Today in Ag

with Jimmy Clark

**LISTEN MONDAY-FRIDAY
12-NOON!**

Let's Talk About Agriculture

"I actually love putting up hay, especially alfalfa. It's the smell of alfalfa when you're baling it. There's no other smell like it in the world." That's what Jimmy Clark said when asked why he loves agriculture. But his love of ag goes beyond the five senses. "I love the unity of the farming community," Jimmy said. "The way folks help each other out." Jimmy is bringing his love of the land to 96.5FM KECO weekdays at noon with his new show, "Today in Agriculture, With Jimmy Clark."

SCHEDULE OF GUESTS

WED 7/28: Ducks Unlimited / Cody Galeener

THU 7/29: Vignal-Thurman Centennial Farms

FRI 7/30: Musick Farms

MON 8/2: TBA

TUE 8/3: Lacey Swope, Channel 9 Meteorologist

WED 8/4: Jackson County Conservation

JIMMY'S TIP OF THE WEEK

"When hauling your calves 30 miles to the vet to get worked, don't forget your branding iron."

Altosid IGR Mineral Tub

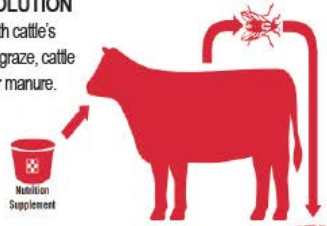

It's a fact! The constant biting of horn flies inflicts excessive stress on cattle. Fly counts can reach up to 2000 flies per animal, taking up to a gallon of blood in a 135-day fly season. Control horn flies all season with Altosid IGR Wind & Rain Mineral Tubs and you will see a difference in your heard. Begin putting Altosid IGR out in the spring. Continue feeding Altosid IGR throughout the summer until 30 days after the first frost to help prevent horn flies.

WIND AND RAIN® STORM® FLY CONTROL MINERAL CONTAINS ALTOSID®

ALTOSID® IGR SOLUTION

Altosid is ingested with cattle's mineral or feed. As they graze, cattle disperse IGR via their manure.

Adult horn flies live 2 to 4 weeks, taking 20 to 30 blood meals per day.

In 1 to 2 days, eggs hatch into larvae. After 3 to 5 days, the larvae molt into pupae.

Altosid breaks the life cycle here, preventing pupae from molting into adults.

Female flies leave the animal for a few seconds to lay eggs in fresh manure less than five minutes old.

Also available in sacks!

Justice needs to give direction to cattle industry

My hope is that the Department of Justice will see the cattle industry is a very manipulated monopoly that needs broken up.

My hope is also that the government realizes that we do not need or want a foreign country owning our food source. My fear is unless every organization keeps putting pressure on politicians and the government that the Department of Justice will say, "We can find no collusion." You do not have to be very well educated to see the rip off and realize it is ruining the cattle industry. The packers and a handful of very large cattle operators are getting filthy rich at your and my expense. Again, I want the packer making money and the retailer also and I don't even care if those handling 500,000 cattle a year make \$50 a head more. But I do care if the packer is given enough cattle that he does not have to compete for what's left and can steal the rest.

We received some very nice rains again. It was spotty with a few areas only getting a little and some receiving 2 to 4 inches.

Our feeder market last week was extremely good. We sold 161 steers weighing 925

pounds that brought \$150 per hundredweight. We had a string of Charolais cross steers weighing 631 pounds that brought \$178. And our 650-pound heifers topped at \$160 and 700-pound heifers at \$152.50. Just think what feeders would bring if the packer was only making \$100 per head.

We have a great product but it's time we get to realize our share of the profit.

Last week after the sale was over I headed back home. I stopped at one of my pastures to check my cows' water. There was also a pond there and there were five you women skinny-dipping in my pond. It was very evident because all their clothes were on the bank.

I cleared my throat to make sure they knew I was there.

One of them shouted, "We are not coming out until you leave." I said, "That is fine but I just came to feed the water moccasins."

A gun is like a parachute, if you need one and don't have one you will probably never need one again.

A friend of mine said he had a .22 caliber and a .300, also a 9 mm and a .40 and a .45 and they are all faster than dialing 911.

One thought for some: If this flag offends you, I will help you pack.

I saw a bumper sticker that said, "My brakes work fine—how's your insurance?"

Understanding What We Read

FOR STUDENTS OF THE BIBLE THE TRUTH SHALL MAKE YOU FREE

I Corinthians 15:1-5 Moreover, brethren, I declare unto you the gospel which I preached unto you, which also ye have received, and wherein ye stand; By which also ye are saved, if ye keep in memory what I preached unto you, unless ye have believed in vain. For I delivered unto you first of all that which I also received, how that Christ died for our sins according to the scriptures; And that he was buried, and that he rose again the third day according to the scriptures: And that he was seen of Cephas, then of the twelve:

John 17:3 And this is life eternal, that they might know thee the only true God, and Jesus Christ, whom thou hast sent.

John 14:24 He that loveth me not keepeth not my sayings: and the word which ye hear is not mine, but the Father's which sent me.

Acts 2:22 Ye men of Israel, hear these words; Jesus of Nazareth, a man approved of God among you by miracles and wonders and signs, which God did by him in the midst of you, as ye yourselves also know:

Acts 10:38 How God anointed Jesus of Nazareth with the Holy Ghost and with power: who went about doing good, and healing all that were oppressed of the devil; for God was with him.

John 14:28 Ye have heard how I said unto you, I go away, and come again unto you. If ye loved me, ye would rejoice, because I said, I go unto the Father: for my Father is greater than I.

John 1:18 No man hath seen God at any time; the only begotten Son, which is in the bosom of the Father, he hath declared him.

John 5:19 Then answered Jesus and said unto them, Verily, verily, I say unto you, The Son can do nothing of himself, but what he seeth the Father do: for what things soever he doeth, these also doeth the Son likewise.

John 7:16 Jesus answered them, and said, My doctrine is not mine, but his that sent me.

Are we not commanded to study and prove all things? Believe not every spirit (or teaching).

(DWC) DEEP WATER CULTURE STYLE GROW
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

FEATURED STRAIN OF THE MONTH!

STORM CHASER

STORM CHASER (hybrid) is a cross of Sky-walker x Kasher Chem x Zookies, which makes it a wonderful heavy indica strain. It's great for insomnia, as well as anxiety, ADHD, bipolar disorder, migraines, and PMS. It's particularly effective at pain relief. The taste is pungent and sweet, with earthy tones. The indica stress relief of this versatile strain makes it a good choice for patients looking for some mental and physical relief. This strain is great for your mind and body! Thank you RED ROCK REMEDIES for this smooth and relaxing TOP SHELF medicine!

WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.
