THE NO FLY ZONE

- Reduce spread of disease & infestation
- Eliminates man power
- Increase daily rate of gain
- Reduce costly stress of cattle
- No product waste
- Improve overall health on cows and calves
- Saves pressure on fences

"Mike has a simple formula to prove the value of the oiler. "If the cattle aren't swatting flies, they are eating grass, making milk and putting pounds on the baby. And if the babies aren't swatting flies, he's retaining that weight to go to market with. That's all you've got to sell is weight of the cow."

Those darn three letter abbreviations

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

A lot of texts on phones end up using abbreviations and often are two or three letters.

Most of those start with kids or the younger generation, or at least I assume, and then we, the older generation, are left trying to figure out what do they mean? The other day I got a text from the employer of my third son. And luckily the man asked for my son's phone number and said he wanted to tell Mark he is doing a good job. He is working at

a small meat processing plant. So I texted both of my sisters sharing the good news. My older sister said, "Well I hope so, cause a few days ago he texted me

and said GM." I laughed and laughed cause that means good morning. I'm not sure what words my sister had thought that GM might have meant.

Already at the cafe this morning there was a man saying, "Well I need to go down south 60 miles to work" and with a sarcastic voice adding, "if it hasn't rained too much." So, yes, I sarcastically said back, "Yeah, this danged old rain." Luckily it wasn't a farmer or rancher that said that. He works in the oilfield but I assume he likes to eat.

I do see some wheat fields that were laid down to bale for hay. A lot of that was because it wasn't good enough to cut for grain. And quite a few fields were too thin to even cut for hay. It's nice to get at least some hay back in the country.

Every week for quite some time we have advanced our cattle market on the futures and also at the cattle sales, and every week I thought we surely won't go any higher but every week we do. Anytime it is going up, you always have people that love to tell you how high it is going and anytime it is going down there are always people that love to tell you low it might get. But keep in mind they probably don't have any better idea than I do and that is scary.

What is a man's idea of helping with the house-work? He is doing all he can by lifting his legs so she can vacuum. What do they expect?

I saw a picture of an ole cowboy riding his horse. He said have more than you show and speak less than you know. That is pretty good advice.

After birth how long does it take for the eyes to open? On a cow it is immediate. On a goat it takes two hours. And on a cat it takes six days to open. And on a dog it takes 10 days. And on a human their eyes are finally open after marriage.

"Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

Butler Duo Perish in Custer County Crash

June 13, 2023 - By News Director Jared Atha - Two people from Butler have died after being involved in a single vehicle accident in Custer County Monday night.

According to the collision report provided by the Oklahoma Highway Patrol, the accident occurred at approximately 10:45 p.m. on OK-33, 2.5 miles east of Butler and involved a 2007 Ford Expedition driven by 35-year-old Deedra K. Collins and a passenger, 45-year-old Chad B. Collins both of Butler.

Troopers said as a result Deedra Collins was first taken to Great Plains Regional Medical Center before being transferred to Integris Health Canadian Valley Hospital in Yukon where she was pronounced deceased.

The passenger, Chad Collins, was pronounced deceased at the scene of the crash.

OHP said both the condition of the driver and the cause of the collision are under investigation.

Funding Secured For New OHP HQ in Clinton

June 8, 2023 - By News Director Jared Atha - The Oklahoma Highway Patrol is establishing one of their two new headquarters in Clinton.

The projects will be funded under the newly created Legacy Capital Financing Fund, which allows the state to self-fund major current and future capital needs of state agencies, departments, and subdivisions to avoid high bond interest rates.

House Bill 1012X authorized the Oklahoma Capitol Improvement Authority to utilize \$8 million from the fund for the new public safety buildings.

The western Oklahoma headquarters located in Clinton will serve Troops H and I, which cover Clinton and Guymon. The building will house a troop commander and field supervisors and will include a training room, covered parking and also field offices for the Oklahoma Bureau of Narcotics and the Oklahoma State Bureau of Investigation.

The land will be provided in partnership with the City of Clinton.

The other headquarters will be built in Owasso and will serve Troop B, which covers all of Tulsa.

It is officials hope that the two new headquarters will attract new cadets to the OHP.

Currently, the OHP has 739 troopers with seven retiring this summer, and the agency would like to be closer to 1,000 officers to adequately provide essential law enforcement services statewide. There is an academy in progress with 20 cadets, and another academy will begin in July with an estimated 25 cadets.
