## Unlatched trailer can make for tragedy

**Jerry Nine**  
Woodward  
Livestock  
Auction  
Woodward, OK

RI heard a story of an incident of where a couple was driving down the road. I don't know any of the details but I do know they were meeting oncoming traffic and the trailer of the oncoming traffic came off and met them head on pinning the wife in the vehicle.

The reason I write this is I have heard several ranchers tell me that they do not latch or lock the hitch on the trailer as if there is

no need. They said it won't come off. To me that is ridiculous and extremely lazy.

I told a friend of mine who told me he didn't latch his and I said, "Well, when one of your kids

gets killed by meeting an unlatched trailer then maybe you will change your mind."

Sometimes people latch it but have a smaller ball on which makes it easy to come off. Another thing that happens is if the center gate comes open and cattle go to the back of the trailer it can pop the trailer off the ball.

A lot of calves and feeders sold early this fall because of the drought. And even now something is happening because of lack of moisture but also with the price of light calves and yearlings they are moving earlier than they would have. It appears that a lot of the cattle moving now would have sold in March or later. I myself sold some starter steers that I planned on keeping. Some were black and some colored weighing 467 pounds and weaned at 120 days that brought \$1,113 per head. I was going to have to feed them every bite they would eat and hope for moisture to get something green by spring. So I decided to let someone else own them.

We say there is a lot of different years but I do feel it is true this year that we are going to be short of cattle providing our government doesn't import a lot of beef.

I'm sure most of you are aware of this but this is diarrhea awareness week. It runs until Friday.

It seems like my boys grew up so quickly. Like they say time flies when you are having fun. One day you look at your car's gas gauge and it shows empty and then you realize they are teenagers.

Some farm families can trace their ancestors back for hundreds of years but can't tell where their kids were last night.

For years they wouldn't allow women to go into combat. That's a mistake. Why let all those years of marriage go to waste?.

*"Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma."*

"Mike has a simple formula to prove the value of the oiler. "If the cattle aren't swatting flies, they are eating grass, making milk and putting pounds on the baby. And if the babies aren't swatting flies, he's retaining that weight to go to market with. That's all you've got to sell is weight of the cow." Mike Nesmith-Elk City, Oklahoma

## New York Man Accused of Trafficking Drugs – Charged in Custer Co.

January 23, 2023 - A New York man was arrested and charged in Custer County recently after over 900 pounds of processed marijuana was found during the execution of a search warrant at a grow facility in Butler.

According to court records, 37-year-old Xiao Chen of Flushing, New York was charged on January 13 after an investigation revealed that Chen was allegedly selling the marijuana illegally in other states and may have been attempting to send the marijuana to Europe.

The probable cause affidavit showed that Homeland Security Special Agents with the assistance of the OBN, DEA, FBI, and Oklahoma City Police conducted a search on a home in Edmond occupied by Chen on July 7 after Homeland Security had intercepted a package containing ketamine that was to be delivered to the home.

During the search of the home, it was discovered on Chen's phone that text messages revealed that the defendant may have been involved in illegal distribution of drugs. Agents also discovered that Chen owned 25% of a marijuana grow operation in Butler.

The affidavit stated that on August 11, OBN and local law enforcement would conduct a search on the grow facility in Butler where five workers were detained and more than 900 pounds of processed marijuana and more than 5,000 marijuana plants among other items were seized.

Chen was arrested on charges of trafficking a controlled dangerous substance and aggravated manufacturing of a controlled dangerous substance.

Bond was set at \$200,000.

## Leedey man in Critical Condition After Custer Co. Wreck

January 22, 2023 - A Leedey man is in critical condition after being involved in a two vehicle accident in northwest Custer County Saturday afternoon.

According to the Oklahoma Highway Patrol's collision report, the accident occurred at approximately 1:01p.m. on OK-34, 8 miles north of Hammon when while traveling northbound on the highway a 2012 Dodge 3500 was struck from behind by a 2010 Honda Civic driven by 31-year-old Michael K. Smith while slowing down to make a turn onto a county road.

OHP said Smith was flown to OU Medical Center in Oklahoma City where he was admitted in critical condition with trunk internal and leg injuries. Troopers said the driver of the Dodge along with a passenger were not injured in the wreck.

The report said that Smith was not wearing a seatbelt at the time of the crash.
