nesmithpropane@att.net

WE SERVICE WHAT WE SELL!

HOW MUCH DAMAGE CAN FLIES ACTUALLY DO?

The negative impact that flies have on the beef industry, during the summer, is staggering! Horn flies alone, cost the beef industry an estimated \$1 billion.

-NEGATIVE IMPACT OF FLIES TO YOUR HEARD-

- Flies are a threat to your bottom line.
- Bunching of animals and changes in grazing patterns.
- Cattle congregate in the driest, dustiest areas to help combat flies. As a result, cattle overgraze in those areas, and under-utilize other areas
 - Decreased milk production
- Reduced weight gain and reduced weight of weaning calves

OUR FOCUS?

We focus our attention on helping ranchers protect their cattle against flies through the summer, thus reducing stress, helping with grazing behaviors and increasing milk production and weight gains.

Happy cows make for happy calves and happy ranchers!

WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...
 Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Time is right to press on antitrust laws

This was a text recently sent to me that read as follows, “We have a big problem—well, four to be exact. Consumers are paying way too much for beef at the grocery store. Meanwhile, our independent cattle producers, who we rely on to feed the world, are going broke. “Between the consumer and producer sit four large beef-packing companies that control

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

and producer sit four large beef-packing companies that control

over 80% of the processing market. These four packers seemingly are able to control prices at their will and thus have realized significant profits while consumers and independent cattle producers pay the price.

“The time has come to fix this. We are launching a bipartisan, nationwide effort to defend our consumers and cattlemen. We have announced that we are sending a letter to the Department of Justice asking it to examine whether the control meat packers have of the processing market violates United States antitrust laws. We are asking members of Congress—House and Senate, Republican and Democrat to support this effort.

“We need your help. Please

call your member of Congress and ask them to join our letter to protect consumers and cattle producers. The congressional switchboard can be reached at 202-224-3121.”

Current sponsors are Sens. Mike Rounds, R-SD, Tina Smith, D-MN, Cory Booker, D-NJ, Steve Daines, R-MT, Cynthia Lummis, R-WY; Reps. Warren Davidson, R-OH, Yvette Herrell, R-NM, Rick Allen, R-GA, Andy Barr, R-KY, and Paul Gosar, R-AZ.” Also, Oklahoma Gov. Kevin Stitt and Oklahoma Secretary of Agriculture Blayne Arthur.

I challenge you to call your representative or senator plus every local and state and national cattle organization and the state

and national banking association. Plus, Farm Bureau and Farmers Union and everyone else you can think of. It is now or never, do or die.

If everyone will get on board and put pressure on the DOJ maybe we can get something done.

You ask, “What did a wise man once tell his wife? Nothing, because he was a wise man.”

One cowgirl said to the other, “I got this horse for my husband.” The other cowgirl said, “Sounds like a good trade to me.”

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

Woodward Livestock Auction Report

THURSDAY, MAY 27, 2021

Receipts: 4,424 Last Reported: 3,004 Last Year: 4,982

Compared to last week: Feeder steers steady to 2.00 higher. Feeder heifers 2.00 to 4.00 higher. Steer calves steady. Heifer calves mostly 4.00 to 6.00 higher. Demand was moderate. Quality average. Supply included: 100% Feeder Cattle (56% Steers, 42% Heifers, 2% Bulls). Feeder cattle supply over 600 lbs was 89%.

Understanding What We Read

FOR STUDENTS OF THE BIBLE

LIFE SAVING GOSPEL: “Moreover brethren I declare unto you THE gospel which I preached unto you... (1st Corth 15:1). How many gospels or good messages are there? Only one! Paul continues on with the basic gospel message in 1st Corinthians Chap 15:3; “By which you are saved IF ye keep memory what I preached unto you...” The word IF makes something conditional. So Paul is telling us we must have the following teaching in our memory and believe and understand it to be saved. Vs 3; “For I delivered unto you first of all how that Christ died for our sins...” Who is Christ, the one that died for our sins? The anointed one, the man Jesus, the one anointed with the power of God. Not God, for he cannot die. Vs 4; “And that he was buried, and that he rose again the third day according to the scriptures”. Jesus the human being, completely died, he ceased to live or think. But after 3 days and nights in the death state, God himself, through his power brought Jesus back to life and out of that tomb or grave. This is the good message or gospel, the hope of all mankind that has ever died, to one day come out of our burial place and to live again someday. Can we see how important is it to know the true nature of God and who the real Jesus is to understand what Paul is trying to tell us here? BEWARE: “And this is life eternal, that they might know thee the only true God, and Jesus Christ whom thou hast sent”(John 17:3). God the creator of all. Jesus, a man, our mediator (1st Tim 2:5). Study for yourself to see if these are true.

EXPLORING ENERGY NEWS

America's Energy Reliability, Part 2

By: Mark A. Stansberry,
Award-Winning Author
Energy Advocate
and Chairman
of The GTD Group
www.nationalenergytalk.com
FACEBOOK: National
Energy Talk

Oil and gas pipelines are essential to our energy reliability, energy security, and economic prosperity. When the Colonial Pipeline was shut down recently, America experienced the need for accessibility and security.

America is faced with important decisions concerning strategic energy policy and development for years ahead.

The digital transformation in the energy industry is an integral part of energy planning. In early spring of 2018, I began speaking on behalf of my company and as an advisory board chair of IngenuitE, Inc., an Oklahoma City based IT company on the subject of the "digital transformation: from the white board to the boardroom." As a speaker at The Pipeline and Energy Expo in Tulsa, I expressed my concern of the importance of oil and gas pipelines and the need for a strong and viable digital transformation, which would emphasize cyber security.

In addition, the theme of my presentations in Houston, Lake Charles, Denver, Oklahoma City, and other locations in the US, has been "National Energy Talk: America's Energy Dreams and Global Economic Realities." The sub-theme has been

"Achieving Operational Excellence Through Digital Transformation."

At each of these conferences, I have been confronted by some energy industry participants that believe they are not being totally funded or equipped for the digital transformation that lies ahead.

The leaders of energy companies are faced with important decisions to make, regarding infrastructure. It is so challenging to be faced with the uncertainty of whether pipeline infrastructure and oil and gas development will be in a position to have the proper investment to maintain an energy secure and affordable energy industry.

As America strives to develop its energy strategy, it is important that we maintain our energy reliability and security, but not lose sight of the fact that billions of people throughout the world do not have access currently, and will not have access without the energy expertise, such as LNG and the natural gas industry.

Technology and innovation within the oil and gas industry is at the forefront. The oil and gas industry is leading the way, regarding ESG (Environmental Social Governance), by implementing strategies and plans. Several oil and gas companies are studying ways to address methane emissions and carbon-capture sequestration.

I chaired the 2014 IEPC Energy and The Environment Roundtable and Event/Summit in Washington, DC. Three key areas became the focus of discussion:

Abundance=Export: With

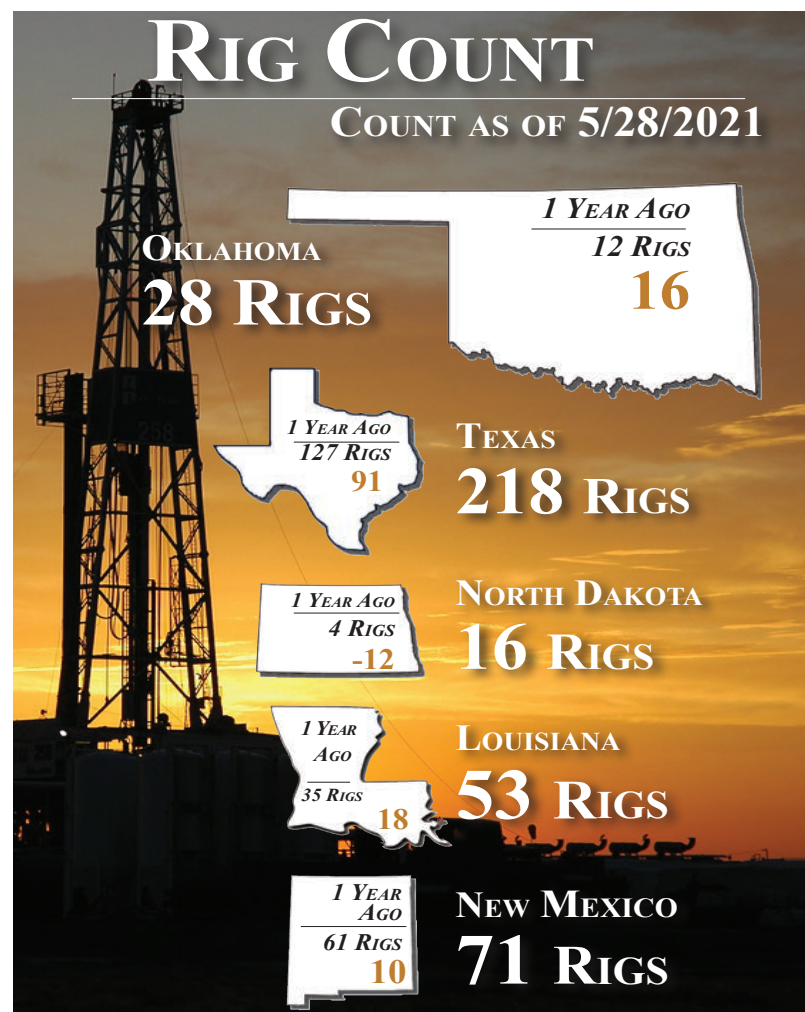

Mark A. Stansberry

proper/not excessive regulations and best practices in place, the abundance of natural gas and oil we have in the US can lead to economic growth, and provide jobs. Proper management of the US oil and natural gas assets can greatly benefit US manufacturers and lead our country to self-reliance. Public/Private partnerships are vital. All forms of energy should be considered.

Security: Federal land access is needed for US oil and gas development. PR China, Russia and OPEC are among the interests aggressively pursuing global energy development. Therefore, the US must aggressively position and maintain itself as the global energy leader. Concerns were expressed about the price volatility especially in the midstream market. Also, energy efficiency and environmental preservation issues were addressed regarding maintaining a necessary balance.

Education: The public and decision makers should be provided the necessary information about energy and environmental issues. Take-aways: Research and Development should be such as seismicity, water usage, natural gas and oil development, water injection wells, renewables along with the cost of development and materials. Agencies should work together in order to properly set a direction for our US energy industry.

America needs America's oil and gas pipelines. America needs America's energy! All forms. All American. Future generations are depending on us to keep the American dream alive!

RED ROCK remedies

www.redrockremedies.com

We are a greenhouse located in Central Oklahoma.

WE DELIVER STATEWIDE!

GELATO • LSD • DREAM QUEEN • STORM CHASER • BLUEBERRY MUFFIN • PINEAPPLE UPSIDE DOWN CAKE

(DWC) DEEP WATER CULTURE STYLE GROW
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

FEATURED STRAIN OF THE MONTH!

STORM CHASER

STORM CHASER (hybrid) is a cross of Skywalker x Kasher Chem x Zookies, which makes it a wonderful heavy indica strain. It's great for insomnia, as well as anxiety, ADHD, bipolar disorder, migraines, and PMS. It's particularly effective at pain relief. The taste is pungent and sweet, with earthy tones. The indica stress relief of this versatile strain makes it a good choice for patients looking for some mental and physical relief. This strain is great for your mind and body! Thank you RED ROCK REMEDIES for this smooth and relaxing TOP SHELF medicine!

SEVERE WEATHER COVERAGE

Paragon Communications wants to help keep you safe during Storm Season!

Ding Ding sounder

When severe weather rolls into the listening area, you'll hear a soft two-tone combination sounder on KECO & KOOL 94. This means severe weather is threatening, and that we're keeping an eye on it to let you know what's going on.

So when the weather turns ugly, tune in to KECO 96.5 or KOOL 94.3 for the latest updates!

“In Case You Missed It Last Week”

By Paragon News Director
Jared Atha

Weatherford Woman Leads Multiple Agencies on Pursuit

May 28, 2021 - A Weatherford woman wanted in Oklahoma County on a felony charge, led local authorities on a pursuit through three Custer County communities recently.

The woman would eventually be arrested in Arapaho but not before driving through residential yards and hitting a Custer County Deputy’s patrol unit.

According to a probable cause affidavit, the incident took place on the evening of May 14 when a deputy with the Custer County Sheriff’s Department attempted to pull over 46-year-old Danielle Chounet Beard on the west side of Weatherford after observing that the subject failed to maintain a lane. After the deputy initiated a traffic stop, the subject refused to pull over, and would enter westbound Interstate 40. Court records would show that the speeds would reach 82 miles per hour, before the subject would exit at Clinton, navigate through a construction zone, and turn north on U.S. Highway 183. Between Clinton and Arapaho, authorities reported that the subject would increase her speed to 75 miles per hour.

When the pursuit reached Arapaho, the subject allegedly would drive through multiple yards on private property, and eventually hit another deputy’s patrol car before coming to a stop.

After exiting the car, Beard was held at gunpoint and ordered to the ground – which she did – before being arrested.

A search of the vehicle would turn up several empty beer cans, a nearly empty vodka bottle, and unopened beer cans.

A passenger in the vehicle would tell authorities that the two had left a family function where drinking was taking place. He stated he was unaware of the ongoing pursuit because he was asleep in the car during the incident.

Beard was charged with one count of endangering others while eluding police, and driving while under the influence of alcohol.

Along with the Custer County Sheriff’s Department, officers from the Clinton and Weatherford Police Department’s assisted in the pursuit.

Undercover Operation Lands Cordell Man Behind Bars

May 27, 2021 - An investigation led by the Oklahoma Bureau of Narcotics has landed a Cordell man behind bars with 10 felony charges.

According to court records, 21-year-old Roy James Colt Terrell was arrested on May 14 after an investigation that started in mid-November showed Terrell was allegedly distributing illegal drugs in the area, mainly in Washita County.

Court documents show that OBN officials used a confidential informant with hidden recording devices to purchase methamphetamine from Terrell on three separate occasions between November 12, 2020 and February 26. The first transaction took place at Terrell’s residence in Cordell, the second on State Highway 183 between Cordell and Clinton and the third transaction taking place in Dill City near the Municipal Park.

In total, OBN reported to have purchased nearly 390 grams of meth from Terrell.

Terrell was charged with two counts of trafficking in illegal drugs within 2,000 feet of a school, due to the location of Cordell Schools, trafficking in illegal drugs within 2,000 feet of a park, three counts of possession of a controlled dangerous substance, three counts of unlawful use of communication facility, three counts of trafficking in illegal drugs, maintaining place for keeping and selling controlled dangerous substance and child neglect, because the suspect allegedly had a juvenile at his residence.

Bond for Terrell was set at \$250,000. A preliminary hearing conference has been scheduled for July 27.

Altosid IGR Mineral Tub

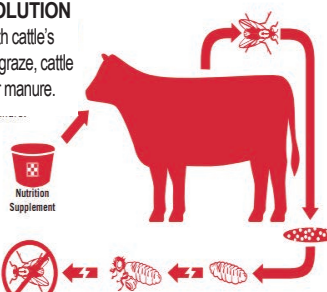

It's a fact! The constant biting of horn flies inflicts excessive stress on cattle. Fly counts can reach up to 2000 flies per animal, taking up to a gallon of blood in a 135-day fly season. Control horn flies all season with Altosid IGR Wind & Rain Mineral Tubs and you will see a difference in your heard. Begin putting Altosid IGR out in the spring. Continue feeding Altosid IGR throughout the summer until 30 days after the first frost to help prevent horn flies.

WIND AND RAIN® STORM® FLY CONTROL MINERAL CONTAINS ALTOSID®

ALTOSID® IGR SOLUTION

Altosid is ingested with cattle's mineral or feed. As they graze, cattle disperse IGR via their manure.

Adult horn flies live 2 to 4 weeks, taking 20 to 30 blood meals per day.

In 1 to 2 days, eggs hatch into larvae. After 3 to 5 days, the larvae molt into pupae.

Altosid breaks the life cycle here, preventing pupae from molting into adults.

Female flies leave the animal for a few seconds to lay eggs in fresh manure less than five minutes old.

Also available in sacks!

LAND AUCTION - WEDNESDAY, JUNE 9TH 10 A.M.
Chisholm Trail Expo Center 111 W. Purdue Ave., Enid OK
Land Location: From the intersection of W. Owen K. Garriott (Hwy 60) and Oakwood Road, go north on Oakwood for 5.3 miles to the SE corner of the land. State Hwy 45 is on the south side of the land and Lake Hellums Road is on the north.

Selling 547± Acres of Garfield Co. Farmland in 12 Tracts! This property lies on the west and north sides of the Chisholm High School but is NOT within the city limits and could be used for cultivated crops, pasture, or range. Enjoy all the benefits of owning farmland without the burden of being a long distance from town! For a soil map, topography map, and to see an aerial video of this land, please visit our website at smithcoauctions.com OR to see it for yourself, call Ira Smith at 580-334-6001 and schedule a showing!

Sellers: Darrell Miller & Devry Miller

HOME & LAND AUCTION
2 AUCTIONS 1 DAY! SELLING 2 HOMES AND 64± ACRES IN THE LEEDEY, OK AREA! - FRIDAY, JUNE 11TH 10 A.M. / 11 A.M.
OPEN HOUSE 5 p.m. - 7 p.m. Wednesday June 2nd
77573 State Hwy 34, Leedey, OK / 301 E. Ninth Street, Leedey, OK

Tract 1- Home on 2.5± Acres: Dreaming of more space and a country home? This one has it all. Having an estimated 3,916 sq² of living space this home has many extras! Get your exercise in the indoor Resistance Pool (15'x7'), relax in the sunroom, or outside on the wood deck! An oversized attached 2 car garage with storage space also compliments the home. In addition, the home has 2 storage buildings, concrete drive, and highway frontage.

Tracts 1 & 2 will be sold using the Multi-Parcel Auction Method

Tract 2- 64.15± Acres: This property is immediately west of Tract 1 but also has HWY 34 access. This is a diverse piece of property with good native grass, 2 large dams, West Barnitz Creek, good fences, and a 2002 model 1,920 ft² steel building with electricity, concrete floor, plus a 20' lien to on the south side.

Tract 3- This 2 bedroom 2 bathroom home needs your finishing touches! A remodel in progress but awaits you to decide the final decisions! The exterior is recently repainted and received a new roof! The interior has undergone major changes including a very accommodating floor plan. There is an attached carport, outside storm cellar, and storage building! Lots of possibilities and potential! To see these Properties, Call or Text Buck at 580-273-3202.

Seller: Estate of Joe Craig
