## Drs. Mori & Teri White, DDS

**Sedation Dentistry Calms Fears...**  
Take a *pill* and *snooze* through your dental appointment.

**F**or many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

## Beneficial rain fell in parts of northwest Oklahoma

**Jerry Nine**  
Woodward, OK

Most of our area received some very much needed rain this past week. It varied from just a little to 2 inches, with most of us getting under an inch, but it was much appreciated.

I know some grass in places I have was looking yellow with a slight green tint, but other places are mostly green yet.

I was in Oklahoma City this past Sunday, and I heard a woman say, "Wow! You mean it is even going to rain on Mother's Day?" I could tell by her tone of voice that she was hoping it would not. I think a lot of city people do not have any idea how dependent we are on moisture and how much that affects our profit potential. However, I know there are some ranchers in the east part of the state that have had all the rain they need for a bit.

I had a friend trying to buy me some long-weaned, thin grazing cattle, and he just sent me a video of them. I texted him back and said, "Wow! Were you drinking?" Those calves look too good to me.

It had been a few weeks since I had seen the killing cows and bulls sell at the auction. I was very

surprised to see they are still bringing a very good price. Several bulls sold in the mid-\$160 range and more with most cows with a little meat to them bringing \$138 to \$142.

On the area where we had the grass fires, I decided that the boys and I would rebuild the new fence. The youngest two were with me. I told them, "We will have to set a dead man over there." They both looked at me funny. I don't know whether that terminology is just from our area or nationwide, but in case you don't know, that is where at the lowest point down a hill you put something under the ground with wire attached to pull the fence down. No, I didn't shoot a man and have the boys trying to help me bury him in the fence line.

This past week I was invited to a surprise birthday party for a gal who just turned 40. Where does a cowboy shop for a gift? He shops at the truck stop. The truck stop didn't have any birthday cards; however, I did find a bumper sticker that was appropriate.

Editor's note: The views expressed here are the author's own and do not represent the view of High Plains Journal. Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

## THE NO FLY ZONE

- Reduce spread of disease & infestation
- Eliminates man power
- Increase daily rate of gain
- Reduce costly stress of cattle
- No product waste
- Improve overall health on cows and calves
- Saves pressure on fences

CAPITALIZE ON YOUR INVESTMENT BY PROTECTING YOUR HERD FROM EXTERNAL PARASITES ALL YEAR LONG!

"Mike has a simple formula to prove the value of the oiler. "If the cattle aren't swatting flies, they are eating grass, making milk and putting pounds on the baby. And if the babies aren't swatting flies, he's retaining that weight to go to market with. That's all you've got to sell is weight of the cow."  
Mike Nesmith-Elk City, Oklahoma

## More Tornadoes Strike Western Oklahoma

May 20, 2024 - Oklahoma saw another round of tornadoes late Sunday afternoon and well into the evening.

One massive storm that produced multiple tornadoes developed in western Oklahoma, and according to officials, damaged buildings and left multiple people injured.

The first was a brief tornado in Roger Mills County, and the next was a much larger tornado that developed east of Butler and traveled near Custer City.

According to our weather partners at KOCO, The Blaine County Sheriff's office said two people were injured after their home in Hydro was destroyed. They were taken to a local hospital, but their condition is unknown. As of Monday morning, the town was also without power.

Custer County Emergency Management says 10-15 homes were damaged between Custer City and Hydro. Homes also were damaged in Butler, where two people were injured.

The full extent of the damage and injuries is unknown as of early Monday morning, but authorities have not reported any deaths.

## Washita Co. To Receive FEMA Disaster Assistance

May 17, 2024- The Oklahoma Senate on Thursday voted unanimously to appropriate \$45 million to help counties that have been ravaged by recent tornadoes.

One of those counties that will benefit includes Washita County after an EF-1 rated tornado damaged Cordell on April 30.

The Senate gave final passage to House Bill 2912 and House Bill 2913 that will help Oklahoma counties approved for FEMA disaster assistance recover and rebuild following the storms. The bills now advance to the governor's desk.

HB 2912 creates a new revolving fund for the Oklahoma Department of Emergency Management to provide “advanced financial liquidity” to local governments that have been approved for FEMA disaster assistance. This will allow the Department of Emergency Management to offer loans that will help local governments cover the costs of temporary housing and shelters, infrastructure repairs and other unexpected costs related to debris removal and recovery efforts. Local governments could also tap into these funds to offset revenue losses stemming from the storm damage and help cover the local 12.5% match needed to receive FEMA assistance.

HB 2913 appropriates \$30 million to the new fund and \$15 million to the State Emergency Fund to cover the match the state must put up to qualify for FEMA disaster assistance.

Other counties approved for funding assistance include Carter, Hughes, Love, Murray, Okmulgee, Osage, and Pontotoc.
