## Drs. Mori & Teri White, DDS

### Sedation Dentistry Calms Fears...

Take a ***pill*** and ***snooze*** through your dental appointment.

**F**or many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Have you ever noticed this younger tech-sav-

vy bunch loves to send you abbreviations that you do have a clue what it means?  
And then they will tell you what it stands for but you can tell they think you are an idiot and so out of touch with reality.  
So let me tell you two people who can play the same game. So any question that I answer I just send the first letter

of each word in the sentence back to them. So the first abbreviation I sent back was DKWYM. And guess what? They guessed it and knew I said, “I don’t know what you mean.” So after awhile they sent another message so I made sure they couldn’t figure it out. I sent DTTSMAAWYD-HACWIS. And they said, “What was all that?”  
I said, “Don’t try to send me another answer when you don’t have a clue what I said.” They responded, “Wow!” I responded, “If you can’t get that, how are you so out of touch with

reality.” It’s kinda fun.  
Where are all those global warming people at? Probably in a well-heated building in a large city. Why don’t they get out here and feed some cattle and break ice. Maybe then they might decide Mother Nature still has control of the weather.  
Last Sunday the preacher had some excellent thoughts. He said, “Stop laying down for your past.” He said, “I’m not saying it was’n’t bad. I’m just saying quit giving in to the devil and quit feeding the problem by reliving it. If the fire

has no oxygen it dies. The only way these hurts live is if you let them.”  
A lot of sale barns will be very limited or no sale at all due to the cold and icy roads.  
A man went to the grocery store and took his items up to check out. He had an apple and a banana and carton of eggs. The checkout gal said, “You must be single.” He said, “How did you guess that?” And she said, “Cause you are ugly.”  
You know, I am pretty sure that I married someone else’s soul mate. If only that person would come take her off my hands. In fact this isn’t

working out. It is time for us to go our separate ways and start making someone else miserable.  
Honesty may be the policy but insanity is the best

defense.  
*Editor’s note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family’s ranch near Sapulpa, Oklahoma.*

## PROTEIN TUBS

Hi Pro Protein tubs are a free choice supplement designed for beef cattle on forage diets providing less than 8% protein. The low moisture, cooked molasses products are in a non-returnable plastic container that will enhance intake and utilization of available forages, while reducing labor for producers.

Products: Hi-Pro 25% Tub w/ 5% Fat | Hi-Pro 38% Hi-Energy Tub w/ 12% Fat  
Both available in plastic or bio tub.

Serving all members is what we do **best**

Protecting and preserving the rural way of life is what we work for on a daily basis. But rural Oklahoma is not only made up of farmers and ranchers. It is also the teachers, coaches, local business owners, and first responders that make up our community. From representation at the state Capitol to special member discounts and beyond, we help sustain the rural way of life Oklahomans have come to know and love.

**Understanding What We Read**

FOR STUDENTS OF THE BIBLE

Greeting's again in the lovely name of Jesus. What is truth? Can we know without doubt what is truth? How important is knowing the truth? Just what impact should it have on our lives? Seems that truth is something that is thought little of in our day and time. Is there such a thing as knowing the truth of the scriptures? Paul tells us in 2 Thess. 2: 13, "But we are bound to give thanks alway to God for you brethren beloved of the Lord, because God hath from the beginning chosen you to salvation through sanctification of the Spirit and the belief of the truth" This is an amazing verse of scripture. Some time you need to read the remainder of the chapter. Please notice that we have been chosen by a setting apart of the Spirit and the belief of the truth. Now, I ask you, can we be certain that we know the truth? If we are set apart by it, surely, we must know it. In John 14:6 Jesus said, "I am the way, the truth and the life: no man cometh to the Father, but by me." How amazing that I learned early on that Jesus had a Father. If Jesus is the truth, then we should investigate and be able to come to more truth. What is He the way to? What is He the truth to? I think the answer to these questions can be found in the scriptures. As I started to investigate, I wanted with all my heart to know for sure what truth was. I found two verses in John 17:2-3...just listen, "even as You gave him authority over all flesh, that to all whom You have given Him, He may give eternal life. This is life eternal, that they may know You, the only true God, and Jesus Christ whom You have sent". (To be continued)

# The Green Pages

Welcome to Oklahoma's Cannabis Connection, The GREEN PAGES - your gateway for Medical Cannabis Recources and Services across Oklahoma! We are here to bring all aspects of Medical Cannabis together to better serve our growing number of Oklahoma patients!

### WHAT IS CBG?

Cannabigerol (CBG) is a type of cannabinoid obtained from the cannabis plant. It's often referred to as the mother of all cannabinoids. This is because other cannabinoids are derived from cannabigerolic acid (CBGA), an acidic form of CBG. CBG is growing in popularity as a result of the host of potential benefits the cannabinoid has to offer, including pain management and relaxation.

Life So Good, LLC is a licensed industrial hemp grower in NW Oklahoma, specializing in growing high CBG strains. They also offer CBG flower and trimmings for smoking and to use in edibles. Call for pricing and availability.

Achieving the satisfaction of our customer is as important as achieving the satisfaction and welfare of our final consumer, the patient. Therefore, we try to establish strong relationships with our customers based on a tailored service and on maintaining collaboration and cooperation, able to fulfill all the needs that may arise. In short, no matter the type of customer – small dispensaries, corporate owned dispensaries, certified growers, we know that, by paying attention to small details, we can achieve the goal which unites us to our customers: achieving excellence together furthering the advancement of medical marijuana to hit our goal of satisfaction by the patient.

## Slick Roads and High Speed to Blame For Beckham County Crash

February 15, 2021 - Slick roads and high speed appear to be to blame for a rollover crash in Beckham County Sunday morning.

According to the Oklahoma Highway Patrol, the mishap occurred just after 11 a.m. in the eastbound lanes of Interstate 40 near mile marker 40 in Elk City. OHP says 18-year-old Suede Hamel of Stillwater lost control of the 2008 Ford F-250 he was driving, struck a guard rail and rolled 2 ½ times down an embankment, through a chain-link fence before landing on its top.

Hamel was transported to Great Plains Regional Medical Center before being transferred and admitted in to OU Medical Center in Oklahoma City with a head injury. He was last listed to be in stable condition.

A passenger, 20-year-old Ethan Deer of Perkins, was treated for minor injuries at GPRMC and released a short time later.

OHP lists the cause of the crash as being “to fast for snowy road condition”.

No other vehicles were involved in the mishap.

## Challis Retains WTC Seat

February 10, 2021- Voters decided between three candidates for the office number 1 seat on the Western Technology Center Board of Education on Tuesday.

Incumbent Ray Challis gained just over 51% of the vote to retain his seat. He was challenged by Eugene Jefferson who obtained 26% of the vote and Dennis H. Baxter who garnered 21% approval.

In other election news, it was announced that a special election for Beckham County voters who reside in the Canute School District will be held on Tuesday March 2 to vote for two propositions for school and transportation improvements. However, only early voting will be available as the school district opted to close the one polling place in Beckham County with affected voters. Early Voting will take place at the Beckham County Activity Center from 8 a.m. to 6 p.m. Thursday and Friday, February 25th and 26th.

Anyone who needs to look up their polling place, verify their registration information, or view a sample ballot can do so online. The Online Voter Tool can be accessed on the Oklahoma State Election Board’s website @ elections.ok.gov. Those who vote by mail can also check the status of their ballot using the Online Voter Tool. Sample ballots are also available at the County Election Board office.

## Local Representatives to Serve on Redistricting Subcommittee

February 15, 2021 - The House State and Federal Redistricting Committee was appointed Friday to continue the House’s public-focused redistricting process throughout the 2021 legislative session.

House Speaker Charles McCall appointed the 29-member bipartisan committee to establish the formal policies and protocols for House redistricting. After the delivery of final U.S. Census data, the committee will advance legislation containing new districts to the full House for consideration.

The standing committee will base its work on public input gathered by the House’s eight regional redistricting subcommittees, which conducted dozens of town halls across the state to hear from citizens about the composition of districts for the next decade. In a historic move, every House member was appointed to a regional subcommittee to ensure total representation of the full state in the redistricting process.

District 57 Representative Anthony Moore R-Clinton and District 55 Representative Todd Russ R-Cordell will both serve on the Northwest subcommittee.

The State and Federal Redistricting Committee will hold its first meeting this week to adopt policies, protocols and a public map submission process.

Rep. Ryan Martinez, R-Edmond, who chairs the House State and Federal Redistricting Committee says “The standing committee’s first order of business is setting a public map submission process. As has been the case from the beginning, public input continues to be the priority. All Oklahomans have been represented in the process to date, and the geographic and bipartisan diversity of membership on this committee will ensure that standard continues.”

Every ten years, the Oklahoma Constitution requires each legislative chamber to redraw its own districts and congressional districts following the release of decennial U.S. Census data.

The House State and Federal Redistricting Committee’s membership matches the partisan composition of the full House and includes the chairs and vice chairs of each regional subcommittee.
