Crisis occurs when there is no respect for life

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

I was watching a program on television where they were interviewing different people on the crisis we have in America such as murders and lack of respect for life.

One man said whenever kids feel like they have no future for themselves then they have less respect for someone else's life. Another person said, "When we were younger, we all went to church whether we liked it or not. It wasn't an option." He said because of that we got ideas

instilled in us that were positive.

Another person who appeared to be a Christian man said, "Well, I am going to put part of the blame on the churches." He said they need to be doing a lot more with the youth than

they are in sports activities and different functions just spending time with these kids as a lot of them seem to have no dad in the house.

One woman whose daughter had been shot by another kid said the murderer's mother entered the courtroom, looked at her and shot her the middle finger. Wow!

I was talking to man from my hometown that had adopted four children and had three of his own. I asked him what the situation was with one of his boys that he had adopted.

I said, "Did his parents just walk off and leave him?" He said, "No, his dad choked and killed his 5-year-old brother right in front of him. Then after the dad left the house the 10-year-old brother tried to revive him." That town was not far away so if you get to feeling sorry for yourself and think you had a bad day maybe you ought to re-evaluate that and thank the good Lord for being raised in the family that you were with. I do know—without a doubt—that that 5-year-old little boy is in heaven.

You better check what these slaughter cows and bulls are bringing. Everyone has some at home they don't like. Our fleshy cows brought \$95 to \$113, and bulls topped at \$120.50.

I was thinking about our next presidential election. You know with Biden and Trump both thinking they will run. We all want someone as president that is dependable, but we don't want them on depends.

Today at the sale I bought a slender longhorn cross bull and gave \$120 per hundredweight. After the sale one of the buyers said, "Wasn't the church selling that bull?" I said, "I don't know I never looked at the ticket." But I said, "Rob, how I am going to get into heaven unless I give a big price for the church's bull?" He said, "I don't know but for as much as you gave I would think they would open the gates to heaven wide open."

"Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma."

THE NO FLY ZONE

- Reduce spread of disease & infestation
- Eliminates man power
- Increase daily rate of gain
- Reduce costly stress of cattle
- No product waste
- Improve overall health on cows and calves
- Saves pressure on fences

CAPITALIZE ON YOUR INVESTMENT BY PROTECTING YOUR HERD FROM EXTERNAL PARASITES ALL YEAR LONG!

"Mike has a simple formula to prove the value of the oiler. "If the cattle aren't swatting flies, they are eating grass, making milk and putting pounds on the baby. And if the babies aren't swatting flies, he's retaining that weight to go to market with. That's all you've got to sell is weight of the cow."

Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.
