PIONEER DAY

RAFFLE AND SILENT AUCTION FUNDRAISER

Historic Roger Mills Preservation and Development Foundation

Join us on at 10am on Saturday, Sept. 11th, for Pioneer Day at the museums in the park in Cheyenne, Oklahoma as we tribute Roger Mills County Health Care Workers followed by events for all ages including: making a rope, typewriting, cursive hand writing, old time outdoor games, farm hand olympics, plus several food vendors. Also, join us for the silent auction and raffle fundraiser.

SILENT AUCTION - Opening at 10:30 am at the Sleif House Museum: Harold Scott Original Oil Painting, Kids Toys, Hand Made Knives, Stained Glass and so much more.

RAFFLE FUNDRAISER - \$20 Donation for two chances to win a Traeger Grills - first drawing for a Ironwood 650 or second drawing for the Bronson model. Drawings will be held at 2p on the close of Pioneer Day. Need not be present to win. See details on our Facebook page to get your raffle ticket.

A Big Thank You to all of who have donated items and cash to the Donation and Day Hunt Auctions

Facebook @ Historic Roger Mills County Preservation and Development Foundation. Hours: Tues. thru Sat. 10a to 4p

PH: 580.497.3882 - Donations Welcome. In case of rain, this event will be held at the Ag Pavilion - west edge of Cheyenne.

WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...
Take a ***pill*** and ***snooze*** through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Dr. Mori & Teri White practice cosmetic, implant and family dentistry at 2802 8th Street, Woodward, OK 73801.

Telephone (580) 256-4301.

Altosid IGR Mineral Tub

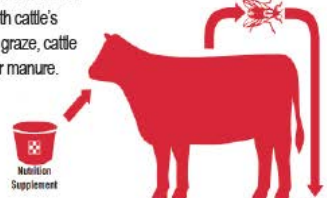

It's a fact! The constant biting of horn flies inflicts excessive stress on cattle. Fly counts can reach up to 2000 flies per animal, taking up to a gallon of blood in a 135-day fly season. Control horn flies all season with Altosid IGR Wind & Rain Mineral Tubs and you will see a difference in your heard. Begin putting Altosid IGR out in the spring. Continue feeding Altosid IGR throughout the summer until 30 days after the first frost to help prevent horn flies.

WIND AND RAIN® STORM® FLY CONTROL MINERAL CONTAINS ALTOSID®

ALTOSID® IGR SOLUTION

Altosid is ingested with cattle's mineral or feed. As they graze, cattle disperse IGR via their manure.

Adult horn flies live 2 to 4 weeks, taking 20 to 30 blood meals per day.

In 1 to 2 days, eggs hatch into larvae. After 3 to 5 days, the larvae molt into pupae.

Altosid breaks the life cycle here, preventing pupae from molting into adults.

Female flies leave the animal for a few seconds to lay eggs in fresh manure less than five minutes old.

Also available in sacks!

News out of Afghanistan is tough on many fronts

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

I read an article pasted on Facebook that was written by the parents of a young man who served in the military and in Afghanistan.

It stated that this young man was so distraught that he couldn't even talk about it. Some of his friends died over there and others,

including himself, came back with post-traumatic stress disorder. And the way we walked away and let the Taliban take over has a lot of Americans questioning a lot of things. I feel sorry for those over there hoping and fighting for freedom and then all of a sud-

den fighting for their lives.

Since then I have seen where China and Russia are making deals with the Taliban. There are preachers thinking the stage is being set for Jesus to return. The preacher said on Sunday you may have given up on God but God has not given up on you.

Recently beef went up \$25.50 per hundredweight and that should equate to \$16.19 per hundredweight more live out of the feedlot and basically the packer gave \$2 per hundredweight more. If any cattle organization, whether it be state, local or national can't see the rip off it is either in bed with the packer or else stupid. No one can be that dumb. Fat cattle should be selling for \$211.90 live. This is tiring.

Killing cows were some cheaper this week but we almost always get cheaper between now and October. When these cow slaughtering plants get cows given to them then they can price however they want. There is less demand when they get too many.

A wife, being the romantic sort, sent her husband a text. It read, "If you are sleeping send me your dreams. If you are laughing send me your smile. If you are eating send me a bite. If you are drinking send me a sip. If you are crying send me a tear. I love you."

The husband was the very nonromantic type and replied, "I am on the toilet please advise."

I just told my suitcases that we are not going on vacation this year. Now I'm dealing with emotional baggage.

My body has absorbed so much hand sanitizer that now when I pee it cleans the toilet.

My wife told me to make my own sanitizer so I made a rum and Coke.

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Sapulpa, Oklahoma.

(DWC) DEEP WATER CULTURE STYLE GROW
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

QUALITY FLOWER, SHAKE & TRIM AVAILABLE

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

Understanding What We Read

(For students of the Bible)

What Does My Church Teach?

(continued study of whom God and Jesus are Who is this one that only has immortality? It is none other than the one who was a human being that died for our sins and is at this time seated in the light of the Only wise immortal and eternal God and thus since Jesus dwells in this light which no one can approach but Him at this time proves beyond all doubt that Jesus is not God as the theologians would have you to believe. Paul that great apostle tells us in 1st Timothy 1:17 Now to the King eternal, immortal, invisible, the only God, be honor and glory forever and ever. Amen [From NASB] Did you hear what he said my beloved, the only God. Eternal immortal, He was never mortal never will be. I will ask you again are you being taught anything any different in your Church? If you are my beloved, you are not being taught what Jesus taught. Romans 15:5 Now may the God who gives perseverance and encouragement grant you to be of the same mind with one another, according to Christ Jesus, 6 so that with one purpose and one voice you may glorify the God and Father of our Lord Jesus Christ." Here again Jesus has a father. God is his Father. Jesus has a God and here we have learned that the same God that stepped out from behind the curtain of Nowhere onto the platform of nothing and said let there be light is his God. Guess what? He is our God as well. Gods Son is our savior and we are his people because we believe in him. Let me ask you, do you believe with all your heart in this one and only true God? To have eternal life it is imperative that you believe in the one and only true and living God, and in His Son the Lord Jesus Christ. Is there any other way for one to have eternal life? Absolutely Not. Someone might ask "are you trying to change people's way of thinking?" My reply to this question is absolutely! Isaiah 44:6 The Lord, King of Israel, and again-buyer thereof, the Lord of hosts saith these things, I am the first, and I am the last, and without me is no God. Do not tremble and do not be afraid; (Wycliffe Bible) Isaiah 44:8 Have I not long since announced it to you and declared it? And you are My witnesses. Is there any God besides Me, Or is there any other Rock? I know of none.'" (NASB) Isn't this something in the KJV 8 Fear ye not, neither be afraid: have not I told thee from that time and have declared it? Ye are even my witnesses. Is there a God beside me? Yea, there is no God; I know not any. Please note that God has said Is there a God beside me? Yea there is no God I know not any. (to be continued)

EXPLORING ENERGY NEWS

North America's Energy Corridor-Part 2

By: Mark A. Stansberry,
Award-Winning Author
Energy Advocate
and Chairman
of The GTD Group
www.nationalenergytalk.com
FACEBOOK: National
Energy Talk

In part one, the focus was on Mexico and its past, current and future energy observations. The ideal situation for the U.S., Mexico and Canada's energy future would be better served with a strong energy alliance.

Currently, each of the three countries are all looking at the energy future in an independent way, versus together. For example, in the U.S., it appears that policies, especially energy policy, are hastily being presented without consideration of all energy and environmental disciplines. The U.S. and the North American energy corridor would be best served with a roadmap of embracing all forms of energy in order to arrive at the correct energy mix for energy use and environmental preservation.

As an example, there needs to be additional studies on the excavating of raw materials for the purpose of energy usage, including electric vehicle components and how that impacts the environment. Technology and innovation

are important to our environmental future. Making sure that we are on the right pathway is essential to future generations. Therefore, an energy plan, a roadmap, is so vitally important. Canada has much to offer, regarding the North American energy corridor.

My first introduction to Canada's energy sector was in 1988, when I was working on a project based in the Alberta province. The vast amount of natural resources definitely got my attention.

In a recent report written by J. David Hughes, dated June 2021, the Canada energy sector is highlighted. "Although the energy sector has been a significant contributor to Canada's economy, its contributions in terms of employment and revenue from royalties and taxes are declining, even though production is at an all-time high. Production of oil and gas creates one-quarter of Canada's greenhouse gas emissions at a time when Canada has committed to a 40 percent reduction from 2005 levels by 2030 and "net-zero" emissions by 2050 (through Bill C-12, although in 2016 Canada agreed to an 80 percent reduction target by 2050). Despite these trends, governments and industry tout increasing oil and gas pro-

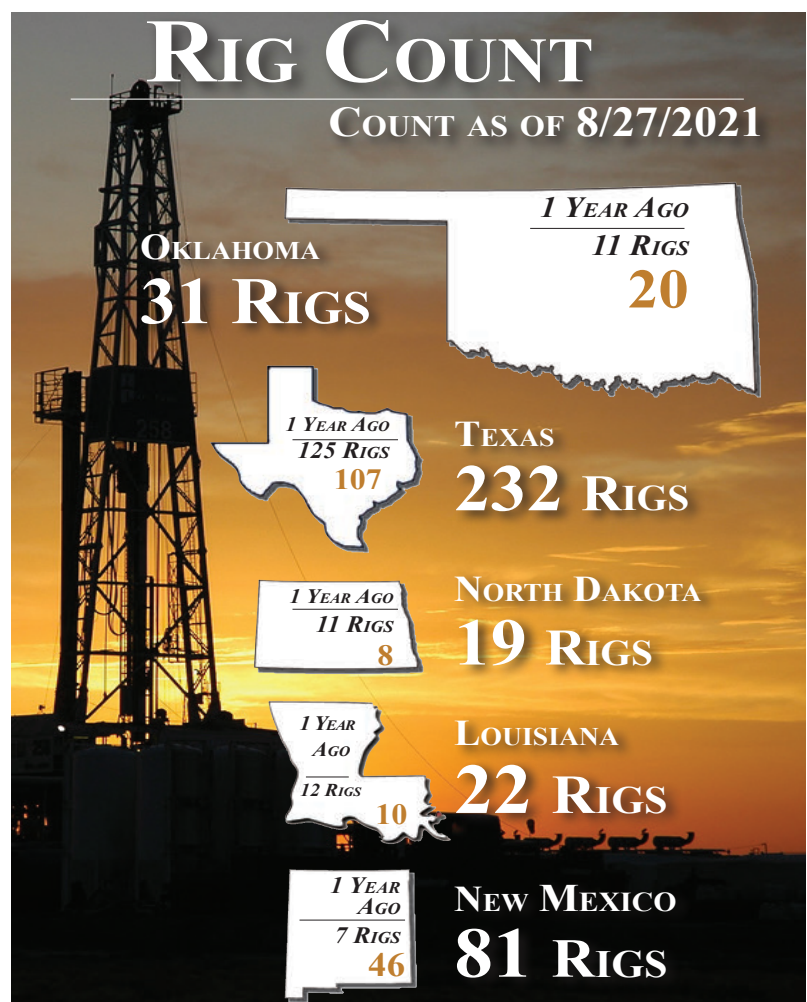

Mark A. Stansberry

duction and exports as critically important for Canada's economic future."

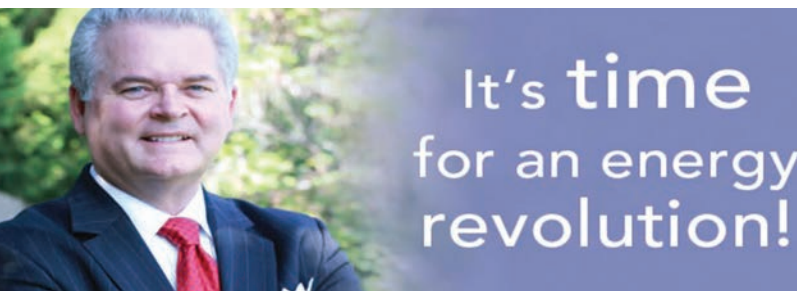

In information provided by Natural Resources Canada, several energy factors of Canada were highlighted, including:

"Energy-In 2017, Canada's energy sector directly and indirectly accounted for 900,000 jobs. Gross Domestic Product-In 2017, the energy sector directly and indirectly contributed 10.6% to Canada's nominal GDP. GHG Emissions-Between 2005 and 2016, Canada's GHG emissions from production and use of energy decreased 3.7% while real GDP grew by 20.5%. In 2016, the production and use of energy in Canada accounted for 81% of Canada's greenhouse gas emissions. And, Energy Efficiency-Between 1990 and 2015, energy efficiency improved in Canada by 26.5%. In 2015, these improvements saved Canadians \$38.2 billion."

Energy planning is crucial. It is important that our plans are directed on the right course. America needs America's energy. North America needs a strong energy corridor. Future generations are depending on us to develop the right roadmap.

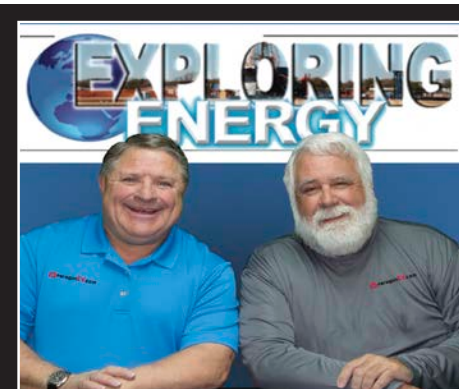

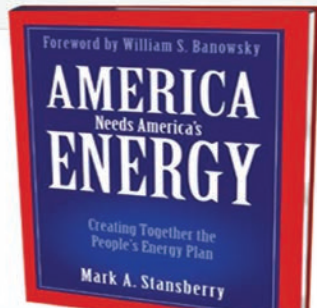

AMERICA Needs America's ENERGY

"The time has come for all of us, the people, to take control of our energy future here in America."

Mark A. Stansberry
Author & Energy Advocate

Pedestrian Stuck, Killed on I-40 in Custer County

August 30, 2021 - A pedestrian was killed early Monday morning after getting struck by three oncoming vehicles going westbound on Interstate 40 in Custer County.

According to the Oklahoma Highway Patrol's report, at 12:20 a.m. the pedestrian was in the roadway near mile marker 73 when the person was first struck by a semi-truck driven by 36-year-old Reynundo Zepeda Marquez of Bakersfield, California. Following the semi hitting the victim, two additional vehicles – a 2018 Dodge Ram driven by 44-year-old Michael Weissenberger of Prescott, Arizona and a 2012 Honda Civic driven by 44-year-old Michael Morgana of Fayetteville, George, also hit the pedestrian.

The pedestrian, whose name has not been released, was pronounced dead on the scene, and one driver, Margano was left injured. OHP said he was transported by EMS to Clinton Regional Hospital, where he was treated and released.

According to OHP, what appears to have happened was the pedestrian was walking in the roadway before being hit by the vehicles.

OHP reported that the condition of the pedestrian at the time of the accident remains under investigation.

The next of kin has been notified in helping identify the pedestrian.

OHP said that traffic had to be re-routed off of I-40 for nearly three hours while the scene was being processed.

Weatherford Woman Accused of Stabbing

August 30, 2021 - An outstanding warrant for arrest has been issued for a Weatherford woman after she allegedly stabbed her ex-boyfriend in the back.

According to a probable cause affidavit 22-year-old Sierra Beth Thacker is wanted after being charged with one felony count of domestic assault and battery with a dangerous weapon when she allegedly committed the crime on August 5.

The court record shows that witnesses told police that Thacker was upset with the victim over loss keys, and had become irate and irrational in a home located in the 500 block of East Arapaho Avenue in Weatherford. One witness says at one point the defendant had knocked holes in the wall with a pan, and had thrown the pan at a wall where it would bounce back and hit her in the face. Witnesses would also tell police that Thacker would allegedly chase the victim out of the home with a knife, chase him around a car, before eventually stabbing him one time in the back.

The victim would then get into the car where it was later determined that he was driven to a Yukon hospital for treatment.

After an investigation, Thacker was formally charged with the felony in Custer County District Court on August 23, with bond set at \$50,000.

As of press time, Thacker has yet to be apprehended, and no initial court date has been scheduled.

Route 66 Restaurant, Motel Set to Return

August 27, 2021 - A once classic restaurant on Route 66 in western Oklahoma is set to return.

After months of discussion on what to do with the dilapidated Glancy Motel property in Clinton, a proposal by developer Rick Koch of Weatherford was accepted by the Clinton Economic Development Authority to not only restore the motel but to rebuild Pop Hicks Restaurant.

Koch currently owns and operates ASAP Energy, Fast Lane Quick Stops, and Lucille's Restaurants in Weatherford and the soon to open location in Clinton.

The restoration projects for both the Glancy Motel and Pop Hicks Restaurant are expected to be finished and fully operational within an 18- to 24-month period.

The original Pop Hicks Restaurant burnt down in August, 1999.

AUCTION CALENDAR

DEWEY CO. HOME & LAND AUCTION

WEDNESDAY, SEPT. 15TH 10 A.M.
72676 N 2092 RD, CAMARGO, OK
 Open House: Wednesday, September 1st 5-7 p.m.

You don't find them like this every day! This is a once in a lifetime opportunity to purchase a portion of one of Dewey Counties oldest ranches. 320 acres of prime hunting including ELK, Whitetail, Turkey, and Quail. Water isn't an issue on this property having one windmill, one submersible pump, and a creek that runs constant most of the time. There are some excellent bottoms, good cover, and secluded from county roads. You won't be disappointed with this place. The home is centrally located on the ranch and has a good driveway. 1,850 sq. ft of living area with 3 bedrooms, 1 full bath, 1 half bath, 2 living areas, and a one car garage.

Seller: Tony & Sabine Kays

BUILDING THE BEST SINCE '76

THE NEW BD7600 BOX DRILL

Introducing the new BD7600 Series Box Drills – with legendary durability and performance.

- NEW feeder cups meter by speed, adjusting for different application rates by changing the meter wheel rpm
- NEW box design and structure demonstrate industry-leading durability and flexibility
- The disc blade coulters are offset with alternating leading edges to enhance stability and reduce side-shifting
- Optional hydraulic drive reduces moving parts for easy operation
