owned dispensaries, certified growers, we know that, by paying attention to small details, we can achieve the goal which unites us to our customers: achieving excellence together furthering the advancement of medical marijuana to hit our goal of satisfaction by the patient.

## WHAT IS CBG?

Cannabigerol (CBG) is a type of cannabinoid obtained from the cannabis plant. It's often referred to as the mother of all cannabinoids. This is because other cannabinoids are derived from cannabigerolic acid (CBGA), an acidic form of CBG. CBG is growing in popularity as a result of the host of potential benefits the cannabinoid has to offer, including pain management and relaxation.

Life So Good, LLC is a licensed industrial hemp grower in NW Oklahoma, specializing in growing high CBG strains. They also offer CBG flower and trimmings for smoking and to use in edibles. Call for pricing and availability.
