Sometimes we don't get a second chance

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

A friend of mine showed me a picture of his tractor with a bucket on it. When he raised the bucket up high and tilted the bucket toward him it came down—landing where he was sitting. He then said the muffler maybe slowed it down a little and then he said the steering wheel. He also said he put his hands up there right before it ended up completely where the seat was.

A man that was sitting close and listening to the story said, “You better go home and get on your knees and thank the good Lord for not letting that cut you in half or pinning you.” I said all three things you mentioned—the muffler, the steering wheel, and your hands—would

be like a feather trying to stop that bucket. Things happen so fast around equipment and sometimes we don't get a second chance.

This next week is Independence Day. Be proud to be an American. I want every one of you to remind your kids and grandkids that freedom was not free and never will be. Ask them if they would give up their life so their friends could have a better life and a life of freedom. There are some individuals that want to destroy America. We have to push our politicians to never accept money from those that want to destroy America. Thank those this week that you know have served in the military.

Every I turn expenses are extremely high and thankfully cattle are a very good price or otherwise it might be a disaster for a lot of us. With interest double of what it was and most all of us had used all the hay we had and had bought a lot.

And maybe my equipment is too old, but it seems every week there is something major to fix or replace. But with all that said I still live in America and God has been a lot better to me than he should have been.

Tuesday feeder cattle on the futures were up 300 to 440 points with fat cattle up 87 to 152.

There were three churches that had a terrible problem with squirrels. So the first preacher said, “Gather all the squirrels around our church then let's bless them to be one with God.” The second preacher said, “Gather all our squirrels and let's rehabilitate them and release them in the wild.” The third preacher said, “Just bring all the squirrels at our church. Let's baptize them and they will only be back at Easter and Christmas.”

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

THE NO FLY ZONE

- Reduce spread of disease & infestation
- Eliminates man power
- Increase daily rate of gain
- Reduce costly stress of cattle
- No product waste
- Improve overall health on cows and calves
- Saves pressure on fences

CAPITALIZE ON YOUR INVESTMENT BY PROTECTING YOUR HERD FROM EXTERNAL PARASITES ALL YEAR LONG!

"Mike has a simple formula to prove the value of the oiler. "If the cattle aren't swatting flies, they are eating grass, making milk and putting pounds on the baby. And if the babies aren't swatting flies, he's retaining that weight to go to market with. That's all you've got to sell is weight of the cow."

Weekend Storms Leave Damage in Western Oklahoma

July 10, 2023 - By News Director Jared Atha - Multiple storms with heavy rainfall and dangerously high winds ravished western Oklahoma over the weekend that left downed trees and trees limbs in its wake in multiple cities in the area.

It appears that the I-40 trio of Elk City, Clinton, and Weatherford received the most damage, with Weatherford seeing the most structure damage after Sunday morning's storm. The Weatherford Church of Christ had sustained major roof damage that left a hole, and other homes in Weatherford sustained damage as well.

In Clinton, Friday night's storm tore back pieces of the Homeland store's roof as well as a local auto parts store. The communications tower at Clinton City Hall was also blown down due to the straight line winds. As a result, the city's 911 service was knocked out briefly Friday night but was restored about an hour later.

Elk City's damage seems to be limited mostly to downed trees and tree limbs, however the Elk City Walmart did suffer damage from Sunday morning's storms. The city has announced that residents can take tree limbs to the city landfill free of charge now through Saturday. Officials ask that if a resident is elderly or physically unable to move trees to ask for assistance.

Beckham County Sheriff Derek Manning says fortunately there have been no reports of injuries from the two storms.

Foss Lake State Park took a hit Friday night too.

According to Park Manager Barry Hardaway a popular campground will be closed for at least a month after sustaining heavy tree damage.

"Cottonwood Campground was hit real heavily. Luckily we already had 24 sites shut down, and those 24 sites were the ones that got hit the hardest. We had some campers in there but no major damage was reported to us. One cabin was damaged somewhat, to what extent we're not sure yet. We're going to close that whole area for the next 30 days."

Hardaway says the park's main boat ramp will need repairs after being damaged, and said even the park's headquarters was damaged during Friday night's storm.

Other towns in the area such as Woodward and Shattuck also have reported structure damage after the weekend storms.

So how bad were the winds?

According to the Oklahoma Mesonet, wind gusts reported during Friday night's storms had Elk City taking on a 68mph gust, and Altus receiving a 61mph wind gust. The town of Beaver in the panhandle recorded an 83mph wind gust during Friday night's storms.

Sunday morning's storms had Elk City's mesonet site report a 62mph wind gust while Weatherford had a 59mph wind gust at it's site.

Unfortunately more storms are in the forecast this week with a 30% chance of showers and storms - with damaging winds - predicted for tonight, and more storm chances predicted for the end of the week, going into the weekend.
