The logo for 'THE RAILROAD YARD' is a black shield with a white border. Inside the shield, the words 'THE', 'RAILROAD', and 'YARD' are written in white, bold, sans-serif capital letters. 'THE' is at the top, 'RAILROAD' is in the middle, and 'YARD' is at the bottom. The shield is set against a red background. In the top left corner, there is a small white registered trademark symbol (®). The bottom of the image shows a white building with a black railing.

One beef sector keeps growing

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

I was trying to figure out the reasons killing cows and bulls have gotten a lot higher these past two weeks.

I asked one of the packer buyers from the north if the reason they have gotten higher was that grain has been high enough that most packers put less cows and bulls on feed. The reason I wondered because this might be the first time I have ever seen killing

cows and bulls get higher in a large drought. This particular packer buyer buys for a processor that owns about six big facilities.

He said the packing company has a lot of feed but generally if it gets higher there are less around nationwide. And maybe because of this a lot of cows already moved because of this large drought.

Three feeder future months this fall are at \$185 or a little more including September, October and November 2022. The is interesting to say the least. Two months of fat cattle in 2023, which is February and April, are at \$150 and \$151.

I'm wondering how this is going to work with getting fat cattle and feeders this high with the fact that the packer has gotten accustomed to thinking he needs to make \$600 to \$1,000 on every head. If he adds that kind of profit to these higher figures my question is can the public continue to eat beef?

Everything else has gotten a lot higher with some things doubling in price. Where is the tipping point?

I don't know whether you like what is going in America but I don't. I am not prejudiced at all but letting all kinds of people cross our southern border not knowing who or what is coming in bothers me.

I picked up a hitchhiker. He asked if I wasn't afraid cause he might be a serial killer. I told him the odds of two serial killers being in the same car were extremely unlikely.

My wife asked me to take her to one of those restaurants where they make food right in front of you. I took her to Subway.

Confuse your doctor by putting on rubber gloves at the same time he does.

I went line dancing last night. OK, I lied instead it was a roadside sobriety test. Actually, the same thing.

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

PROTEIN TUBS

Hi Pro Protein tubs are a free choice supplement designed for beef cattle on forage diets providing less than 8% protein. The low moisture, cooked molasses products are in non-returnable plastic containers or biodegradable tubs that will enhance intake and utilization of available forages, while reducing labor for producers.

Products: Hi-Pro 25% Tub w/ 5% Fat
Hi-Pro 38% Hi-Energy Tub w/ 12% Fat
Both available in plastic or bio tub.

Understanding What We Read

FOR STUDENTS OF THE BIBLE
What Is Man?

(Continued from last week: What is man?) Hell-scared religion is useless and not worth anything at all. You might ask, why? Because men of great renown may give great speeches and tell fairy tales of men dying and going to a place of bliss and glory and other wild tales of men claiming their feet or other parts of their body burning. Here, we give you the word of the Lord. Jesus seeks a people that will love Him and have a love for His word because of what He has done for us. Listen to this verse, "I love Jesus because He first loved me." That is why we love the Lord. As I looked into this subject of man at a very young age of my life, I saw right away that what I had heard about this subject on the radio and from boys and girls I went to school with was very different than what I had read from the Bible. I had determined right then to learn for myself that what I was being taught in the church where I went was from the scriptures. I ask you who are reading this in a newspaper of some sort to do the same for yourself as well as for your family. Popular theology teaches that in death, the body is like a garment laid aside or taken off, or as a dwelling, abandoned. I would like to say here that our text reads: God formed man of the dust of the ground. We are NOT told that God formed man of the dust and spirit or soul, but if we are going to stay true to the scriptures, we must believe what he says and that being "Out of the dust" means dust only. Man does not in any way have a soul. He IS the soul!! I'd like to quote a good friend of mine, Preacher H.L. Davis: "If man has a SOUL, he is not that soul." If Adam had a soul that could not be affected by death, and if it could know anything after the death of the body, it would stand to reason that he could remember anything that went on before he was created [since the "soul" is the thinking, all-knowing part of man] according to popular theology. Let us not forget that the Bible has made it very clear that man is the one that "lieth down and riseth not till the heavens be no more." (To be continued next week)

WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Jared Atha

Arson Suspect Receives Additional Charges STILL AT LARGE

February 4, 2022 - More charges have been filed against the Clinton man accused of arson and aggravated assault and battery.

Formal charges of first-degree arson, two counts of assault and battery with a dangerous weapon and three counts of malicious injury to property over \$1,000 were filed earlier this week in Custer County District Court against 49-year-old Tuhtaka Wilson.

Authorities have been looking for Wilson since last Friday.

According to a probable cause affidavit, a female victim would tell authorities that while putting her 10-year-old to bed she heard a loud crash. A short time later her boyfriend would yell that the house was on fire. The woman would grab the child and run out of the house, however her ex-boyfriend, Wilson was outside.

The court document stated that Wilson would hit the woman with a baseball bat while she was running with her daughter in her arms. Wilson would allegedly hit the woman several times that caused injuries to the woman. The child would be hit on the hand, however her injuries appeared to be minor. The female victim would ultimately need four staples to close a wound on the back of her head.

During the incident, Wilson would also allegedly vandalize two vehicles at the property.

While speaking with the victim’s boyfriend, he would tell authorities that he discovered that windows had been shattered to the home, and would later discover the fire outside – in which him and another man attempted to put the fire out. While doing so, two bottles of lighter fluid were discovered outside of the home.

As of press time Wilson has not been arrested and is considered to be armed and dangerous. Authorities ask that if anyone has any information leading to his arrest to contact local authorities.

Redbud Grant Dollars Handed Out to Local Schools

February 2, 2022 - It was announced recently that the Oklahoma State Department of Education has scheduled part of the funding through Redbud School Funding Grants to schools statewide.

The Department of Education allotted half of its \$38.5 million to 337 public schools across the state through Redbud School Funding Grants. The rest will be distributed to schools over the summer.

Local schools receiving funding include Merritt seeing \$9,959.43, Elk City receiving \$38,837.01, Erick getting \$363.47, Weatherford seeing \$32,848.82, Clinton will get \$109,699.45, Hobart will receive \$35,198.64, Burns Flat-Dill City receiving \$31,754.73 and Canute getting \$2,525.53.

The funding is the result of Senate Bill 229, which addresses funding disparities for public school districts which receive below-average funding from annual local tax revenue.

The State Department of Education awarded the grants with funding appropriated from medical marijuana taxes and the Common School Building Equalization Fund.

Redbud School Funding Grants are an expansion of funding for public education. This includes teacher and staff pay raises, restoration of textbook funding, increasing appropriations for classrooms and school activities and other investments

We are a greenhouse/processor located in Central Oklahoma.

WE DELIVER STATEWIDE!

STORMCHASER • DREAM QUEEN • BLUEBERRY MUFFIN • ALL GAS OG • GIRL SCOUT COOKIE • BANANA MANGO

(DWC) DEEP WATER CULTURE STYLE GROW
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

QUALITY FLOWER, SHAKE & TRIM AVAILABLE

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.
