Some of my neighbors have said I'm going broke. So, I better sell before the bank forecloses on me.

This farm is on the Washita River and Sandstone Creek.

The farming land is very poor. Grass will not keep a goat alive. Fences will not hold a milk cow. The four irrigation wells will not produce enough water to drown a rat, plus they are broke down three-quarters of the time. This farm is a First-Generation Farm - one of the few in this location.

## Improvements in cow, bull markets

**Jerry Nine**  
Woodward  
Livestock  
Auction  
Woodward, OK

The cow and bull killing market was definitely higher this week. Even after we were \$3 to \$4 per hundredweight higher than last week we still jumped another \$4 per hundredweight.

The highest cow we sold brought \$74 per hundredweight and highest bull brought \$99 per hundredweight.

On the feeder futures we have four months that are over \$160 per hundredweight, which is August through November. I am surprised at that with the fact of grains being higher. I hear several cattlemen say there isn't much rhyme or reason with our futures on both feeder

and fat cattle and with that in mind it is hard to tell where you stand. And with the packer making \$450 per head it is even more frustrating.

Grazing cattle are in very strong demand with a lot of producers buying cattle for grass.

We had quite a lot of bulls today at the sale. Several looked like they had been tested and probably not fertile. Most ranchers are fertility checking their herd bulls after

that hard freeze we had a month ago. Some show a brownish look on the bottom part of testicles, which makes you think frozen. Test your bulls!

I heard a preacher say this past week that he is often asked lately why our country is going downhill. And his answer was our country no longer has a fear of God.

At the sale at noon on Tuesday there were several ranchers talking how America is becoming an

embarrassment. When President Joe Biden appointed our new health person and he says he is a woman.

And we gave \$11 million for another country to explore their sexual identity. When you do that you are looking for ways to give away money. Wouldn't that money have been better spent at home in a number of ways?

I saw where one person posted, "If anyone gets a message from me about

canned meat—don't open it. It is spam."

Tough times create strong men—strong men create easy times—easy times creates weak men and weak men create tough times.

*Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.*

**Understanding What We Read**

**By Their Fruits Ye Shall Know Them**  
One of the most misunderstood men to ever live was Jesus Christ. Often he spoke in parables or figurative speech. What did he mean when he said, "By their fruits ye shall know them"? In Matthew 7:13-20, he warns us about being led astray from anything that is contrary to the word of God. He taught his apostles well: "... no lie is of the truth" (1 John 2:22). Jesus knew God is somewhat picky about his word. How can we say that? Look back in history as it is for our learning (Rom 15:4). What were Adam and Eve commanded not to do? "But of the tree of the knowledge of good and evil, thou shalt not eat of it..." (Gen 2:17). Didn't both Adam and Eve get punished for disobeying? God means what he says! So what fruit was Jesus talking about in his parable? He tells us: "Beware of false prophets which come to you in sheep's clothing, but inwardly they are ravaging wolves" (Matt 7:15). These prophets appear fine on the outside and may be putting out some good fruit, but they are also teaching something (forbidden fruit) that will destroy the sheep. The same happens when we put out rat poison. Isn't it 99% good in order to get the rat to eat it, but the remaining 1% is the poison that is going to kill the rat? How much forbidden fruit did Adam and Eve have to eat to be kicked out of the Garden of Eden? In order to recognize forbidden fruit, we are required to: "Prove all things; hold fast that which is good" (1 Thes 5:21). Is the teaching we sometimes hear about the trinity, truth or forbidden fruit? The word "trinity" is not found in the Bible. We must ask ourselves who did Jesus pray to and where did he get his power (John 5:19). What did Jesus call himself (John 8:40)? Why is this so important to know (John 17:34)? And what about the teaching we sometimes hear about the immortal soul spirit? Truth or forbidden fruit? Is it more important to rely on what someone who spent several years attending seminary school, learning the traditions of man, says or what the word of God says? Beware! We are warned about this in Col 2:8. God means what he says.

## Hammon Man Dies in ATV Accident – Another Hospitalized

April 6, 2021 - A Hammon man has died and another has been hospitalized after the ATV they were riding in rolled over.

According to the Oklahoma Highway Patrol, the accident occurred in a pasture a half-mile north and one mile west of Hammon in Roger Mills County, just before 1:20 Monday afternoon.

OHP says 65-year-old Kerry Trout was driving a 2011 Polaris Ranger through the pasture when he lost control of the vehicle. The ATV would roll one and a quarter times before landing on the driver side. The roll over would eject both the driver and a passenger, 26-year-old Tyson Trout also of Hammon.

The OHP report says that Kerry Trout sustained massive injuries in the mishap and was pronounced dead at the scene.

Tyson Trout sustained head and trunk internal injuries and was flown to OU Medical Center where he was admitted, and last listed to be in stable condition.

## Elk City Man Charged for Aiding in Prisoner’s Escape

April 5, 2021 - An Elk City man was charged March 26 after allegedly helping a prisoner escape from the Lexington Correctional Center in early March.

29-year-old Dillon Hill was charged in Cleveland County District Court after he allegedly drove Lexington inmate Matthew Perry from the facility.

Perry was taken into custody without incident on the evening of March 12 in Sayre by the Beckham County Sheriff’s Office, Sayre Police Department, the Oklahoma Highway Patrol and agents of the Oklahoma Department of Corrections Office of Inspector General.

According to a court affidavit, an Oklahoma Department of Corrections agent reported that Perry, who was an active member of the Irish Mob Gang, was indicted March 2 along with other gang members, and Hill assisted in his escape March 7. A Cleveland County District Judge issued a bench warrant with a \$50,000 bond March 12 to the DOC after reviewing probable cause.

According to the affidavit, Hill was identified based on evidence collection, eyewitness testimony and DOC custody records. According to DOC records, Hill also is a member of the Irish Mob Gang. Lexington facility footage shows Hill stopping a car at about 6:11 a.m. March 7 on the edge of the property, picking up a passenger, then leaving the facility. Other witnesses testified that they saw Perry leave the facility and walk in the same direction where the vehicle was stopped.

Hill is currently in custody at the Cleveland County jail with a \$30,000 bond, awaiting his preliminary hearing conference scheduled for April 27.

The Oklahoma State Courts Network shows that Hill has applied for representation from the Oklahoma Indigent Defense System.

According to an enhancements page, Hill was previously convicted of or pled guilty to unlawful possession of controlled dangerous substance and second-degree burglary in Beckham County in 2015.

According to DOC records, Hill previously served three terms with the DOC, and was previously processed into and out of DOC custody six times.

**(DWC) DEEP WATER CULTURE STYLE GROW**

We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

**FEATURED STRAIN OF THE MONTH!**

**STORM CHASER**

Storm Chaser is an indica leaning hybrid cross of Skywalker - Kosher Chem - Zookies that offers a sweet grape like aroma, with heavy earth undertones. I got this strain from my friends at Red Rock Remedies out of Guthrie. The buds were fluffy, light green with hints of purple and light orange pistils, very sticky but broke down decently well and smoked slowly thanks to it! The taste matched the smell pretty accurately, but also offered a clean, almost purified note. I did notice this flower gave me the munchies pretty bad, but then I slept like a baby so I highly recommend for that (lol), migraines or headaches, anxiety and depression. - reviewed by Jonell, Best Buds
