## Understanding What We Read

FOR STUDENTS OF THE BIBLE  
WHAT DOES MY CHURCH TEACH?

Greetings once again in the Name of Jesus Whom God raised from the dead. I would like to ask you a very heart touching question, this question could cut a message he delivers? Let me put this question to you. If you were showned something different from the Bible that you had never heard before, would you change your way of thinking? Is the truth so important to you that you investigate what you hear from the church where you go? There is a verse we find in Proverbs 4:1-2 Listen, my sons, to the instruction of a father, And pay attention so that you may gain understanding, 2 For I give you good teaching; Do not abandon my instruction. [or Law]Please take careful note that we are to hear the instructions of our Father [our heavenly Father]. Had Eve and Adam followed the instructions of their maker their lives would have been much better and much easier. They would have been much happier. Let me ask you this question, what are you being taught about God in the Church where you attend? Again, are you being taught correctly who Jesus Is? The writer of Hebrews informs us in Hebrews 11:6 And without faith it is impossible to please Him, for the one who comes to God must believe that He exists, and that He proves to be One who rewards those who seek Him. Only those who seek God with all their hearts will be rewarded with life eternal. Jesus made this noticeably clear to us in John 17:2-3 Jesus spoke these things; and raising His eyes to heaven, He said, "Father, the hour has come; glorify Your Son, so that the Son may glorify You, 2 just as You gave Him authority over all mankind, so that to all whom You have given Him, He may give eternal life. 3 And this is eternal life, that they may know You, the only true God, and Jesus Christ whom You have sent. Having lifted his eyes to heaven and praying to his Father proves that Jesus was not the God of the Bible, when he called Him Father any small amount of study should and does show that He is His son. Can we find a verse that we can rely on to prove that Jesus is God's Son? (To Be Continued) By Wade Church Second Advent Christian Church Minister, Write Wade Church @ 4911 Horseshoe Bend Rd. Hudson, NC 28638 or wadechurch64@outlook.com. Also you can hear Wade Church each Sunday, 4PM Central time: www.wilkinsradio.com on WCPC AM Tupelo,MS

## Cattle market debate hits Congress

**Jerry Nine**  
Woodward  
Livestock  
Auction  
Woodward, OK

There were several individuals allowed to testify before the U.S. Senate ag committee, which is examining markets, transparency and prices from cattle producer to consumer.

I have had several phone calls from various farmers, ranchers and feedlot operators that felt like some of them only looked at the angle that they were doing

none of them should allow the packers to take our cattle and sell the end product at an extreme high and give us what they want.

If we do not get something down I'm afraid the individual cattlemen will soon be a thing of the past. When the packer is making \$1,100 per head and you still can't see this is a problem then it is because you choose not to see there is a problem.

There are some cattlemen who are getting rich throughout this deal and choose not to care about anyone else but themselves.

Call it what you want. I think it is un-Christian to say I am doing fine so I don't care about my neighbors. The Bible tells you to love your neighbors as yourself.

That's pretty strong language. It would be like me saying the sale barn is doing good so whatever happens to everyone else—oh well.

Stay after this problem. Do not give up but all of us have to push the government to do something. You know as well as I do that they may come back and say we could not find any problem.

Another comment another individual made was don't rock the boat meaning we might lose our deal with foreign countries. If we don't rock the boat we may lose our ranches.

I saw a sign at the furniture store that said turn your ordinary sofa into a sofa bed simply by forgetting your wife's birthday.

Falling in love makes you do stupid things. One time I even got married.

Today after the cow sale, a 4-year old cow-boy came in to the restaurant with his mom. He said, "Will you buy a ticket?" I said, "What are you selling and what is it for?"

He handed me the tickets and said it was fundraiser for the Round Up Club. So I wrote him a check for \$20 and gave it to him. Then he said to me, "Well are you going to give me any money?"

*Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.*

"I actually love putting up hay, especially alfalfa. It's the smell of alfalfa when you're baling it. There's no other smell like it in the world." That's what Jimmy Clark said when asked why he loves agriculture. But his love of ag goes beyond the five senses. "I love the unity of the farming community," Jimmy said. "The way folks help each other out." Jimmy is bringing his love of the land to 96.5FM KECO weekdays at noon with his new show, "Today in Agriculture, With Jimmy Clark."

## Altosid IGR Mineral Tub

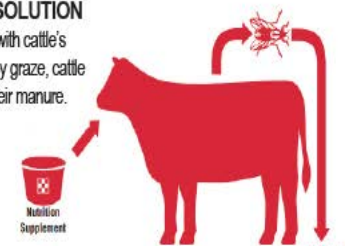

**It's a fact! The constant biting of horn flies inflicts excessive stress on cattle. Fly counts can reach up to 2000 flies per animal, taking up to a gallon of blood in a 135-day fly season. Control horn flies all season with Altosid IGR Wind & Rain Mineral Tubs and you will see a difference in your herd. Begin putting Altosid IGR out in the spring. Continue feeding Altosid IGR throughout the summer until 30 days after the first frost to help prevent horn flies.**

## WIND AND RAIN® STORM® FLY CONTROL MINERAL CONTAINS ALTOSID®

### ALTOSID® IGR SOLUTION

Altosid is ingested with cattle's mineral or feed. As they graze, cattle disperse IGR via their manure.

Adult horn flies live 2 to 4 weeks, taking 20 to 30 blood meals per day.

Altosid breaks the life cycle here, preventing pupae from molting into adults.

Female flies leave the animal for a few seconds to lay eggs in fresh manure less than five minutes old.

**(DWC) DEEP WATER CULTURE STYLE GROW**  
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

**FEATURED STRAIN OF THE MONTH!**

**STORM CHASER**

STORM CHASER (hybrid) is a cross of Skywalker x Kasher Chem x Zookies, which makes it a wonderful heavy indica strain. It's great for insomnia, as well as anxiety, ADHD, bipolar disorder, migraines, and PMS. It's particularly effective at pain relief. The taste is pungent and sweet, with earthy tones. The indica stress relief of this versatile strain makes it a good choice for patients looking for some mental and physical relief. This strain is great for your mind and body! Thank you RED ROCK REMEDIES for this smooth and relaxing TOP SHELF medicine!

## Five Minors Found in Vehicle After Suspected DUI Traffic Stop

June 30, 2021 - An Elk City woman was arrested and charged recently after allegedly driving drunk with five minors in the car.

According to the probable cause affidavit, 29-year-old Tessa Renae Duncan Redd was arrested on June 18 when a trooper with the Oklahoma Highway Patrol observed a vehicle driving on State Highway 6 in Beckham County that appeared to have cross lane lines multiple times, as well as speeding up and slowing down abruptly.

The trooper wrote that he observed what appeared to look like a foot sticking out of the driver’s side window.

After initiating a traffic stop, the trooper noted that the driver, later identified as being Redd, admitted to him that she had a suspended driver’s license. Redd also told the trooper that she was in the process of taking the kids to a lake. The trooper noted that all five kids in the vehicle were sitting in the backseat and the cargo space of the car, all without seatbelts.

The affidavit stated that there was a passenger in the vehicle that said she did have a valid drivers license, but could not drive the vehicle as she required an ignition interlock. She also claimed that three of the five kids were hers.

OHP says while Redd was being interviewed in the trooper’s cruiser, the suspect had allegedly rolled down the passenger side window in an effort to conceal the smell of alcohol. In fact, the trooper reported that he could detect a heavy smell of alcohol coming from the suspect’s breath and her person. The affidavit stated that during a field sobriety test, Redd failed multiple times.

A check of the vehicle’s license plate would show that it did not belong to the car, and the suspect also confessed that she did not have valid insurance on the vehicle.

Redd was arrested and booked into the Beckham County Jail. She was formally charged last week with child neglect, driving a motor vehicle while under the influence of alcohol, driving with a suspended license, failure to maintain insurance, and removing proper or an improper license plate.

Redd is due in court on July 19.
