# Farm & Ranch

## It's a matter of taste

**Jerry Nine Woodward**  
Livestock Auction  
Woodward, OK

I saw where Bill Gates said that all rich countries should eat synthetic beef and that eating beef was ruining our climate. Then he went on to say you can get used to the taste. He didn't say it tasted good but rather you can get used to it.

I looked on the internet and it said some products trying to imitate

beef are using a double fermentation process that creates a fungus. Well, I can tell you that definitely sounds tasty.

God put cattle on this earth for a reason but if you want to eat fungus go ahead. But I bet you won't have to worry about anyone ordering a double patty. Let me give you a little advice if you order an imitation burger be sure and put a lot of mustard or ketchup on there and lots of seasoning and perhaps have some habaneros that make it where you can't taste anything anyway. And then a very strong onion and then tell yourself you will get used to it.

Bill Gates is a proven fact that you can be extremely intelligent in

some ways and even rich and there is still a fine line between a genius and an idiot. Bill says a cow puts out more emissions than a car. I have a challenge for him, I will lock myself in my garage with a cow but I want him to lock himself in his garage with his car running for a night then we will see which puts out the most emissions.

The weather is beautiful here this week. In fact, it is 80 degrees warmer than last week. This weather pattern and higher wheat will put a lot of cattle for sale in the next two or three weeks.

Grazing cattle have been high for quite some time. And surprising to me is that feeder futures are that high in the fall

with high grain expectations.

I put an insurance price protection on a lot of my feeders for the fall as I am tired of them dangling that carrot and the market falls. And no money up front, I like that.

A couple of cows were smoking a joint and playing cards. You are right. The steaks were pretty high.

Earlier today I saw a bumper sticker that said, "I am a veterinarian so I can drive like an animal." Now I realize how many proctologists are on the road.

*Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.*

### Woodward Livestock Auction Report

THURSDAY, FEB 25, 2021

Receipts: 4,330 Last Reported: 664 Last Year: 3,565

Compared to a very light run last week: Feeder steers steady to 3.00 lower. Feeder heifers steady. Steer and heifer calves, not enough lastweek to test but a stronger undertone was noted today. Demand was moderate. Quality average. Supply included: 100% Feeder Cattle (55% Steers, 44% Heifers, 1% Bulls). Feeder cattle supply over 600 lbs was 81%.

## PROTEIN TUBS

Hi Pro Protein tubs are a free choice supplement designed for beef cattle on forage diets providing less than 8% protein. The low moisture, cooked molasses products are in a non-returnable plastic container that will enhance intake and utilization of available forages, while reducing labor for producers.

Products: Hi-Pro 25% Tub w/ 5% Fat | Hi-Pro 38% Hi-Energy Tub w/ 12% Fat  
Both available in plastic or bio tub.

# A LOOK BACK AT NATIONAL FFA WEEK

February 20-27, 2021

## Local FFA Chapters Celebrate 2021 National FFA Week

The Local and National FFA Chapters Nationwide Celebrated National FFA Week, Feb. 20-27, 2021. This FFA Week embraced more than 92 years of FFA traditions while looking forward to the organization's future. Nearly 670,000 members participated in National FFA Week activities at local, state and national levels. These members have a passion for agriculture. Designated a national week in 1947, the week of George Washington's birthday, Na-

tional FFA Week runs from Saturday to Saturday each year and gives FFA members an opportunity to educate the public about agriculture. During the week, chapters conduct a variety of activities to help others in their school and community learn about FFA and agricultural education.

Today's FFA members are the innovators and leaders of tomorrow. Through agricultural and hands-on learning, they are preparing for more than 250 unique career op-

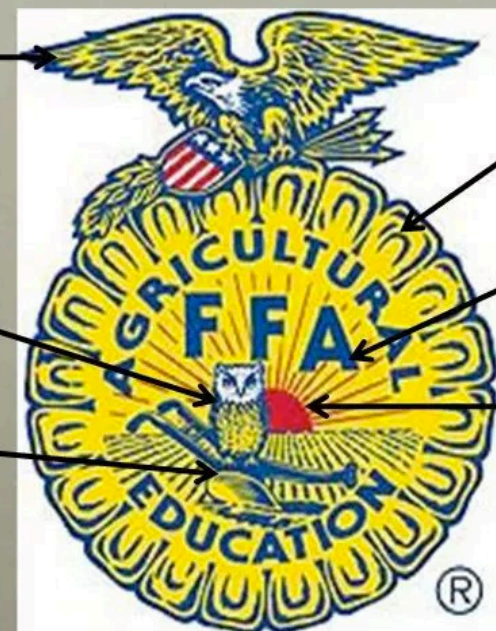

portunities in the food, fiber and natural resources industry. The National FFA Organization provides leadership, personal growth and career success training through agricultural education to 669,989 student members who belong to one of 8,630 local FFA chapters throughout the U.S., Puerto Rico and the U.S. Virgin Islands. The organization is also supported by 459,514 alumni members in 2,236 alumni chapters throughout the U.S.

## A SYMBOL OF PRIDE – THE FFA EMBLEM

Eagle – national pride, freedom

Owl – wisdom

Plow – hard work, labor, tillage

Cross-section of Ear of Corn – unity

Words – FFA is intracurricular

Rising Sun – progress, a new day

# EXPLORING ENERGY NEWS

## America's Natural Gas and Energy Challenges

**By: Mark A. Stansberry,**  
Award-Winning Author  
Energy Advocate and  
Chairman  
of The GTD Group  
[www.nationalenergytalk.com](http://www.nationalenergytalk.com)  
**FACEBOOK: National**  
**Energy Talk**

Our nation recently faced challenging winter weather conditions. Many people were impacted by energy and water shortages. It definitely made everyone aware of how vitally important our energy industry is to our nation.

There is much debate as to the direction of our energy industry's future. A theme that I have embraced since the founding of the International Energy Policy Conference, is "striving for energy efficiency and environmental preservation".

In order to have a smooth transition to our energy future, all forms of energy will need to be addressed, along with infrastructure, water usage, and other vital challenges. Natural gas will be important in the energy mix.

In 1977, after working on the staff of U.S. Senator Dewey F. Bartlett of Tulsa, I began working as a petroleum landman in Elk City, in western Oklahoma. I did

not realize at that time that some of the oil and gas leases I was purchasing would wind up as locations for some of the deepest natural gas wells, not only in the Anadarko Basin of western Oklahoma, but in the world (over 20,000 feet), and natural gas would be playing a significant role in meeting energy needs in the 21st Century.

However, the boom our industry experienced in the late 1970s and early 1980s attracted the attention of our policy makers, and there was an attempt to implement a Windfall Profits Tax. I remember being quoted in an Oklahoma City newspaper in 1980 as saying that the Windfall Profits Tax would be devastating to the energy industry. Twenty-six years later, California Proposition 87, a tax proposal on the oil and gas industry, was presented to California voters and fortunately defeated. Nevertheless, this demonstrates the disconnect between our industry and our government.

It is important that there be an understanding of the history of natural gas in Oklahoma. In 1977, I began primarily purchasing oil and gas leases on behalf of The

Mark A. Stansberry

GHK Company, a company led by Robert Hefner III through Cooper West's firm.

Robert Hefner III was the pioneer who led this nation towards natural gas. He is now known as the "Father of Deep Natural Gas." Along the way, Robert and his team met the challenges of "innovating the technologies." He also had the challenge of communicating to the leaders of this country that natural gas was uneconomical to produce at controlled prices. Therefore, he led the effort to regulate natural gas prices in the 70s.

The government stepped in after the deregulation passage with a piece of legislation that did not allow the use of natural gas for electric generation. This was a great setback to the natural gas industry.

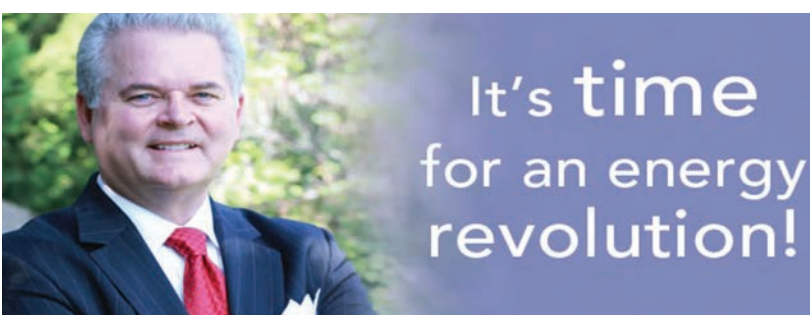

Today, it is vital to Oklahoma and our nation's economy that we have a strong natural gas and energy industry.

It will take all of us striving for energy efficiency and environmental preservation. America needs America's energy! All forms. All American. Future generations are depending on us to keep the American dream alive!

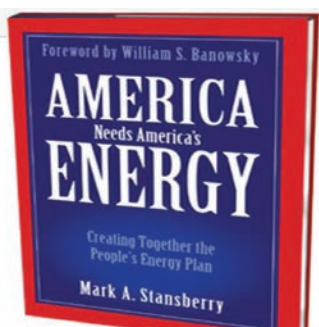

# AMERICA

Needs America's

# ENERGY

It's time  
for an energy  
revolution!

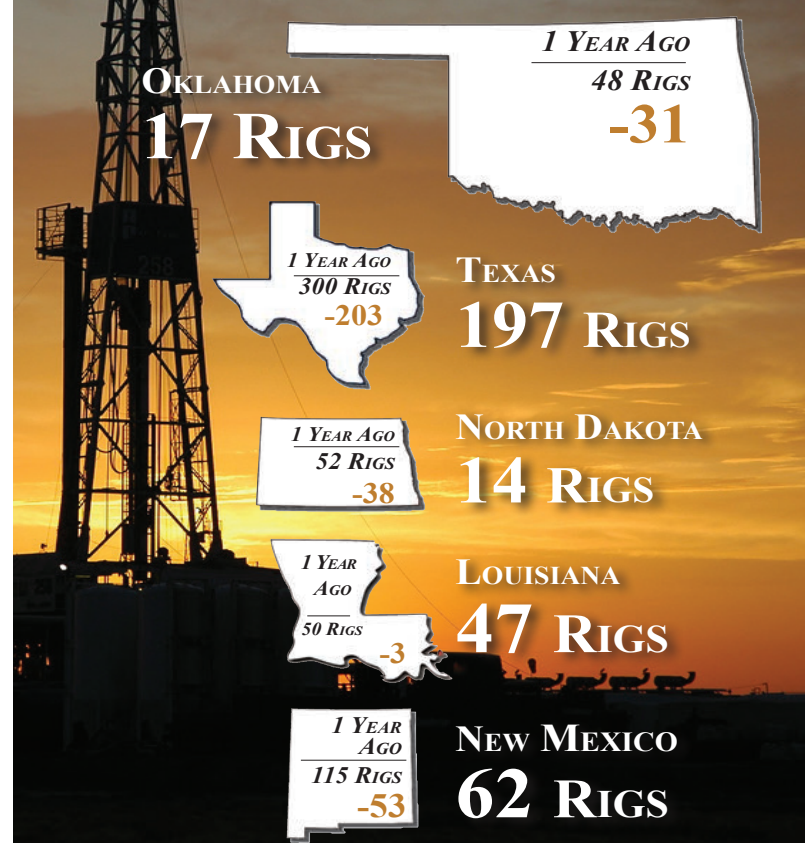

"The time has come for all of us, the people, to take control of our energy future here in America."

### *Our Genetics Work – We Have Proof!*

By using the same genetics in both our commercial and registered herds, we can gather data and track our cattle through the feedlot. If our genetics aren't profitable on the range, in drought conditions, in the feedlot or on the rail, we are the first to know.

We value the importance of low inputs with high efficiency, added pounds through genetic merit, and honest females that make it happen year after year.

Achieving the satisfaction of our customer is as important as achieving the satisfaction and welfare of our final consumer, the patient. Therefore, we try to establish strong relationships with our customers based on a tailored service and on maintaining collaboration and cooperation, able to fulfill all the needs that may arise. In short, no matter the type of customer - small dispensaries, corporate owned dispensaries, certified growers, we know that, by paying attention to small details, we can achieve the goal which unites us to our customers: achieving excellence together furthering the advancement of medical marijuana to hit our goal of satisfaction by the patient.

## Understanding What We Read

THE TIE THAT BINDS

In the beginning, God had a plan. Genesis 2:18, 22-24 tells us, "And the LORD God said, It is not good that the man should be alone; I will make him an help meet for him. And the LORD God caused a deep sleep to fall upon Adam, and he slept: and he took one of his ribs, and closed up the flesh instead thereof; And the rib, which the LORD God had taken from man, made he a woman, and brought her unto the man. And Adam said, This is now bone of my bones, and flesh of my flesh: she shall be called Woman, because she was taken out of Man. Therefore shall a man leave his father and his mother, and shall cleave unto his wife: and they shall be one flesh." This cleaving together is explained further in I Corinthians 11:11-12: "Nevertheless neither is the man without the woman, neither the woman without the man, in the Lord. For as the woman [is] of the man, even so [is] the man also by the woman; but all things of God." Solomon advises man: "Let your fountain be blessed, And rejoice with the wife of your youth. As a loving deer and a graceful doe . . . And always be enraptured with her love (Proverbs 5:18)." And in Proverbs 12:4, he reminds women of their reward: "A worthy wife is her husband's joy and crown . . ." God tells us in Hebrews 13:4, "Marriage is honourable in all . . ." And there is even more to God's plan. Genesis 1:28 tells us: "And God blessed them, and God said unto them, Be fruitful, and multiply, and replenish the earth. . . ." With this, he commands of the fruit in Ephesians 6:2, "Honour thy father and mother; which is the first commandment with promise. . . ." "Hearken unto thy father that begat thee, and despise not thy mother when she is old" (Proverbs 23:22). I would like to take this opportunity to thank the Lord for blessing me with the wonderful parents that he has blessed me with my father and mother, Homer and Virgie Koch. (By Brenda Ryan my wonderful wife)

# WHITE DENTAL CARE

## Drs. Mori & Teri White, DDS

### Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

*Drs. Mori & Teri White practice cosmetic, implant and family dentistry at 2802 8th Street, Woodward, OK 73801.*
