Sedation Dentistry Calms Fears...
Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

*Drs. Mori & Teri White

Altosid IGR Mineral Tub

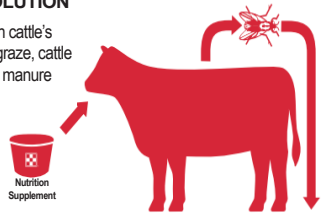

It's a fact! The constant biting of horn flies inflicts excessive stress on cattle. Fly counts can reach up to 2,000 flies per animal, taking up to a gallon of blood in a 135-day fly season. Control horn flies all season with Altosid IGR Wind & Rain Mineral Tubs and you will see a difference in your heard. Begin putting Altosid IGR out in the spring. Continue feeding Altosid IGR throughout the summer until 30 days after the first frost to help prevent horn flies.

WIND AND RAIN® STORM® FLY CONTROL MINERAL CONTAINS ALTOSID®

ALTOSID® IGR SOLUTION

Altosid is ingested with cattle's mineral or feed. As they graze, cattle disperse IGR via their manure

Adult horn flies live 2 to 4 weeks, taking 20 to 30 blood meals per day.

In 1 to 2 days, eggs hatch into larvae. After 3 to 5 days the larvae molt into pupae.

Altosid breaks the life cycle here, preventing pupae from molting into adults.

Female flies leave the animal for a few seconds to lay eggs in fresh manure less than five minutes old.

Also available in sacks!

Prices much higher than at same point a year ago

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

We sold two loads of black steers weighing 920 pounds that brought \$153.25 last Thursday. That's a very good sale.

The only way they would be considered cheap is if you were a packer feeding them or splitting the profit with the packer. They were nice cattle; however, might be cheaper

than the mixed colored steers I sold that weighed 895 pounds and brought \$158.50. I'm just glad we finally got feeder heifers mid weight that will bring \$1,000 per head and most mid-weight steers that will bring \$1,200. A lot of the big steers bring up to \$1,400. That beats the heck out of getting

\$800 to \$1,000 like last year.

Killing cows this week were some cheaper but still a better price than most years. It drives me nuts when I am driving down the road and they quote beef prices up or down and I guess I think what difference does it make. The packer is going to pay whatever or what he can get by with.

Some places have moisture to drill and a lot of places need rain. Close to home last Friday there was a storm that came through that blew five or six pivots over and a semi cattle trailer going down the road. It was a small storm. One spot got over 5 inches but 10 miles away got little or no rain.

It appears that most of the feeder run is over but we will see some big calves. Most all of the big feedlots do not want anything that resembles a calf at all. Normally this time of year the feedlots want those calves weaned 70 days to feel safe that they won't get sick. And a blackleg shot will not cover all the bases to keep those calves healthy.

My life truthfully has not been the same since my accident. A friend of mine said, "When were you in an accident?" I said, "The one where I got my finger stuck in that wedding ring."

After the sale Tuesday a couple from our little town walked by and I said to them, "There is the couple that is most in love in Harper County." She spoke up quickly and said, "That ain't right. We've been married 30 years."

I said, "Is it still as hot in the bedroom as it was the first night you got married?" He said, "Yes, it is. The AC is broken."

At the Mexican restaurant in Laverne where they write the special on an erasable board, I always write a joke in the corner every time I'm in there. This past week I wrote that "A mandate is not a law. A mandate is when David, the local banker, and his brother-in-law, Frank, go out to eat."

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

(DWC) DEEP WATER CULTURE STYLE GROW
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

QUALITY FLOWER, SHAKE & TRIM AVAILABLE

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

Juveniles Allegedly Admit to
Setting Elk City Home on Fire

September 24, 2021 - The cause of a house fire in Elk City last week has been ruled as being an arson by the Oklahoma State Fire Marshal’s Office.

According to the Elk City Police Department, three juveniles have confessed to the crime.

In a press release issued by the ECPD, the fire took place on September 16 when emergency personnel responded to the area of Sunset Circle. As officers from the ECPD arrived on the scene of the unoccupied residence, several items were visible to them indicating that the home may have been set on fire intentionally.

The press release said that an investigation was launched by the police department in cooperation with the State Fire Marshal’s Office a short time later. As the joint investigation continued, it was determined that the cause was indeed arson.

The joint investigation led to the apprehension of the three juveniles, where they allegedly admitted to the crime.

ECPD says the Office of Juvenile Affairs will be handling the case once reports are completed.

State Leaders Discuss
Clinton-Sherman Airport

September 27, 2021 - Rep. Tammy Townley, R-Ardmore, hosted an interim study Friday morning before the House Government Modernization Committee to consider avenues to help Oklahoma Space Industry Development Authority (OSIDA) reach its full potential as a competitive industrial authority.

The Oklahoma Space Industry Development Authority (OSIDA) is a development authority created in 1999 to operate a 2,700 spaceport near Burns Flat. The Oklahoma Air & Space Port and Aerospace Industrial Park at Clinton-Sherman Airport (CSM) features the fourth largest all-weather runway in North America at 13,503 feet long, an adjacent 5,193-foot runway and facilities that include an air traffic control tower, six large hangars and 96 acres of pavement for parking and storage.

“I really think that we’ve got a jewel out there,” Townley said while describing her first visit to Burns Flat. “Why are we not doing something with this?”

Oklahoma State Director of Aeronautics Grayson Ardies spoke on the value of the state’s airport system. He said the Oklahoma Aeronautics Commission works to ensure a thriving aviation and aerospace industry and grow Oklahoma’s aviation and aerospace workforce, an important part of which is the preservation and improvement of the state’s 108 public airports.

Steve Fendley, president for the unmanned systems division of Kratos Defense and Security Solutions, said Kratos opened a facility in Oklahoma because of the existing aerospace hub within the state, as well as the state incentives, supportive community and affordable cost of living.

Fendley said the opportunities presented by the facilities at Burns Flat offers a lot of potential to Kratos.

According to data from the Oklahoma Aeronautics Commission, aviation and aerospace is the state’s second largest industry with more than 206,000 jobs and an economic impact of \$43.7 billion annually.

“There’s a revolution in aerospace going on right now,” said Geoffrey Camp, state director of aerospace and defense for the Oklahoma Dept. of Commerce. “Everything we know about airplanes, aerospace, propulsions, is all changing. The rules are being written right now.”

He later added, “But we also need to start getting ready for our kids, for our grandkids. This revolution is going to happen, seems like, overnight.”

Understanding What We Read

(For students of the Bible)

What Does My Church Teach?

(continued study of whom God and Jesus are) If people would just trust Jesus and his words instead of what they have been told to believe, his people would find the answers in the word of God. KJV says “Whom do men say that I the Son of man am?” This term “Son of man” the offspring of a human being. Why would he address himself as the offspring of a human being? Because that is what he is: A human being. How then did this human being come into being? Look with me in Luke 1: 26-38

26 Now in the sixth month the angel Gabriel was sent from God to a city in Galilee named Nazareth, 27 to a virgin betrothed to a man whose name was Joseph, of the descendants of David; and the virgin’s name was Mary. 28 And coming in, he said to her, “Greetings, favored one! The Lord is with you.” 29 But she was very perplexed at this statement and was pondering what kind of greeting this was. 30 And the angel said to her, “Do not be afraid, Mary, for you have found favor with God. 31 And behold, you will conceive in your womb and give birth to a son, and you shall name Him Jesus. 32 He will be great and will be called the Son of the Most High; and the Lord God will give Him the throne of His father David; 33 and He will reign over the house of Jacob forever, and His kingdom will have no end.” 34 But Mary said to the angel, “How will this be, since I am a virgin?” 35 The angel answered and said to her, “The Holy Spirit will come upon you, and the power of the Most High will overshadow you; for that reason also the holy Child will be called the Son of God. 36 And behold, even your relative Elizabeth herself has conceived a son in her old age, and she who was called infertile is now in her sixth month. 37 For nothing will be impossible with God.” 38 And Mary said, “Behold, the Lord’s bond-servant; may it be done to me according to your word.” And the angel departed from her. This only took place by the Almighty speaking the word. It was right then and there that the WORD was made flesh. If God had never spoke the word there would have never been light, and had he never spoke in this time to Mary Jesus would not have come into being at that time. If your church teaches anything different you need for your sake, and the sake of your loved ones investigate what you are being taught. (continued)

AUCTION CALENDAR

LAND AUCTION
FRIDAY, OCTOBER 1ST 10 A.M.
MUTUAL COMMUNITY BUILDING, MUTUAL, OK
 Located at CR 220 & 56. From Hwy 270 east of Mutual, travel south on CR 220 for 1/2 mile.
 Coming out of CRP on October 1st, this tract offers 149.35 acres of improved grassland and the balance in trees and native grass. The property has blacktop county road access on the west side, just south off of Hwy 270. There is also county road access on the south. Trees on the northwest side of this tract provide excellent wild life bedding areas and great shade for cattle.
Seller: The Creech Family Trust

ONLINE ONLY DEWEY COUNTY MINERAL RIGHTS AUCTION
AUCTION WILL BEGIN TO CONCLUDE ON
FRIDAY, OCTOBER 8TH AT 1 P.M. CST.
 Selling 118.8± Acres of Mineral Rights in 2 Tracts!
Sellers: Linda Coursey and Mary E. Lafard

REAL ESTATE AUCTION
WEDNESDAY, OCT 13TH 10 A.M.
54610 S. CR 197, WOODWARD, OK
Personal Property Selling Online Only. Bidding Opens Sept. 27th and Closes Oct. 14th at 1 p.m. CST
 This home, built in 1989, has approx. 1,587 sq. ft. of living space. It is a 1.5 story home with 3 bedrooms and 2 bathrooms. The living room has large picture windows that look south across the land and provide an amazing view of the beautiful grass bottom and hay field with Persimmon Creek running through it. Land on the north side of the home has several trees and a big grass pasture that could accommodate livestock and wild life. The property has it's own water well and several water hydrants. It also includes a nice shop building 30' x 40' with concrete floor and is wired.
Seller: Alice Packard-Boner
