## Bred cow sale continues upward trend

**Jerry Nine**  
Woodward  
Livestock  
Auction  
Woodward, OK

We had our bred cow sale this past Tuesday and this was about the fifth week in a row that you can definitely see bred cows and pairs getting higher with more participation.

It stands to reason as you hear a lot of talk about how high they may be in the spring with some saying if not this spring then definitely high by the next year. Any cows that are thin to medium flesh and nice quality from 3 to 5 years old are going back to be bred. Most would

breed the 2-year-olds but they will bring too much so they go to the feedlot.

Even some of the 3-year-olds will go to the feedlot if they weigh under 1,000 pounds. Part of the 8- and 9-year-old cows

are going back home and two months ago almost all of them were going to slaughter.

On the same day cattle futures were taking a tumble lower, I guess oil had been going down also for the past several days. It aggravates me when I hear the president announce he is going to let an American oil company drill in Venezuela. How about drilling here where the mineral owner gets to lease for drilling and getting a larger amount for that? Then whoever owns the land gets location damages, probably \$20,000 to \$50,000 depending on what part of the country he resides. Then if a well is made out of it the landowner gets pipeline damages. Wouldn't it be nice to put that money in our economy instead of Venezuela?

A wife said to her husband, "Why do you not ever say to me, 'Good to see you.' I hear you say that lots of times to other people." He said, "I do say that to you. I say, 'Good to see you... go.'"

Another wife told her husband, "You are not hard of hearing you are hard of listening."

Last week the cop stopped me and said, "Are you drinking tonight?" So I said, "Why are you buying?"

*"Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma."*

## Clinton Man Accused of Rape

A Clinton man has been charged with first degree rape and forcible sodomy in Custer County District Court after allegedly forcibly raping a woman for three days.

According to a probable cause affidavit, 63-year-old Ralph Edward Jones was arrested December 4 for the crime after the victim was able to get away from him and go to the hospital for treatment.

There she would tell police that the defendant had a problem with an illegal substance and had recently been using it in her apartment. She said that on more than one occasion within the last three days, Jones had held her hostage for several hours at a time in her bathroom while he did drugs.

The affidavit says that immediately following using the drug, Jones would allegedly beg the victim for sex and when she refused, he would physically beat her.

The affidavit states after Jones came down from the drug, he allegedly begged the victim for sex again following another hit of his pipe but the victim refused. Jones then became aggressive and violent toward the victim until she agreed out of fear for her safety.

According to the affidavit, on one occasion the victim said that Jones pulled her clothes off and pushed her down into the bathtub where he pulled her hair violently and punched her in the stomach, legs and face. She also said he allegedly grabbed her by the neck and hair and shoved her around.

The victim said she then gave Jones a ride and dropped him off at a residence before she was able to drive herself to the hospital for help.

Jones' first court date has been scheduled for January 4.

CAPITALIZE ON YOUR INVESTMENT BY PROTECTING YOUR HERD FROM EXTERNAL PARASITES ALL YEAR LONG!

"Mike has a simple formula to prove the value of the oiler. "If the cattle aren't swatting flies, they are eating grass, making milk and putting pounds on the baby. And if the babies aren't swatting flies, he's retaining that weight to go to market with. That's all you've got to sell is weight of the cow."
