WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Feeder cattle futures show promise

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

Feeder cattle futures for next August, September and October are all from \$173 to \$174.80 per hundredweight. This seems pretty good to me.

I sold some feeder cattle futures on insurance for the past few months and that did cost me some money; however, it seemed good at the time from \$150 to \$160. The part that I like on the insurance deal

is I didn't have to make margin calls and they settled it in the end.

We do have some of our area that has wheat pasture but other areas had to plant too late. The calf market has gotten better the last four or

five weeks. We sold some steers that weighted a little over 1,000 pounds that brought \$151 per hundredweight and some 850-pound steers that brought \$159. And some weaned steers at 550 pounds that brought \$173.

Our cow killing market showed some pressure on the thinner cows but looked good on the fleshy cows. From this time of year through the winter the yield on cows goes down fast. Often a rancher does not realize they are getting thinner and getting as weak as they are and they cannot stand the stress as well when they are that way.

For the past year when feeder steers are bringing at least \$1,200 and some now \$1,500 and heifers \$1,000 and sometimes \$1,200 at least that makes you feel like you have a chance to make some money. A couple of years ago when heifers brought \$800 and steers \$1,000, I felt like I was treading water.

Feeder cattle are in very short supply. But it stands to reason that most cattlemen sold their feeders a month or two ago when we thought feeders were high. Grain keeps edging up some too; however, I look for feeders to stay good as a lot of those big corporation feedlots have certain quotas of fat cattle they have agreed to supply the packer.

A friend of mine went to the doctor for colon surgery. After the surgery the doctor came out and told my friends, "I have some good news and some bad news." My friend said, "Well, what is the good news?" The doctor said, "I was able to save your testicles." My friend said, "Well then what is the bad news?" The doctor said, "They are in a jar." I didn't want to put that in here but the devil made me do it.

That same doctor is known as the good and bad news doctor. So another friend who has always had one leg shorter than the other one went in for surgery. The doctor came out and said, "The bad news is I amputated the wrong leg—your good one. My friend said, "What is the good news?" The doctor said, "I think I can save your bad leg."

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

(DWC) DEEP WATER CULTURE STYLE GROW
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

QUALITY FLOWER, SHAKE & TRIM AVAILABLE

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

I-40 Traffic Stop Leads To Large Drug Bust in Wheeler County, TX

November 12, 2021 - Two people are facing federal drug charges after a traffic stop in Wheeler County, Texas.

According to A criminal complaint, around 11:13 a.m. on November 6, a deputy stopped a silver car traveling eastbound on I-40 for displaying an altered or obscured registration tag.

The deputy passed the silver car, noticing the driver attempted to shield his face from being seen behind the pillar of the car.

Finding the driver’s actions to be suspicious, the deputy conducted a traffic stop.

As the deputy approached the car, he found four adults and two small children inside the car.

Gregory Maxwell and Lashae Johnson were two of the occupants in the car, including Johnson’s two children.

According to the documents, the deputy noticed indicators of criminal activity, including the odor of burned marijuana as he was running a registration check allowing him to conduct a probable cause search.

During his search, the deputy found several bags inside a baby formula container containing blue M-30 pills that was believed to be fentanyl.

The deputy also found two boxes containing 5-gallons buckets with marijuana and bundles of cocaine.

All adults were placed under arrest.

According to street value estimates, the cocaine was worth around \$1.4 million.

AAA: Thanksgiving Travel Unphased by High Gas Prices – Pandemic

November 11, 2021 - Airports and roads may seem jam-packed this year as AAA predicts 53.4 million people nationwide to travel for the Thanksgiving holiday, up 13% from 2020. And high gasoline prices aren’t stopping Americans from hitting the road.

AAA says that means highways and interstates in Oklahoma will have more traffic than usual for the holiday weekend. Airports in Oklahoma City, Lawton and Tulsa will also see more customers taking advantage of slightly lower prices.

AAA reports it is the highest single-year increase in Thanksgiving travel in 16 years.

AAA says this brings travel volumes within 5% of pre-pandemic levels in 2019, with air travel almost completely recovering from its dramatic fall during the pandemic, up 80% over last year. As restrictions continue to lift and consumer confidence builds, AAA urges travelers to be proactive when making their travel plans this holiday season.

Senior Vice President, of AAA Travel Paula Twidale told OK Energy Today that “Now that the borders are open and new health and safety guidelines are in place, travel is once again high on the list for Americans this holiday season.”

With 6.4 million more people traveling this Thanksgiving coupled with the recent opening of the U.S. borders to fully vaccinated international travelers—people should prepare for roads and airports to be noticeably more crowded.

HOLY BIBLE

Understanding What We Read

(For students of the Bible)

WARNING:” Prove all things; hold fast that which is good” (1st Thes 5:21). The word, prove is translated from the Greek word dokimazo meaning: allow, discern, examine, prove or try. What Paul is telling us we had better examine what we are being taught to determine if it is right or wrong. “Beloved, believe not every spirit (or teaching), but try the spirits (different teachings) whether they are of God: because many false prophets are gone out into the world” (1st John 4:1). How are we suppose to examine weather what we hear is right or wrong? “Study to shew thyself approved unto God, a workman needeth not be ashamed, rightly dividing the word of truth” (2nd Tim 2:15). We must work at it, and study the word to see if what we hear is so. According to the word it is life eternal to know whom God and Jesus are (John 17:3). There seems to be much confusion on who they are. Recently a world renowned preacher answered a persons question about the Holy Spirit and went on and told the person that: “Just as Jesus was fully God (as well as fully man), the Holy Sprit also is fully God” Now is this right according to the scripture? We had better heed the command to “Prove all things”. Is God and Jesus one in the same? We already read where it is life eternal to know the “only true God”. Listen to Jesus; “... for my father is greater than I” (John 14:28). Was not Jesus seen by multitudes of people while here on earth? Then Jesus could not be God because: “No man hath seen God at any time...” (1st John 4:12). With our God given common sense, can a son be his own father? “Prove all things.”

Position Available: Accountant

Job Description: Northfork Electric Cooperative is looking for a detail-oriented individual with strong analytical skills to join our accounting department.

About Us: We are a member-owned not for profit cooperative that provides rural electricity in West Central Oklahoma.

About the Role: As an entry level accountant, your responsibilities will include processing accounts payable, assisting with plant accounting, and assisting with financial records and reports. You will also be assisting the Manager of Accounting and providing support to the customer service department as needed. For complete details of the position, visit the employment opportunities section at www.nfecoop.com.

If this sounds like a fit for you, please send your resume to carrie@nfecoop.com.

Posting closes December 3, 2021
