"Mike has a simple formula to prove the value of the oiler. "If the cattle aren't swatting flies, they are eating grass, making milk and putting pounds on the baby. And if the babies aren't swatting flies, he's retaining that weight to go to market with. That's all you've got to sell is weight of the cow."

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

I like to stay to stay away from anything too political but I challenge you if you like communism then you might like the way we might be headed.

China is brilliant and out maneuvering the United States in a lot of ways. Don't think it is by accident that China is buying farmland in the U.S. Some states have wised up to this potential. If you

are listening to only news outlets that sugar coat everything for the present administration, then I challenge you to tune into other sources and then make up your own mind.

I love America and what it stands for and I want my kids and grandkids to be able to experience the same thing.

This massive open border is scary. Look how many homeless people there are and tell me where all these coming across the border are going to live and who is going to feed them.

I also don't want to continue to be negative but this drought in our area and quite a larger area around is more than challenging. I think we are just on the start of culling quite a lot more cows unless we get rain soon as several ranchers have tell me they are out of grass. We had more cows today at the sale.

I got a text Sunday from a rancher who said, please pray for rain at 12:05 that day. I challenge you to do more of the same, using your phone to challenge others. No hay, no grass looks like soon no money. I still have faith, though, that it will rain soon.

You might be a from a small town if you can name everyone you graduated with or if you get a whiff of manure and you think of home. Or perhaps you know what 4-H is. Or if you ever went to a party under a bridge. Or perhaps if you used to drag main. And in high school if you used the "F" word and your parents knew within the hour.

Also, if you ever went snipe hunting. Also, if you have ever taken your date to a cemetery just to walk around. Or, if your friends also knew which ditch that your buyer dropped your beer off in. Or, if you have ever given directions using the only stoplight in town.

"Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma."

Accused Kings Inn Arsonist Arrested

April 25, 2023 - By News Director Jared Atha - An Elk City woman was arrested over the weekend and charged with one felony count of arson after she allegedly set a motel on fire.

According to court records 40-year-old Fallon Tia Borzea was arrested for the crime Friday afternoon at a home located in the 900 block of West 2nd Street in Elk City after a quick investigation showed the suspect on surveillance footage at the scene of the crime earlier that morning.

The probable cause affidavit said that after the fire, footage was reviewed and Borzea was observed walking from a room at the Kings Inn just before 1:30 a.m. The affidavit said that she was observed walking to dumpsters close to 3rd Street where a fire was observed as she turned away and walked to the laundry room of the motel.

Borzea was then observed returning to her room as smoke began to come from the laundry room area.

After being arrested, Borzea admitted to being at the Kings Inn and burning papers inside the dumpster.

Bond for Borzea was set at \$100,000. A court date is pending.

Bomb Threat at Local High School Called a "Hoax"

April 24, 2023 - By News Director Jared Atha - Weatherford residents got a scare on Saturday afternoon after a bomb scare was called in to local authorities.

Turns out, the threat was later determined to be a hoax.

In a statement released by the Weatherford Police Department, at approximately 1:49 pm on Saturday, police received a call in reference to a possible explosive device at the Weatherford High School. The police department immediately responded to the scene, along with the fire department and emergency medical personnel. Upon arrival, officers and fire department personnel set up a perimeter around the school and out of an abundance of caution, notified residents in the immediate area.

Officials said due to the large school campus and not given specific details of the location of the possible explosive device, Weatherford Police Department requested the assistance from other law enforcement agencies, OHP, SWOSU PD and the Custer County Sheriff's Office.

Once all assets were in place, a search was conducted of all the high school buildings and campus area, and no device was located.

Police announced that it appears this "bomb" threat was a hoax.

The statement concluded by saying Weatherford Police, along with other state and federal law enforcement, are actively investigating the "hoax".

Traffic Stop Leads to Fentanyl Discovery

April 21, 2023 - By News Director Jared Atha - The Wheeler County Texas Sheriff's Office announced that a traffic stop recently led to the discovery of suspected fentanyl.

According to the office's Facebook page, on Monday (April 17) at approximately 2 a.m. a Wheeler County Deputy made a traffic stop in the county and during the stop the deputy gained probable cause to search the vehicle. During the search, deputies located 30 pounds of marijuana and also located approximately 3 pounds of suspected fentanyl.

Officials said one female was arrested and booked into the Wheeler County Jail for manufacture or delivery of a controlled substance PG1-B over 400 grams and possession of marijuana over 5 pounds but less than 50 pounds.

The name of the suspect was not released.
