Understanding What We Read

FOR STUDENTS OF THE BIBLE
 What Is Man?

(Continued from last week) "What is Man?" Does the Bible give us any answer to this question? Well, the first book of the Bible is a good place to begin. As a young man, upon reading this verse in Gen. 2:7, I saw right away that what I had heard on the radio and TV was not what the Bible taught. As I got older, I found that there were other translations of the Bible. I asked Jesus and God, his Father, for the wisdom I am sharing. Young's Literal Translation reads: "7And Jehovah God formeth the man--dust from the ground, and breathed into his nostrils breath of life, and the man becometh a living creature." "7Then the LORD God formed the man of dust from the ground, and breathed into his nostrils the breath of life; and the man became a living person (NASB)." "7And the LORD God formed man of the dust of the ground and breathed into his nostrils the breath of life, and man became a living soul (Jubilee Bible 200)." This is rather a remarkable verse of scripture. Let me ask you some questions: Was Man a living "soul" living in some far-off place before God created a body for him? What did the LORD God use to make the man from? Let the record show that it was the breath of life breathed into the dust-made creature that caused the dust-made creature to become a living soul. I would like for you to take note that it was AFTER the breath of life was breathed into the dust-made form that he became a living SOUL. Nowhere in all holy writ can anyone find written of an immortal never-dying soul. Now let me ask you this question: If the soul were put into the man, does it not seem logical that the man would have knowledge of many things before the creation of his body? Did man, to put it in another way, know anything before the breath of life was administered to him? The equation of the ingredients of the dust made being is quite simple: Dust + the Breath of Life = a Living Soul. Had God not breathed the breath of life into the dust-made form which he called man; the man would have never become a living soul. There had to be the second ingredient which was the breath of life breathed into the dust-made creature for him to become a living soul. Men of great renown may give great speeches and tell all kinds of fairy tales of men dying and going to a place of bliss and glory, and other wild tales of men claiming their feet or other parts of their body burning. Here, we give you the word of the Lord. Hell-scared religion is useless, and not worth anything at all. You might ask why? (To be continued)

Any type of moisture welcome now

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

We are dry. And I am at the point a snow would be very welcome. And if the snow blows off the fields with the wind maybe we can grow something in the bar ditch and bale whatever is there.

The government has challenged meat packers with rising retail meat prices coupled with historic packer margins and softer cash prices for cattle and calls it exploitation of consumers and farmers.

The North American Meat Institute says consumers saw increased meat prices in 2021 because of labor shortages, greater consumer demand, supply chain problems and other factors experienced by most sectors of the economy.

In my opinion, the truth of the matter is the big four packers took advantage of cattlemen simply because they can and they have gotten a lot more ruthless in recent years; in other words the greedy get greedier. They could care less whether you and I survive.

Luckily our futures have feeder cattle at very high levels in the fall, which allows ranchers and farmers to grow cattle even though grain prices are high. Normally when it gets very dry then our futures also are low, which gives most cattlemen not much incentive to want to keep their smaller cattle and sell them.

The preacher said Sunday that the devil knows he is losing in the end so he is going after you hard while he still has time. He said if you go through stuff but do not grow through stuff you will more than likely go through it again.

As long as you are green and trying to learn you are growing. But when you think you are ripe and have learned it all then you are ripe and then you are rotting.

There was a blonde gal sipping gin a bar wondering why she only had three sisters and her brother has four.

I was told this morning that you know it is cold outside you step on dog crap and you roll your ankle. I told him maybe he needs a smaller dog.

A bad day with a bald head is better than a good day with a man bun.

Two elderly women were out driving a large car and both could barely see over the dashboard. They came to a red light and went through it. The passenger lady thought, "Am I losing it? I think that light was red?" Then they went through another red light and then a third one.

Finally, the passenger asked, "Mildred, weren't those lights red?" Mildred said, "I don't know I am driving."

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

We are a growhouse/processor
located in Central Oklahoma.

WE DELIVER STATEWIDE!

STORMCHASER • DREAM QUEEN • BLUEBERRY MUFFIN • ALL GAS OG • GIRL SCOUT COOKIE • BANANA MANGO

(DWC) DEEP WATER CULTURE STYLE GROW
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

QUALITY FLOWER, SHAKE & TRIM AVAILABLE

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

for you. I have given you all things, even as the green herbs."**

Where are all of SQ.788 Tax Dollars going?

Oklahoma Medical Marijuana Authority responded with this....

As of right now, the first \$65 million collected in SQ 788 taxes for the year gets split between the State Public Common School Building Equalization Fund (59.23%), the OMMA (34.62%) and the Health Department (6.15%). This means the OMMA may receive up to around \$22.5 million from SQ 788 tax revenue each year. The OMMA uses this revenue to fund our operations, materials, contracts, equipment, and salaries. Any SQ 788 tax collected in excess of \$65 million for the year goes to the General Revenue Fund of the State Treasury.

The sales tax revenue goes to those local/state governments. Even though we do not receive that money, we prefer reporting the amounts to the public so they are informed.

The apportionment was laid out in SB 229 (<https://legiscan.com/OK/text/SB229/2021>).

We get some version of this question a lot, and we're working on a web page that explains it simply and clearly.

How much weed can you possess in Oklahoma?

According to potguide.com, medical cannabis patients who are legally registered with the state and in possession of a state-issued license are allowed to have:

• **Up to three ounces of marijuana on their person; Up to eight ounces of marijuana at their residence**

• **Six mature marijuana plants and six seedlings**

• **One ounce of marijuana concentrates**

• **72 ounces of edible marijuana products**

Counties and cities are legally allowed to enact additional medical marijuana guidelines that enable licensed medical marijuana patients and caregivers to exceed the state limits.

It's important to note that the limits stated above are only valid when a patient is in possession of their medical marijuana license. Governor Stitt recently passed Senate Bill 1030 which, among other initiatives, set clarification for law enforcement on what to do when a patient is on possession of cannabis products but not their state-issued medical marijuana card. People who are caught with up to one and a half ounces of cannabis and can state a medical condition, but are not in possession of a medical marijuana license, will be subject to a misdemeanor offense punishable by a fine not to exceed \$400.

WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

“In Case You Missed It Last Week”

By Paragon News Director
Jared Atha

Early Voting Begins Thursday

January 28, 2022 - Early voting begins Thursday for voters in Custer County. Voters who will not be able to make it to the polls on Election Day, have the option of voting early at their County Election Board.

Custer County Election Board Secretary, Ann Brown, said early voting is open to all voters.

“You do not need to provide an excuse to vote early. Oklahoma allows early voting for all elections conducted through the State Election Board—from school board and municipal elections to state and federal elections. This is a great option for those who will be out of town on Election Day or who want to avoid long lines,” Brown said.

Early voting is available Thursday February 3 and Friday February 4 from 8:00 a.m. to 6:00 p.m. at the County Election Board located at 633 North 6th Street, Clinton. Brown reminds voters that early voting is not available at polling locations.

The Custer County Election Board is located at 633 North 6th Street and is open from 8 a.m. to 4 p.m., Monday through Friday. For questions, please contact the Election Board at 580-323-5124 or custercounty@elections.ok.gov.

UPDATE: Beckham County Rape Suspect Arrested

January 27, 2022 - A Hinton man wanted in Beckham County after being charged with second degree rape has been arrested.

According to Elk City Police Chief Eddie Holland, 20-year-old Junior John Keith Charboneau was arrested Wednesday night by authorities in Anadarko.

Charboneau was charged with second degree rape on January 12 after allegedly having an inappropriate relationship with a 14-year-old girl.

According to the probable cause affidavit, the suspect and the victim were communicating via social media and began the inappropriate relationship in October 2021. During a forensic interview, the victim would tell police that he had allegedly told her that he was 16, and was living in Hammon with his mother.

The victim was able to identify Charboneau in photographs provided to her by police.

Detectives were able to determine that the defendant was in fact 20, was living in Elk City at the time of the crimes, and working at a fast food restaurant.

Holland said he expects Charboneau will be extradited from Caddo County to Beckham County within the next few days.

EXPLORING ENERGY NEWS

Sherwood Forest 2.0

By: Mark A. Stansberry,
Award-Winning Author
Energy Advocate
and Chairman
of The GTD Group
www.markstansberry.com

Prime Minister, Winston Churchill, strongly credited the American oil industry cooperation with the UK oil industry for victory in World War II. The oil industry is needed today as it was needed in the 1940s.

I am pleased to be serving as the executive producer of the upcoming “docufilm” Sherwood Forest, along with Academy Award-winning producer, Gray Frederickson (The Godfather 2), Emmy Award-winning Greg Mclott, and production supervisor and assistant director, Sean Lynch. The narrator of the production is Barry Corbin, who has been in over 225 movies/film productions. The production is made possible by the Oklahoma History Center and Samuel Roberts Noble Foundation, OERB, James Day, and others. There are several reenactments, which were filmed in Oklahoma locations, around 58 cast and crew were involved. British Petroleum greatly assisted in providing footage from their archives of the 1943 timeline of Sherwood Forest. It has been quite a challenge to complete the project, especially due to COVID restrictions. The release date is Spring/Summer 2022. I share with you the production team’s synopsis of Sherwood Forest:

“In 1943, at the peak of World War II, German U-Boats hunting in “Wolf Packs” were sinking American tankers delivering oil to England in record numbers. Even if the tankers made it to

the docks, the same German bombers devastating London and Liverpool and all of England’s major cities – would explode the tankers before the oil could get off-loaded.

The British were running out of oil to fuel their Spitfires that battled German bombers nearly every night. They were ripping bottoms out of oil tanks and sending the residue to refineries to keep their war machine from collapsing, and their country overrun by Nazi invasion forces, just across the channel in France.

Because of that, the English reached out to America for help in drilling for oil inside the United Kingdom. They sent a contingent of high ranking officials to America to recruit professionals in the petroleum industry to come to England with their equipment, men and expertise to produce oil.

Some pioneers in the oil business from the state of Oklahoma took on the challenge and mobilized a group of oil field “good ole boys” roughneck/cowboys, who traveled to England and lived outside of Sherwood Forest in a Monastery with British Monks.

Their initial success stunned the English company that hired them, D’Arcy Exploration Company, which later became BP, British Petroleum. It took the British crews 5-8 weeks to drill a producing well. The Oklahomans did it in one week.

For one year these “fish out of water” oil rig workers secretly drilled 100 wells in the Sherwood Forest. In the end their operation yielded 3,520,553 barrels of oil.

Sherwood Forest is an incredibly powerful documentary for our entire world

Mark A. Stansberry

right now.

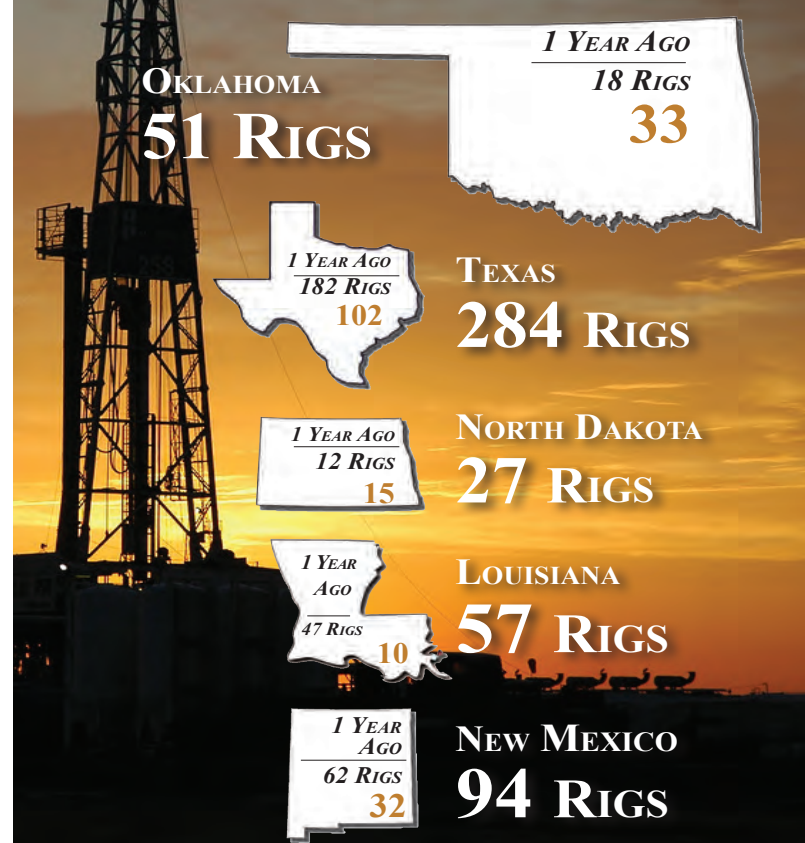

England was within a month and a half of falling to the Nazis because it was running out of oil and gasoline. Without England there’d have been no way to stage D-Day and without D-Day, World War II might have gone to the Nazis.

And what was the key to the Allies winning it? Leaders from Churchill to Eisenhower all say the same thing. Petrol – gas – oil – their ability to power all the engines of war on land, sea and air – that’s what won the war.”

As Sherwood Forest exemplifies the commitment and courage of the oil industry in the 1940s, “Sherwood Forest 2.0” exemplifies today’s need for a strong oil and gas industry, as well as the entire energy industry, in providing a road map to solutions, including energy efficiency, environmental preservation, energy reliability and accessibility, security, sustainability, and “strategic optimization 1440.” America needs America’s energy, all forms, all American! America needs America’s Energy. Please go to National Energy Talk Podcast and to www.MarkStansberry.com to learn more. nergy on Facebook.
