Sedation Dentistry Calms Fears...
Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Cattle on feed report may include some surprises

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

Early estimates for the cattle on feed report show estimates on fed at 101%, placements at 94% and marketing at 98%. The official report came out April 22.

The new bird flu cases were detected in a commercial chicken flock in Pennsylvania and a backyard flock in Utah and bird flu is now reported to have spread

in 30 states. I have a suggestion: How about eating beef?

Most cattlemen in our area definitely feel like a lot of available cattle have already moved to feedlots with less available for the near future. Our area is dry and desperately needing another rain. Most of us received an inch a couple of

weeks ago but with the winds we need another.

If you go east 100 miles, the wheat looks a lot better but I think they also need another rain again. Surprisingly, the grazing market has stayed very good through the drought, which is unusual.

Our hay piles are getting very low and with the price of wheat there will be less wheat baled unless they give up on it making enough bushels per acre to pay for the harvesting.

Some say the government is getting ready to have another drought payment. I could sure use the money but with all the giveaways from getting free phones (for tracking purposes), to the war in Ukraine and talk of reimbursement on gasoline if it is over \$4 a gallon I often wonder if the politicians have a plan.

The preacher on Easter Sunday said he is often asked why things happen. He said himself there are things that he doesn't understand. One thing he doesn't understand is how God could offer his son to die on a cross for some people who don't even like him.

I pulled out a nose hair today to see if it hurt. But judging by the reaction of the man asleep next to me on the bus, I guess it must have been pretty painful.

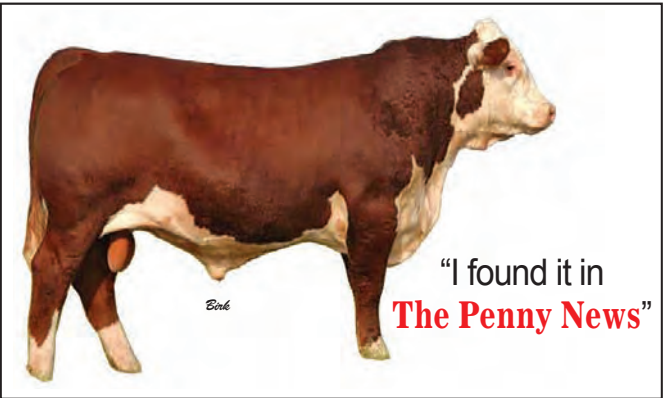

I have an eating disorder—I'm about to eat dis order of fries, dis order of wings and dis order of nuggets.

Yesterday I saw an ad that said, "Radio for sale for \$1. Volume stuck on full." I thought I can't turn that down.

I don't have a bucket list but my screw it list is a mile long.

Wouldn't it be great if we could put ourselves in the dryer for a short time and come out wrinkle free and two sizes smaller?

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

Hammon Man Accused of Sexual Battery

April 22, 2022 - A Hammon man was charged in Custer County District Court recently after allegedly inappropriately touching a convenience store employee.

According to the probable cause affidavit filed by the Custer County Sheriff’s Department, the victim told the investigating deputy that the incident took place on the morning of April 3, when the defendant – 69-year-old Jerry Edwin Brewster – had entered the Hammon store and hugged the employee, which the victim said is not uncommon. This time, however, Brewster would allegedly touch the 22-year-old female inappropriately.

Shortly after, the victim said another customer came in and Brewster would leave the store.

The store’s manager would later contact the deputy and tell him that she had a copy of surveillance video that had captured the incident. That video was forwarded to authorities.

Brewster was charged with one felony count of sexual battery on April 11. Court records show he was arrested on April 14. Bond for Brewster was set at \$10,000.

A preliminary hearing conference for Brewster has been scheduled for May 27.

UPDATE: Weatherford Detective Turns Himself In

April 20, 2022 - A Weatherford detective indicted by an Oklahoma grand jury for allegedly stealing pills from an evidence room has turned himself in.

According to court records, 39-year-old Jeremy Anderson surrendered himself to the Custer County Sheriff’s Department after being formally charged yesterday in Custer County District Court with one felony count of larceny of a controlled dangerous substance and a misdemeanor charge of willful neglect to perform a duty.

According to a probable cause affidavit, the Oklahoma State Bureau of Investigation began their investigation on September 9, 2021 after a substantial quantity of drugs, namely Fentanyl, was discovered missing from the evidence room of the Weatherford Police Department.

The court document stated that on or about February 26, 2021 through September 9, 2021 Anderson allegedly took 99 tablets from the evidence room.

After a lengthy investigation, the case was presented to the Oklahoma Multi-County Grand Jury on April 12, 2022, where indictments for both charges were handed down by the Grand Jury and were filed on Tuesday.

The affidavit indicated that the Weatherford Police Department, along with the District 2 Drug Task Force assisted OSBI in its investigation.

Anderson was released after posting a \$10,000 bond.

His first court date, a preliminary hearing conference, is scheduled to take place July 8.
