WHITE DENTAL CARE

**Drs. Mori & Teri White, DDS**

**Sedation Dentistry Calms Fears...**  
 Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

## Profits could be better distributed

**Jerry Nine**  
Woodward  
Livestock  
Auction  
Woodward, OK

On Jan. 11 it was said boxed beef prices were the highest they had been in a month. But the problem is that it has nothing to do with what is paid to the ordinary cattleman.

I was told there were five steakhouse restaurants in Phoenix, Arizona, that have announced they would no longer do steak specials. When the packers make \$500 to \$1,000 on every head depend-

ing on what they want to make without anyone telling them they can't then that's what we will continue to have. And you have to have someone, whether it be politicians or Packers and Stockyards Act, to do something about it.

We need rain and I know I am told we are one day closer than we were yesterday but it is pretty bad when you look at The Weather Channel and it predicts in two weeks we have two days with a 20% chance of moisture and a person gets excited. I have triticale that mostly looks dead with maybe a little green in it.

I know several years ago I thought my wheat was dead and it finally rained and at least most of it survived.

The packer has had several disappointing harvest numbers including 113,000 for a few days. But if the government, in my opinion, doesn't quit paying people not to work this will continue. One man said he was in another town at a Sonic and the gal apologized that she was running the whole show outside of two cooks.

If you price anything now compared to six months or a year ago you will be shocked how much higher it is and that is if you can get it. The government needs to get people off welfare if they are able bodied and can work.

I got a cartoon sent to me which showed a man with a huge belly that went clear to his knees. The only thing he had on was a coat and he flashed an older woman who walked by.

She responded to him by saying, "I would call the cops but I can't see the reason."

I got a text that read, "Thanks for the free 12-month trial of communism but I would like to cancel."

I took my pickup in to the mechanic then I went back a few days later to get it. He said, "You didn't ask me if I could fix it. You asked me if I would work on it."

*Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.*

**(DWC) DEEP WATER CULTURE STYLE GROW**  
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

**QUALITY FLOWER, SHAKE & TRIM AVAILABLE**

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

**Understanding  
What We Read**

(For Students Of The Bible)

By Wade Church: Let me read this from the Phillips Acts 2: 36 "Now therefore the whole nation of Israel must know beyond the shadow of a doubt that this Jesus, whom you crucified, God has declared to be both Lord and Christ. "We can now see that Jesus is the one who paid the price for sin was no longer dead God, raised him from the dead. Why? Because Jesus died. In fact, Jesus declares so in Revelation 1:18 I am he that liveth, and was dead; and, behold, I am alive for evermore, Amen; and have the keys of hell and of death. Let me at this time ask you this question are you being taught this in the church where you go? To make Jesus any more than what he is proves that one has no clue who Jesus really is. Did you know that Jesus is the only one who has immortality? Listen again as Paul speaks to us from 1st Timothy 6:13-16 13 I give thee charge in the sight of God, who quickeneth all things, and before Christ Jesus, who before Pontius Pilate witnessed a good confession. 14 That thou keep this commandment without spot, unrebukable, until the appearing of our Lord Jesus Christ: 15 Which in his times he shall shew, who is the blessed and only Potentate, the King of kings, and Lord of Lords; 16 Who only hath immortality, dwelling in the light which no man can approach unto; whom no man hath seen, nor can see: to whom be honor and power everlasting. Amen. Who is this one that only has immortality? It is none other than the one who was a human being that died for our sins and is at this time seated in the light of the Only wise immortal and eternal God and thus since Jesus dwells in this light which no one can approach but Him at this time proves beyond all doubt that Jesus is not God as the theologians would have you to believe. Paul that great apostle tells us in 1st Timothy 1:17 Now to the King eternal, immortal, invisible, the only God, be honor and glory forever and ever. Amen [From NASB] Did you hear what he said my beloved, the only God. Eternal immortal, He was never mortal never will be. I will ask you again are you being taught anything any different in your Church? If you are my beloved, you are not being taught what Jesus taught. Romans 15:5 Now may the God who gives perseverance and encouragement grant you to be of the same mind with one another, according to Christ Jesus, 6 so that with one purpose and one voice you may glorify the God and Father of our Lord Jesus Christ." Here again Jesus has a father. God is his Father. Jesus has a God and here we have learned that the same God that stepped out from behind the curtain of Nowhere onto the platform of nothing and said let there be light is his God. Until Next time Keep looking up Jesus is coming very soon. Thanks for writing.

## Shamrock Lands Recycling Company – Could Have Significant Economic Impact

January 14, 2022 - Ecolomondo, a recycling company headquartered in Canada, has announced that their first U.S. location will be in Shamrock, Texas.

According to officials, the company plans to develop on 136 acres located off of Interstate 40 near the Wheeler County community.

Ecolomondo says the new plant will recycle old tires and produce renewable resources that include steel, black carbon, and oil.

Ecolomondo CEO, Eliot Sorella says that Shamrock’s location was an important factor when choosing a location for production saying they’re always looking at locations where they can sell the products, and that Shamrock is ideally positioned and not far from the carbon black industry in the region.

The company will work on a 10 year tax abatement approved by the Wheeler County Commissioners Court.

Once the abatement ends, the company expects to annually contribute \$30 to \$40 million to Shamrock’s economy.

\$80 million will be put into constructing the facility.

The company expects to hire 80 people to work inside the plant and estimates 140 contracted positions will also be needed.

Construction on the facility is expected to start next year, and production is scheduled to begin in 2024.

## Sayre Store Owners Chase and Capture Robbery Suspect

January 13, 2022 - A Hawaii man was charged last week with second degree burglary in Beckham County, after being caught in the act by a Sayre store owner.

After being discovered, that store owner successfully pursued and detained the suspect until police arrived.

According to a probable cause affidavit, the incident took place in the noon hour of December 26 when the owner of a Sayre store located in the 100 block of N. 4th Street discovered that the building had been broken into. Upon inspection he would find that items had been moved, some items had been ransacked, and other items were missing.

While inside the building, the victim would tell police that he discovered that the culprit, later identified as being 36-year-old Thomas Lou Robert Bowers of Mountain View, Hawaii, was still inside the store – locked in a bathroom.

The victim would call a co-owner of the business, who would later call police.

A short time later Bowers would exit the bathroom and attempt to leave on foot, however the victim was able to chase the man down the street where his business partner was able to meet up with him, and subdue the man.

Police would arrive on scene and place Bowers under arrest.

It was later discovered that Bowers had allegedly taken a backpack with personal belongings owned by one of the victims. Police would also find a check stolen from a local church on the defendant.

Bowers was charged in Beckham County District Court with one count of burglary in the second degree and knowingly concealing stolen property.

Bond for Bowers was set at \$15,000. His next court date is scheduled for January 24.

## Local Sales Tax Numbers Impressive

January 12, 2022 - If the latest sales tax report for area municipalities are any indication, a lot of local patrons started the Christmas holiday shopping season in November.

Once again, sales tax intake for area cities were impressive, with two of the area’s biggest communities over the \$1 million mark again.

According to the Oklahoma Tax Commission, the City of Elk City took in just over \$1,224,000 of sales tax revenue in the month of November, a hefty 21% increase when compared to last year’s numbers.

Weatherford was over the \$1 million mark for a second month in a row bringing in just over \$1,123,000 – up 26%, while Clinton was up 11% bringing in just under \$479,000.

Woodward brought in over \$1.1 million, up 28% and El Reno saw a 34% increase in the month of November, bringing in a little over \$1,097,000.

Even smaller communities in western Oklahoma saw an increase.

Thomas was up 43%, bringing in a little over \$48,600. Hydro was up 27% accumulating just over \$26,400 of sales tax dollars.

The only slight blemish in the area was Cordell, bringing in \$80,089 – a 7% decrease when compared to a year ago.
