## Some cows don't sell as well

**Jerry Nine**  
Woodward  
Livestock  
Auction  
Woodward, OK

There were quite a lot of cows moving, which is typical this time of year. And the killing cows were cheaper in particular a very thin older cow that has a very light carcass. Those type of cattle buyers just don't seem to want very bad.

I imagine to process one costs about the same and the little thin-shell cows have

very little meat on them. The cows that were pregnant, even the ones with no teeth, often brought \$300 per head more particularly if they were 5 months pregnant or longer.

Some sellers want to save that preg check

cost or think they are old and it won't help but some left \$295.50 on the table. It might as well have been the seller's money.

Some of our area has wheat pasture and some not. Feed is high but if we can keep feeders and fats at these levels or higher than we can still make some money with high feed.

But where it gets to be a big problem is when the cost of gain is higher than the price you are getting for your cattle.

This past week we sold three loads of black steers weighing 878 pounds that brought \$163.60 per hundredweight, which is \$1,436 per head. I like to see customers make money and that is the only way the sale barn does good if our sellers do well. Even if you are rancher or farmer who only sells cattle once in a while at the sale I think it is wrong for you to not want your neighbors to do well financially. There is room for a lot of people to do well around you and you still do good for yourself.

This is Thanksgiving week and I hope you will remind all your family to list the things they are thankful for. All of us are more blessed than we realize. Sometimes it is easy to get discouraged and feel like everything is falling apart and if we will look around there are always people worse off.

A little boy had a lawnmower for sale. A preacher walked by and said, "How much do you want for that lawnmower young man?" The little boy said, "Five dollars." The preacher said, "What is the catch if you only want \$5." The little boy said, "Well, if it doesn't start then pull on the rope then kick it and then cuss."

The preacher said, "Well, I can pull on the rope and I can kick it but I tried to forget all those cuss words when I became a preacher." The little boy said, "I am quite certain after you pull on the rope and kick it those words will come to you easily."

Marriage is like a deck of cards. In the beginning all you need is two hearts and a diamond. By the end you wish you had a club and spade.

*Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.*

**(DWC) DEEP WATER CULTURE STYLE GROW**  
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

**QUALITY FLOWER, SHAKE & TRIM AVAILABLE**

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.
