WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...
 Take a ***pill*** and ***snooze*** through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Drs. Mori & Teri White practice cosmetic, implant and family dentistry at 2802 8th Street, Woodward, OK 73801.

Telephone (580) 256-4301. See our website at www.woodwarddentist.com

Farm & Ranch

Today in Ag

with Jimmy Clark

LISTEN MONDAY-FRIDAY
12-NOON!

KECO 96.5 FM

Let's Talk About Agriculture

"I actually love putting up hay, especially alfalfa. It's the smell of alfalfa when you're baling it. There's no other smell like it in the world." That's what Jimmy Clark said when asked why he loves agriculture. But his love of ag goes beyond the five senses. "I love the unity of the farming community," Jimmy said. "The way folks help each other out."

Jimmy is bringing his love of the land to 96.5FM KECO weekdays at noon with his new show, "Today in Agriculture, With Jimmy Clark."

GROWING UP IN AG

Born Feb. 2, 1962 at Elk City Community Hospital to Joe and Mable Clark—the youngest of 10 kids—Jimmy's been involved in some form of agriculture most of his life. "I was raised in town but everybody in my family chopped cotton."

He was active in the Elk City FFA program with Larry Long through his junior year of high school. When he transferred to Canute for his senior year, he worked nights welding at Graves Manufacturing in Clinton, helping manufacture hay handling equipment.

After graduating in 1980, Jimmy welded in the oilfield. When the oil boom went bust in 1983, he went from earning \$35 an hour welding to making \$5 an hour as a farm hand at K&D Farm & Ranch at Foss. His job as farm hand meant doing whatever needed to be done for 500 mama cows and 5,000 acres of wheat.

Jimmy did that until 1989 when he went back into the oilfield. Then his service in the military took him to the Middle East for Operation Desert Storm in 1990-1991. After that, he moved to Kansas City and again, worked in the oilfield for 19 years.

BACK HOME, BACK IN AG

He moved back to Western Oklahoma in 2008 and continued working in the oilfield. But he bought land in 2010, six miles west of Willow in the Breaks. He runs a cow-calf operation he calls C Trough Farm & Ranch. He also raises hay crops on a farm west of Carter on the river.

AG ON THE RADIO

When he was approached about doing a show on KECO about farming and ranching, Jimmy jumped at the chance. "Most ag programs deal with state and national issues. I want our community to know what's going on with our farmers and ranchers here at home." Agriculture changes all the time, Jimmy said. There are lots of struggles right now. "Just because you inherited land doesn't mean you can make ends meet."

There are lots of aspects involved in farming and ranching, and Jimmy plans to cover them all. One day, he'll talk about cattle—sale prices, processors making more money than the guy raising the animals, vaccinations, feed. The next day, he may talk to high school kids raising animals. The day after, the show might be about cotton farming or raising peanuts. "I want to talk about everything. Seed, feed, feed trucks, chemicals, animals, veterinarians."

He plans to interview lots of local guests and give as much information

as he can gather about farming and ranching right here. And though the weather may turn dry, the show won't be. "We're gonna have a lot of fun."

Since he's been heavily involved in ag production for a long time, and since he knows so many other producers in agriculture's close-knit community, Jimmy Clark has a pretty good idea what farmers and ranchers face.

"We want to inform our community that life on the farm or ranch isn't a piece of cake. There's struggles everyday."

To keep up with what's going on in farming and ranching in Western Oklahoma and the Texas Panhandle, listen to "Today in Ag, With Jimmy Clark" weekdays at noon on 96.5FM KECO.

JIMMY'S TIP OF THE WEEK

On a serious side -
check your animals' water source at least every other day. Better to do it daily. They're depending on you for a good, clean water supply!

Managing the monopoly

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

After giving credit to Oklahoma Gov. Kevin Stitt and Oklahoma Secretary of Agriculture Blayne Arthur for sending a letter to the Department of Justice to do something about the packer monopoly, I called Oklahoma Cattlemen's Association to see where they stood.

And I was pleased to hear

that they had sent a letter in April 2020 to the DOJ calling for a quick and thorough investigation into the meatpackers. Most recently OCA has continued to call upon completion of the investigation or, at minimum, an update on DOJ progress.

We are at a very critical point to where we need all of the large groups that have agriculture ties to stand up for the individual cattleman.

I personally do not feel that we should have a foreign country own a big share of our food source. If I had the power I would break them up like they did on AT&T. They should give them six months to have these foreign-owned processing plants

or anything that controls our food to get it to where they only own 50% as a foreign ownership. Then the next six months to get it down to 10% maximum for a foreign country.

We should be waking up to a lot of things made overseas like the chips going into our new vehicles. They say that is what is keeping these new vehicles from being built. I liked the approach Trump had—build it in America. They might have cheaper labor but put a tariff on their products to help us compete or better yet thrive. They would do that to us, don't worry.

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

Woodward Livestock Auction Report

THURSDAY, JUNE 17, 2021

Receipts: 4,497 Last Reported: 5,033 Last Year: 5,030

Compared to last week: Feeder steers 4.00 to 8.00 higher with instances up to 10.00 higher. Feeder heifers 8.00 to 12.00 higher. Steer and heifer calves mostly steady on a light test. Demand was moderate to active. Quality average to attractive.

Supply included: 100% Feeder Cattle (59% Steers, 40% Heifers, 1% Bulls). Feeder cattle supply over 600 lbs was 82%.

Understanding What We Read

FOR STUDENTS OF THE BIBLE

Hear Ye Him

New Testament Commandments: “And there was a cloud that overshadowed them: and a voice came out of the cloud, saying, This is my beloved son: hear him” (Mark 9:7). Hear him is just as much of a commandment as any. Let us hear what Jesus has to say: “Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the first and great commandment. And the second is like unto it, Thou shalt love thy neighbour as thyself” (Matthew 22:37-39). To obey the first one, don't you we need to know whom this real God is? Is God his own son? Is Jesus his own Father? Did Jesus pray to himself or to his father above? Is God human or is he the creator of humans? Using our God given reasoning ability doesn't it make sense that God and his son Jesus are separate one from another? How important is it to know who the real God and Jesus are? “And this is life eternal, that they might know thee the only true God, and Jesus Christ, whom thou hast sent” (John 17:3). To have a clear understanding of who the real God is and his son Jesus, a human being, read 1st Tim 2:5. Think how much a better world it would be if everyone obeyed those two commands. Another command: “Take heed no man deceive you” (Math 24:4). Whom is Jesus warning us about? There is some major deception or errors going on or else Jesus did not tell us right when he said: “...and shall deceive many” (Math 24:5). What is wrong with studying the the word for ourselves to “Prove all Things” to see if these things are true?

for your **SEVERE WEATHER COVERAGE**

Paragon Communications wants to help keep you safe during Storm Season!

Ding Ding sounder

When severe weather rolls into the listening area, you'll hear a soft two-tone combination sounder on KECO & KOOL 94. This means severe weather is threatening, and that we're keeping an eye on it to let you know what's going on.

So when the weather turns ugly, tune in to KECO 96.5 or KOOL 94.3 for the latest updates!

(DWC) DEEP WATER CULTURE STYLE GROW

We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

FEATURED STRAIN OF THE MONTH!

STORM CHASER

STORM CHASER (hybrid) is a cross of Skywalker x Kasher Chem x Zookies, which makes it a wonderful heavy indica strain. It's great for insomnia, as well as anxiety, ADHD, bipolar disorder, migraines, and PMS. It's particularly effective at pain relief. The taste is pungent and sweet, with earthy tones. The indica stress relief of this versatile strain makes it a good choice for patients looking for some mental and physical relief. This strain is great for your mind and body! Thank you RED ROCK REMEDIES for this smooth and relaxing TOP SHELF medicine!

Elk City
Chamber of Commerce
JOB OPPORTUNITIES
Chamber of Commerce
Part-Time Digital Media
Coordinator
Job Description
The Elk City Chamber of Commerce is seeking a highly motivated individual to work as a Digital Media Coordinator. The individual will work under the direction of the Executive Director of the Chamber of Commerce. The mission is to highlight the many charms of our community and to accelerate the growth of our community along a multitude of social and digital media platforms and to help enhance the many activities, events and attractions that Elk City has to offer along with our Chamber Members.
Preferred Experience & Abilities (not limited to)
• Proven working experience in social media marketing or as a Digital Media Specialist along with graphic design
• Excellent consulting, writing, editing (photo/video/text), presentation and communication skills
• Demonstrable social networking experience and social analytics tools knowledge
• Adequate knowledge of web design, web development and SEO
• Knowledge of online marketing and good understanding of major marketing channels
• Positive attitude, detail and customer oriented with good multitasking and organizational ability
• Person needs to be self-motivated and highly creative
• Assist with and attend Chamber/CVB/Community activities and events as required and there will be some weekends and evenings
• Able to manage social media platforms and website updates and promote Chamber Members, activities, events and Elk City attractions
• Writing and communication skills
• Maintains a high level of confidentiality
• Willing to learn new applications/processes when applicable, along with ongoing professional training as needed to maintain current with technological demands of position
• Provides the highest quality customer service to members and the public
Skills & Qualifications
Persons applying should have basic office skills to include answering phones, emails, and general record keeping skills. The individual must be fluent with multiple social media platforms to include, but not limited to Facebook, Twitter, Instagram, Tic Tok, and Snapchat. You must also be familiar with working in and creating word documents, spread sheets, and slideshows. Ability to handle multiple tasks and attention to detail. Ability to work cooperatively with staff and volunteers.
Preferred Educational and Experience Requirements
• High School Diploma or GED
• Bachelor's Degree in Communications/Marketing or equivalent
• 1-2 years of marketing and/or communication experience
• Must have Valid Driver's License
• Criminal & Employment Background Check
• Must pass pre-employment drug screen
All Serious inquiries, please mail or email resume with 3 references • No phone calls please

“In Case You Missed It Last Week”

By Paragon News Director
Jared Atha

Deadly Weekend on Western Oklahoma Roads

June 21, 2021 - It was a deadly weekend on western Oklahoma roads with area accidents where one saw an Elk City man lose his life.

That accident occurred Saturday night when, according to the Oklahoma Highway Patrol, 65-year-old Robert Potter was driving his 2004 Chevrolet Blazer eastbound on Interstate 40 near the 26 mile marker, when the vehicle departed the road to the left, came back on the road in a broad slide then began to roll. The vehicle would hit a sign support and continued to roll an unknown amount of time before coming to rest on the its wheels.

Potter was pronounced dead on the scene due to the injuries.

A separate accident occurred Friday night also on Interstate 40, this time in Custer County near mile marker 55.

OHP says while traveling eastbound, a 2022 Freightliner semi truck had slowed down due to a separate non-injury accident. A second vehicle driven by 21-year-old Alfred Thomas Junior of Oklahoma City failed to see the semi slow down and struck the vehicle. Authorities say this caused the 2001 Honda Civic to depart the road to the right before coming to a stop. OHP says Thomas was pinned in the vehicle before being freed by Burns Flat and Clinton Fire departments. Thomas was flown to OU Medical Center in Oklahoma City where he was admitted in stable condition with an arm injury. OHP says a 4-year-old boy was also in the car at the time of the accident, and was transported to Alliance Health Hospital in Clinton where he was treated and released.

Thomas Man Ran Over By Semi

June 18, 2021 - A Thomas man is in stable condition after a semi ran over his legs.

According to the Oklahoma Highway Patrol, the accident took place on State Highway 47, 6 miles west of Thomas in Custer County, just before 3 a.m. Friday morning when a 2013 Peterbilt Semi driven by 35-year-old James Cole of Saint Lawrence, South Dakota was eastbound on the highway and ran over 27-year-old Kole Wheritt’s legs while he was laying on the highway.

OHP says Cole came to a stop and dialed 911.

Wheritt was flown from the scene to OU Medical Center in Oklahoma City and admitted with leg injuries.

OHP listed the condition of Wheritt as ability impaired due to drinking.

Elk City Man Allegedly Clocked Going 77 mph on City Streets

June 18, 2021 - An Elk City man received a felony charge recently after allegedly speeding on city streets in Elk City while attempting to elude police.

According to a probable cause affidavit, the incident took place on the morning of June 3, when while observing traffic in the 1100 block of South Main, an Elk City police officer clocked a car traveling 77 mph. The speed limit in that area is posted at 40 mph.

The officer stated that he initiated a traffic stop by turning on both his sirens and lights, however the car sped through a convience store parking lot on the corner of South Main and 20th Streets, and proceeded to head west on 20th Street before turning north on Washington.

The vehicle evenutally pulled over in the 1300 block of South Washington where the driver, identified as 21-year-old Jayden Luke Lasater, was arrested. When asked why he didn’t stop, Lasater would tell police that he was late for work and didn’t want to “be hassled”.

Lasater was booked into the Elk City Jail and later charged with a felony count of endangering others while eluding or attempting to elude a police officer.

Altosid IGR Mineral Tub

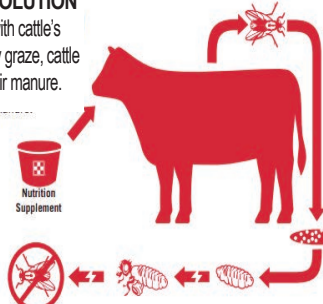

It's a fact! The constant biting of horn flies inflicts excessive stress on cattle. Fly counts can reach up to 2000 flies per animal, taking up to a gallon of blood in a 135-day fly season. Control horn flies all season with Altosid IGR Wind & Rain Mineral Tubs and you will see a difference in your herd. Begin putting Altosid IGR out in the spring. Continue feeding Altosid IGR throughout the summer until 30 days after the first frost to help prevent horn flies.

WIND AND RAIN® STORM® FLY CONTROL MINERAL CONTAINS ALTOSID®

ALTOSID® IGR SOLUTION

Altosid is ingested with cattle's mineral or feed. As they graze, cattle disperse IGR via their manure.

Adult horn flies live 2 to 4 weeks, taking 20 to 30 blood meals per day.

In 1 to 2 days, eggs hatch into larvae. After 3 to 5 days, the larvae molt into pupae.

Altosid breaks the life cycle here, preventing pupae from molting into adults.

Female flies leave the animal for a few seconds to lay eggs in fresh manure less than five minutes old.

Also available in sacks!
