## PROTEIN TUBS

Hi Pro Protein tubs are a free choice supplement designed for beef cattle on forage diets providing less than 8% protein. The low moisture, cooked molasses products are in non-returnable plastic containers or biodegradable tubs that will enhance intake and utilization of available forages, while reducing labor for producers.

Products: Hi-Pro 25% Tub w/ 5% Fat  
Hi-Pro 38% Hi-Energy Tub w/ 12% Fat  
Both available in plastic or bio tub.

## Year ends with positives and concerns

**Jerry Nine**  
Woodward  
Livestock  
Auction  
Woodward, OK

We have just wound up another year and there are a lot of things we have to be thankful for. And it also seems like there is a lot of chaos going on.

The government seems to want to promote fear particularly when it comes to COVID and the strains behind it. I'm not sure what the thinking is behind that whether it is to distract us more from

other things or get us more dependent on the government. in my opinion, there is not one part of socialism that looks attractive to me. And those promoting the idea maybe com-

ing from the far left but we need to buck up against it.

Too many generations have fought for us to have the freedoms that we do have and we should never lose sight of that.

We are getting very dry and problem is there is nothing in the near future that shows any chance of moisture. However, I know the weatherman doesn't have the final say in whether we get moisture. So how about everyone pray everyday until we get rain? OK, if it needs to we could even use a snow but hopefully not with the 50 miles per hour wind. I know I'm picky.

Some farmers tell me down south 100 miles their wheat is dying. Ours is looking worse and shriveling up. One other year I remember I thought my wheat was dead but it came back to life once we got moisture.

The first week in January most cattle auctions will be back in full swing. And I imagine we will see a lot of mid-weight cattle come back to the auction earlier than they had planned.

Hopefully 2022 will be the best year ever for farmers, ranchers and cattlemen. Some in the banking industry seem upset with the world. Perhaps their bosses should back off.

An officer with a badge stopped at a ranch and told the rancher he needed to inspect his property for anything illegally grown. The rancher said, "OK, but don't go in that field over there."

The officer showed him his badge and said, "Hey buddy, I can go anywhere. Do you understand?"

The rancher nodded. Soon the rancher heard screams as the officer was running for his life with a bull behind him. The rancher ran over by him and said, "Show him your badge!"

My wife says I do not like any of her relatives and that is not true cause I like her mother-in-law better than I do mine.

A young boy asked his dad, "Who did I get my intelligence from?" The dad said, "It must be from your mom cause I still have mine."

Please be careful on the roads. Lots of people are drinking excessively and letting their wives drive.

*Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.*

### Woodward Livestock Auction Report

THURSDAY, DEC 16, 2021

Receipts: 2,674 Last Reported: 4,296 Last Year: 2,040

Special Note: Next cow sale at Woodward Livestock will be January 4th. Next feeder cattle sale will be January 6th. Compared to last week: Feeder steers 3.00 to 5.00 lower. Feeder heifers steady. Steer calves mostly steady except instances of up to 10.00 higher on the thinner fleshed calves under 500 pounds. Heifer calves steady. Demand was moderate. Quality average. Supply included: 100% Feeder Cattle (54% Steers, 41% Heifers, 5% Bulls). Feeder cattle supply over 600 lbs was 53%.

# EXPLORING ENERGY NEWS

## Global Energy Outlook 2022

By: Mark A. Stansberry,  
Award-Winning Author  
Energy Advocate  
and Chairman  
of The GTD Group  
[www.nationalenergytalk.com](http://www.nationalenergytalk.com)  
FACEBOOK: National  
Energy Talk  
National Energy Talk Podcast

Before I address the global energy outlook for 2022, I want to thank all of those who have been an important part of my journey in the energy industry in 2021. Many thanks to readers of my columns, blogs, magazine articles, presentations, and radio/podcast interviews. A special thanks to Shawn Wilson, Butch Black, and the Exploring Energy Team! Also my appreciation to GTR News/Forrest Cameron, Emmanuel Sullivan/Oilman Magazine, and all the listeners of my National Energy Talk podcast.

It was great to be back on the speaking circuit, including presentations at York College, (York, Nebraska), National Association of Royalty Owners Annual Convention, Professional Petroleum Data Management Association's Houston Expo, and the World Trade Summit in Oklahoma. A highlight of 2021 was attending the World Petroleum Congress in Houston.

My presentations in 2021 focused on strategic optimization and developing pathways to our energy future, emphasizing natural gas/LNG, hydrogen, infrastructure, and the digital transformation.

As an advisor to IngenitE, Inc., I continue to be encouraged by the opportunities for the energy industry

in the IT world.

As compared to 2020, 2021 was truly a time of uncertainty and challenges, to say the least. Many of the issues continue to exist. The future of regulations, executive orders, tax issues, fiscal and monetary policies, international trade issues, COVID-19 vaccination outcomes, supply and demand of energy, and private/public education challenges are some of the numerous issues before us.

Energy education is needed more than ever. Nothing moves without energy. We need to work together to provide energy efficiency and environmental preservation. The oil and gas industry is strongly needed for necessary energy usage and petrochemical products.

As I state in my book, *America Needs America's Energy: Creating Together the People's Energy Plan*, "Future generations are depending on us to keep the American dream alive. For too long we in America have been wasting time blaming the energy industry or the government for failure to adopt a national energy strategy, when we should be responsible for creating the plan. As consumers of energy, we must drive the process, evaluating how we can best leverage our natural resources here at home to ensure long-term energy independence and security. American citizens must take individual responsibility for the state of this great nation, striving to protect the land we call home."

It is my strong belief, that current infrastructure and pipelines must be

Mark A. Stansberry

maintained along with the implementation of an energy transition. The concerns before us are the challenges of accessibility, affordability, efficiency, availability, reliability, cyber security, sustainability, and energy security. Therefore, energy supply must match up with energy demand.

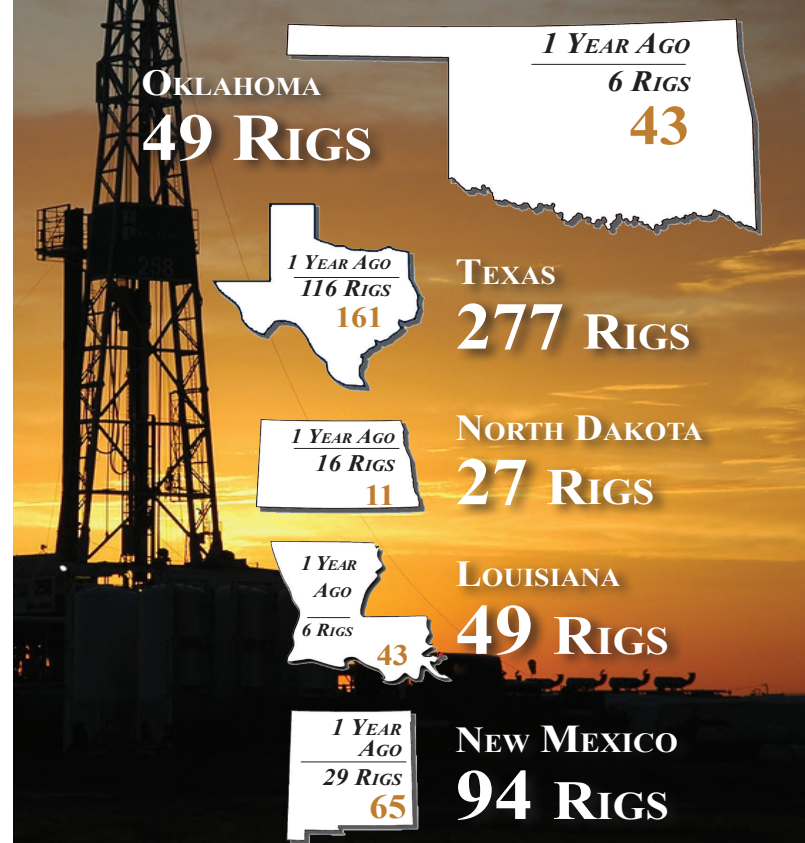

There are many moving parts that will impact the energy outlook for 2022, including weather, geopolitics, digital transformation, supply chain, OPEC+, and semiconductor chips.

Investments are needed in the oil and gas industry to achieve ultimate results. The selling of oil from the strategic petroleum reserves is only a bandaid approach. A strong energy workforce, which includes America's energy, all forms, are needed more than ever. Innovation and technology will lead us to pathways of a brighter future.

America needs America's Energy. Please go to National Energy Talk Podcast and to [www.MarkStansberry.com](http://www.MarkStansberry.com) to learn more. energy on Facebook.

## RIG COUNT

COUNT AS OF 12/31/2021

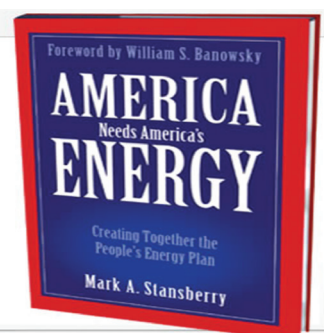

AMERICA  
Needs America's  
ENERGY

It's time  
for an energy  
revolution!

"The time has come for all of us, the people, to take control of our energy future here in America."

Mark A. Stansberry

STORMCHASER • DREAM QUEEN • BLUEBERRY MUFFIN • ALL GAS OG • GIRL SCOUT COOKIE • BANANA MANGO

**(DWC) DEEP WATER CULTURE STYLE GROW**  
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

**QUALITY FLOWER, SHAKE & TRIM AVAILABLE**

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

# WHITE DENTAL CARE

## Drs. Mori & Teri White, DDS

### Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

**F**or many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

**Drs. Mori & Teri White practice cosmetic, implant and family dentistry at 2802 8th Street, Woodward, OK 73801**

## Clinton Man Wanted After Cashing Counterfeit Check

December 29, 2021 - A Clinton man is wanted in Custer County after he allegedly issued and cashed a counterfeit check at a Clinton business.

According to court records, an outstanding warrant for the arrest of 31-year-old John Erick Barron was issued on December 14 after being charged in Custer County District Court with one felony count of uttering a forged instrument.

A probable cause affidavit shows that Barron allegedly cashed the fraudulent check at the business on September 3 while claiming it was part of a reimbursement on a recent home sale.

After the check was determined to be a fake, the business owner first attempted to make arrangements with the defendant to pay the money back, however after not cooperating with the business owner, police were contacted in November.

As of press time, Barron has not been arrested.

## Clinton Man Injured in Trailer Fire

December 28, 2021 - A travel trailer parked behind a residential home in Clinton was lost in a fire early Sunday morning.

An occupant of the trailer was able to get out, but not before suffering injuries due to the flames.

According to the Clinton Fire Department, the fire occurred in the trailer behind a home in the 1700 block of Custer Avenue. When fire officials arrived, they would find a 70-year-old man suffering from burns and smoke inhalation issues after managing to crawl out of the trailer. The victim was transported to Clinton Regional Hospital and later transferred to an Oklahoma City hospital for additional care.

Fire officials said the cause of the blaze is still undetermined, but did note that the trailer was apparently using a large amount of extension cords from the nearby home.

Firefighters also said that a utility trailer also caught fire and burned, however firefighters were able to save a nearby storage building.

In all, it took firefighters two hours to extinguish the flames and clean up the scene.

Understanding  
What We Read

DEALING WITH TRIALS AND TRIBULATIONS  
John 16:33 These things I have spoken unto  
you, that in me ye might have peace. In the  
world ye shall have tribulation: but be of good  
cheer; I have overcome the world. Matthew  
11:28-30. Psalms 55:22 Cast thy burden upon  
the LORD, and he shall sustain thee: he shall  
never suffer the righteous to be moved. Psalms  
34:15 The eyes of the LORD are upon the  
righteous, and his ears are open unto their cry.  
I Corinthians 10:13 There hath no temptation  
taken you but such as is common to man: but  
God is faithful, who will not suffer you to be  
tempted above that ye are able; but will with the  
temptation also make a way to escape, that ye  
may be able to bear it. James 1:13 Let no man  
say when he is tempted, I am tempted of God:  
for God cannot be tempted with evil, neither  
tempteth he any man: Proverbs 3:5-6. Romans  
5:1 Therefore being justified by faith, we have  
peace with God through our Lord Jesus Christ:  
I Timothy 2:5 For there is one God, and one  
mediator between God and men, the man Christ  
Jesus; Revelations 21:1 And I saw a new heaven  
and a new earth: for the first heaven and the first  
earth were passed away; and there was no more  
sea. Revelations 21:4 And God shall wipe away  
all tears from their eyes; and there shall be no  
more death, neither sorrow, nor crying, neither  
shall there be any more pain: for the former  
things are passed away. Colossians 3:12-17  
Tribulations
