## Lack of rain is becoming serious matter

**Jerry Nine**  
Woodward  
Livestock  
Auction  
Woodward, OK

It seems like our calves have sold a little later than most years with a lot of calves being sold now. And most of those calves are weaned at least 40 days to a long time.

Our area needs rain but to the south of us 100 miles I have heard two cattlemen say that their wheat was dying or already

dead and the one man said his wheat looked great earlier, 6 inches tall, but is dead now. So hopefully we will get a rain soon. Our area is not that bad but we need a rain.

Yearlings are in short supply. Most cattle auctions will shut down for two weeks and open back up the first week in January.

Feeder cattle futures look very strong with next November being a little over \$180 per hundredweight. I have put insurance on some of my feeders for the fall. The only thing I like about that is I don't have to dig up margin calls—that is until the end if the market is higher. The end result is based off the feeder average instead of the futures.

Fertilizer is so high that I hear a lot of farmers say that on their dryland they are not sure they can afford to fertilize. One farmer said to the man he buys his fertilizer from, "Will I get \$100 per acre in fertilizer?" The salesman said, "Oh, yeah, very easy."

If the government doesn't pull its head out and get people back to work it is going to ruin this country. It is all in the name of COVID, welfare or worker's compensation. Everywhere you go you see some people begging people to work. Last week I saw several businesses with signs that said we have cut hours due to the lack of workers.

Cows are pretty funny and it would be a total shame if we didn't milk them for all they are worth. And you have to be careful to not butcher any of those jokes. Because the steaks are high. And besides, I have some real beef with that guy. So you might ought to steer clear.

One big difference between women and men is if a woman says, "Smell this," it will probably smell good.

A rancher brought in a cow to sell today. He said, "She doesn't give hardly any milk." He said to me, "She is a milk dud."

Do you know what has four wheels and flies? A garbage truck.

Did you know on a vehicle they call them heated seats because the rear defroster was already taken?

*Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Sapulpa, Oklahoma.*

## Understanding What We Read

### STUDENTS OF THE BIBLE

The terrible cost of falsehood: It seems the human family continually fails to see the great tragedy of mis-informing their fellow man. It is the results of our nature inherited from the father of humankind, Adam: for "As in Adam all Die" (1st Corth 15:22, Rom 5:12). A lie is what caused the error that got mankind removed from paradise in the beginning. The besetting sin of Adam and all those falling short of the mark, is to lie. There is some major misinformation going around in church's that what one believes and teaches makes no difference. Somehow, some seem to think that our mistakes will be forgiven if we are sincere. This type of thinking is what we inherited from Adam and Eve. No human could have been more sincere than was mother Eve, but, she became just as guilty as Adam! The cost of the way natural man thinks is high; "There is a way which seemeth right unto a man, but the end thereof are the ways of death" (Prov 14:12). The only way out of this natural way of thinking we inherited from Adam and Eve is to be converted to the bible truths. The bible has numerous warnings to; "Let no man deceive you", "Beware of false prophets". This problem has been around a long time; "Behold I am against them that prophesy false dreams (lies)...and cause my people to err by their lies" (Jer23:32). Presenting a lie or belief of a lie caused mankind to be in error with God ever since the beginning. Nothing has changed. The broad way will be full of sincere people, sincerely wrong! The only way to keep from being deceived is to study the word and believe it. "Study to shew (show) thyself approved unto God, a workman that needeth not be ashamed, rightly dividing the word of truth" (2 Tim 2:15). Truths can be a tough pill to swallow sometimes. Study to see if these things are true. <https://www.secondadventchristianchurch.com>

**(DWC) DEEP WATER CULTURE STYLE GROW**  
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

**QUALITY FLOWER, SHAKE & TRIM AVAILABLE**

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

## Fires, Wind Damage Reported in Western Oklahoma Friday

December 13, 2021 - Unseasonable warm temperatures and extreme wind wreaked havoc on western Oklahoma Friday afternoon.

First, a wildfire that originated roughly two miles south east of Reydon in Roger Mills County burnt well over a 1,000 acres and traveled northeast for just under five miles. Reydon Fire Chief Jason Hartley says although five homes were saved, one was lost in the fire. All eight fire departments in Roger Mills County responded to the blaze, as well other area fire departments including Elk City, Erick, Leedey, Sayre, and Vici.

The U.S. Forest Service and Oklahoma Forestry Service rendered air as well.

Chief Hartley says although no official cause of the wildfire has been determined, he suspects power lines whipped around by the high winds may have sparked the blaze that saw crews battle the fire for nearly 12 hours.

High winds were also to blame for metal skirting blowing off of an awning over gas pumps at the Elk City United grocery store. As a result, the skirting fell on a pickup. The driver was not injured.

Finally, Elk City firefighters responded to a house fire in the 200 block of Parkview on Friday that saw the home's wooden front porch ignited, but the home was spared thanks to the quick response by fire crews.

Elk City Police Chief Eddie Holland said one occupant in the home, an elderly woman in a wheelchair, was not injured.

Fire officials say the cause of that fire is still under investigation, but suspects a discarded cigarette could be the culprit.

## Elk City Police Find Child Porn During Drug Investigation

December 13, 2021 - An Elk City man was formally charged last week in Beckham County District Court after an investigation into the suspect possibly selling illegal drugs led to the discovery of alleged child pornography on his phone.

The man is also accused of raping a teenager.

According to a probable cause affidavit, 21-year-old Michael Marion Myers was arrested last month after the Elk City Police Criminal Investigations Division were shown messages by a third party that Myers and a male juvenile were in discussions regarding the distribution of illegal narcotics. A week later police executed a search warrant at Myers' home where they would allegedly find marijuana and methamphetamine along with small baggies, scales, firearms and cash.

A detective would obtain a search warrant on the suspect's phone as well. On the phone they would find pictures of cocaine, meth, marijuana and other drugs in the form of pills. One video even showed Myers allegedly weighing meth on a scale.

Also on the phone, investigators would find nude photos of a 14-year-old female, a 15-year-old female, and a female who appeared to be under 10 years of age.

The affidavit would state that messages were allegedly found on the phone that showed that he sent lewd photos of himself to one of the under age victims, and that he had also sent pictures of his victims to other subjects.

Investigators would interview a 16-year-old female victim where she would disclose that Myers and her had sexual relations on multiple occasions inside city limits.

Myers was charged with, among other things, two counts of second degree rape, two counts of possession of juvenile pornography, one count of distribution of obscene material or child pornography, one count of lewd or indecent acts to a child under the age of 16, soliciting sexual conduct or communication with a minor by use of technology, and one count of distribution of a controlled dangerous substance.

Bond for Myers was set at \$400,000.
