WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

before you started?" I could tell the one friend thought the question was a little pushy but nonetheless we let her know everything was clean. A lot of the problems include drug abuse, mental

This past weekend I helped a couple of friends feed the homeless at noon on Sunday. The one friend had a card that had his phone number and told the homeless if they needed someone to talk to give him a call.

I got tickled when the first woman who came up there said, "Did you sanitize everything

health, or both and some of you just wonder what made them end up homeless. It's a lifestyle that doesn't appeal to me.

The cattle market has gained strength every week for several weeks and often \$3 to \$5 per hundredweight higher. A friend sarcastically said, "Well, the packer claims they are only making \$250 per head." Then, he said, "Do you think they can survive with only making that?" Until cattle organizations stand up for the individual cattleman then I guess be glad they don't want \$1,000 per head like they did not too terrible long ago.

Expected fat cattle kills this past week are 665,000 to 670,000 head, which is excellent numbers. It appears that a lot of cattle feeders think that we are going to be short of numbers of feeder cattle. If you are a packer and buying them, they are plenty cheap. But if you are an individual giving these prices for feeders then you either have a sharper pencil than I have or have cheaper feed than I can get. Or else you are an optimist. And I hope you are right if you are an optimist, and they get higher. However, November and January feeders closed on July 12 over \$185 and the next May they closed at \$189.80.

I have two sisters—Sandra and Tammy—and sometimes I feel the need to talk to them if I am needing a little therapy. But most of the time after talking to them I definitely need therapy.

Two little kids were talking. The little girl said, "Do all fairy tales begin with 'Once upon a time?'" The little boy said, "No many of them being with if I am elected, I promise."

I asked my secretary if she knew a joke for me to put in this article. She said, "Yes I do." I said, "What is it?" And she said, "My life."

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

Brewer's New Book Completes Cold War Trilogy

July 18, 2022 - Southwestern Oklahoma State University History professor Landry Brewer's new book, Cold War Texas, will hit the shelves August 1.

In the book, Brewer argues that the Lone Star State played a significant role within American Cold War national security policy, when civilization's survival hung in the balance.

Abilene's Dyess Air Force Base operated 12 Atlas F intercontinental ballistic missile (ICBM) launch sites in the early 1960s that were identical to those operated near Oklahoma's Altus Air Force Base at the same time. In fact, one of those Altus-area missile sites was located just south of the Red River near Fargo, Tex.

"Had these 13 ICBMs been fired, they would have reached their Soviet targets in less than 45 minutes, each delivering a nuclear bomb more than 250 times more powerful than the atomic bomb dropped on Hiroshima, Japan, at the end of World War II," Brewer said.

Those missile launch sites cost millions of dollars to build, and five lives were lost in the process.

Nuclear-capable Nike Hercules surface-to-air antiaircraft missiles protected Austin and the Metroplex from a Soviet bomber attack.

An American pilot stationed at Laughlin Air Force Base near Del Rio was the only fatality of the Cuban Missile Crisis.

Amarillo's Pantex plant, where three employees died in a 1977 explosion, maintains the security and reliability of the nation's nuclear weapons arsenal.

Abilene Christian University History professor Amanda Biles offered this praise in the book's foreword:

"Professor Brewer's research takes his readers through the entire Texas Cold War experience, from origins to early nuclear build-up, then through civil defense and even espionage. He tells of universities, schools, and civic organizations banding together to provide shelter from possible

fallout...He provides needed insight on the relationship between cities and their nuclear neighbors.

"These efforts left a lasting impact on Texas communities. Her citizens knew they would likely be caught in the crosshairs of any Soviet attack, and they responded to this danger with Texas-sized resolve. Their stories are all chronicled here, in another excellent installment of our nation's Cold War history."

Brewer is also the author of Cold War Oklahoma and Cold War Kansas. "This book completes the trilogy," Brewer said.

Cold War Texas is available from Arcadia Publishing/The History Press and may be preordered from Amazon, Barnes & Noble and several other booksellers.

Brewer is Bernhardt Assistant Professor of History for SWOSU and teaches at the Sayre campus.

He also co-hosts "The Early Morning Show" on KECO Radio with his twin brother Nathan.

Dill City Teen Dies in Washita Co. Accident

July 18, 2022 - An Oklahoma teenager died in a vehicle crash in Washita County that left another teen in serious condition.

According to the collision report provided by the Oklahoma Highway Patrol the 17-year-old male from Dill City was pronounced dead at the scene of the crash.

Troopers said the crash occurred at approximately 2:11 p.m. Thursday on E 1200 Road, just east of Oklahoma 44 and two miles west of Dill City.

The deceased victim was a passenger in a 2003 Chevy Tahoe.

The Tahoe was driven by a 17-year-old male from Depew. He was air lifted to OU Medical Center in Oklahoma City where he was last listed to be in serious condition with head and external torso injuries, according OHP officials.

A second passenger, a 16-year-old male from Burns Flat, was treated at Cordell Memorial Hospital and later released.

Information was not provided on how the crash occurred. It remains under investigation.

JAMES CHESTER OF THE RED KNIGHTS receives a donation of \$5,500 from Blake Brewer of KECO/Paragon Communications. This money was collected from the proceeds, donations of the 25th Annual KECO/Moran Equipment Open - held at the Elk City Golf and Country Club on Saturday, July 9th, 2022.

The money is to be used to benefit the Dream League. This year's tournament raised over \$6,000 in charitable donations for the Red Knights and the Open has raised almost \$50,000 in donations since 2013.

A big thank you to Josh and Jennifer Moran with Moran Equipment for making this possible!

8th Annual Kids' Fishing Derby PRESIDIO Family Day in The Park

Check out kecofm.com or KECO Facebook page for lots more pictures.

The 8th Annual Kids' Fishing Derby at Ackley Park in Elk City last weekend was another huge success. Over 500 people attended, and youngsters caught over 130 fish. PRESIDIO Petroleum cooked hamburgers and hotdogs free for everyone. PRESIDIO also rented the park, opening up the carousel, the putt-putt course and had train rides for all to enjoy. Thanks to our great sponsors for providing prizes, bait, drinks, food and fun! And we couldn't do this without help from the Oklahoma Fish & Wildlife Department. Each year they stock the ponds with fish, attend the Derby, provide free poles for kids to use, and offer instruction and advice.

Quiz

During WWII, America developed the Atomic Bomb to use against the Axis powers. After Japan, what country did the U.S. come close to using it on in the early 1950s?

Now that you've read the Classified Ad above, the answer to the question is... sorry, we can't tell you. That information is Classified.

But your reading the information above shows how well Penny News Classifieds work. To get one of your own for just dollars a week, call 225-7355
