Why do people do the things they do?

Human behavior is fascinating. If we figure out what makes people tick, we can say things in ways that persuade them.

That's what every business in the world needs to do—persuade people to buy their products or services.

That's what we do. We help businesses persuade potential customers. We try to figure out why people do what they do, then we use words that help that process along.

Do you like words? Do you like how they sound? Are you amazed by really good speakers and really good writers?

Words can be powerfully persuasive like nothing else. That's what we do for our clients—find the right words.

If you like figuring out how people think, and if you want to find just the right words to persuade them, contact Paragon Communications in Elk City. We may have a job for you.

It's a lot of fun, and if you do it right, the pay is pretty good.

Call 580-225-9696 and ask for the Persuasion Department.

Or e-mail: gabe@kecofm.com.

As election nears there is much to discuss

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

There is a lot going on in the United States that I do not like going on.

This open southern border we have going on will haunt us for many years and may change America from what it once was. If you want to do harm to America then what better time than now

to get your people scattered through the United States. You wouldn't have to be a member of a terrorist group to be one who comes across to do evil.

There is not a doubt in my mind

that there are terrorist groups who are plotting to use some innocent people who are coming across and pay them big money to carry out their schemes. We have to get control of this.

The other big item is what is our government doing by buying oil from countries that hate us. Two years ago, we were energy independent and now look what we have. I am not against wind energy but let's have a balance.

Give incentives to drill for oil and gas here in the U.S. and start building refineries that can handle it. When you drill here, gas companies have to buy leases from mineral owners. Then they have to pay the landowner to put pipelines across their land. Then gas company pays its people to drill for oil or gas. Then they hire lots of workers. It boils down to are you for America or countries that in some cases may hate us. It's a no-brainer.

With these elections coming up, in my opinion, whether you are a Christian or not I hope candidates like what most Christians stand for. And for that reason I think forget whether the candidate is a Democrat, Republican, or Independent and vote for the person who believe in God and care about America.

If we don't get radical left-wing ideas out of our government then we are in trouble.

It is important to keep God in America and politics or I fear my kids will live in a communist country.

"Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

Can You Turn Words Into Magic?

You're a curious person. You ask a lot of questions because you want answers.

You observe people and listen to what they say. You dig for information.

You know that people who always talk never hear anything and never learn. But you absorb information and learn all you can.

Can you take that information and work magic with it? Can you take ideas and turn them into words that thrill? Words that entice? Words that move people?

Can you paint word pictures and weave stories that make people want to listen and want to take action?

If you think that human behavior is fascinating, and if you love the English language, we're looking for you.

We help businesses find customers. Can you help us? We have a job for you.

The pay is pretty good, and it can be a lot of fun if you enjoy turning words into magic.

Call 580.225.9696, ask for the Persuasion Department.

You Are the One We're Looking For

You know a secret—that persuading others isn't about how loud you are or how enthusiastic you seem. It's about which words you choose.

You know that words can move mountains.

We want you to join us.

There's a group of us at Paragon Communications in Elk City that spends most of our time thinking about two things: how people think, and what words will persuade them.

That's our job. We help businesses persuade our audiences to buy their products and services. Businesses rely on it.

Can businesses rely on you? Do you like figuring out what makes people do what they do and which words will persuade them?

It's a lot of fun, and the pay is pretty good. Can you help us? Or do you know someone who can?

Call 580-225-9696 and ask for the Persuasion Department.

Or e-mail: gabe@kecofm.com.

Paragon Communications is an equal opportunity employer.
