Wheat Fields Need Rain Soon

**Jerry Nine
Woodward, OK**

I drove quite a few miles throughout our area this week—up to 150 miles. I see a lot of dry area that definitely needs a rain, with most all fields ready to plant wheat, but they are just waiting for moisture.

A few people have dusted in their wheat, waiting on that rain and hoping it doesn't

rain too hard to crust it over. A few, very few, places have wheat that is an inch tall, and they will need rain soon.

This past week most sales showed strength on long weaned yearlings off grass. Calves off the cow showed quite a bit cheaper, with some really fancy groups off the cow selling well. None of those calf prices are at the levels we were two or three months ago.

It's that time of year when temperatures vary a lot, and it gets harder to keep them healthy. I tell myself I will not buy a calf off the cow this time of year, but when they get cheap enough it is hard to stick to those rules.

The grass is drying up quite a bit, with most cows and yearlings wanting to be fed. Cattle are smart enough to often know the rattle of the pickup that feeds them, and they can hear it from quite a ways. This is often a sign that they need a little more protein, unless it is like my boys' calves

at the house, and they simply want fed every time you come back to the house. They bawl like they are starving even if you have already fed them several times that day.

One man who starts a lot of small calves told me the health on his calves this year has been extremely good. He said he had a spray rig that held about 200 gallons of water, and he put a gallon of bleach in it, cleaning out tanks and spraying all the ground. I think I will try that. We had more trouble two months ago than I thought we should have.

The preacher said unless something changes on the inside, nothing changes on the outside. Pass that on to your friends and kids.

A young gal was helping her dad move some oilfield equipment. The Department of Transportation man stopped her. He walked all around the trailer as if he was trying to give her a ticket.

He walked back to the driver door and asked her, "What do you weigh?" She told him, "It is none of your business what I weigh."

Editor's note: The views expressed here are the author's own and do not represent the view of High Plains Journal. Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

Erick Residents Charged with Animal Cruelty Following

September 23, 2024 - Erick, OK – Jacob Isaac Walker, 29, and Catherine Charnell Walker, 53, were charged with felony animal cruelty after Beckham County Sheriff's deputies discovered six dogs living in harsh conditions at their residence on September 16, 2024.

According to a probable cause affidavit, the investigation began when a Beckham County Deputy responded to a call regarding a dog that had killed a neighbor's chickens. Upon arrival at the home, located in the 300 block of S. Oak in Erick, deputies found four dogs outside, two of which were in a crate without food or clean water. One dog appeared severely malnourished, and another was tied to a tree in the front yard.

Deputies encountered the defendants when they returned home. Jacob Walker allegedly admitted they had no running water and had been relying on water from a local church for the animals. The dogs were taken into custody and transported to Stockman's Veterinary Clinic in Elk City, where three puppies were found to be suffering from severe parasite infestations.

Beckham County Sheriff Derek Manning said, unfortunately, some of the animals had to be put down. "The worst news is that since we've taken them to the vet, three animals had to be euthanized because they were in such bad shape they couldn't be saved. Another one of the animals is extremely aggressive towards humans, and the vet said she didn't know what chance he had at being saved. We're trying to adopt him out now and find homes for the other animals, but the vet said it would be very difficult because he is so aggressive towards humans that they couldn't even approach him."

Both Jacob and Catherine Walker were arrested and face six felony counts of animal neglect. The investigation is ongoing.

Blair City Hall Fire Destroys City Equipment, Community Center

September 23, 2024 - Blair City Hall in Jackson County was engulfed in flames on Wednesday, destroying city equipment. According to reports, the fire broke out around 3:30 p.m. in the building, which houses City Hall, a community center, and two storage facilities.

Blair officials stated the fire began when a crew was using torches on the roof. Fortunately, no injuries were reported, but the fire completely destroyed the two storage units. Among the lost items were a city-owned police truck, a side-by-side UTV, and emergency repair equipment.

City Hall sustained smoke damage, while the community center is closed due to smoke and water damage.

Fatality Collision in Greer County Claims One Life

Sept. 19, 2024- A fatal off-road vehicle collision occurred on the night of September 10 at approximately 11:07 PM in a field near the intersection of North 2030 Road and East 1465 Road, about 4.5 miles south and one mile east of Granite.

The crash involved a 2024 Polaris side-by-side vehicle. The Oklahoma Highway Patrol is still trying to determine who was driving the UTV. Two occupants were ejected from the vehicle during the crash, both sustaining critical injuries.

33-year-old Rowdy Duke of Granite was flown to OU Trauma in Oklahoma City, where he was admitted in critical condition with head injuries. Despite medical efforts, Duke succumbed to his injuries on September 18.

36-year-old Landon Roberts of Mangum was also seriously injured and flown to OU Trauma. He remains in critical condition with head injuries.

The incident occurred as the vehicle was traveling westbound through a field when it lost control and entered a broad slide. The side-by-side rolled multiple times, ejecting Duke. The vehicle came to rest on its wheels.

The exact conditions of the occupants and the cause of the collision remain under investigation. It has been confirmed that neither man was wearing a seatbelt.

WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...
Take a *pill* and *snooze* through your
dental appointment.

For many Americans, going to the dentist is a
frightful event. If you are one of the 145 million
people who avoid the dentist due to fear, we
have the solution... Sedation Dentistry.

You can now experience your dental appointment
through a totally relaxed and comfortable environ-
ment. With the help of Sedation Dentistry, you will
wake up to find that your dental appointment is over
and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish
more dentistry in one appointment which means fewer
visits to the dentist.

Sedation Dentistry is available for everything from
simple restoration to the most complex procedures.
We are very sensitive to our patients needs, especial-
ly those with high fear and apprehension. Now we
can put an end to anxiety with this safe and wonderful
technique of sedation.

We are proud to be able to offer Sedation Dentistry
and offer hope to those who have been avoiding the
dentist due to fear. If you would like to know more,
call our team with your questions.

Drs. Mori & Teri White

KECO 96.5

for your

SEVERE WEATHER COVERAGE

**Paragon Communications wants to help
keep you safe during Storm Season!**

When severe weather rolls into the listening area, you'll hear a soft two-tone combination sounder on KECO & KOOL 94. This means severe weather is threatening, and that we're keeping an eye on it to let you know what's going on.

**So when the weather turns ugly, tune in to
KECO 96.5 or KOOL 94.3 for the latest updates!**

To General Manager & Staff:

My Compliments and Thanks to KECO!

Two weeks ago, while traveling back east on my cross-country trip from California to Maine, I was traveling east along I-40 from Amarillo, Texas into Oklahoma. I knew that severe weather was expected and was closely scanning my car radio to both AM and FM bands for weather updates, as skies started turning dark and threatening once I got east of Amarillo.

Things were OK until I hit the Oklahoma border and rain was falling heavily, and I entered a substantial thunderstorm. Being a weather geek and weather spotter for our local NWS office here in Maine, I was constantly scanning the skies for any signs of tonadoes and rotation in the clouds. I was happy to pick up 96.5 and turned into a rest area to ride out the thunderstorm, and listen to your latest forecasts. As soon as I go into the rest area, KECO broadcast the EAS tones and you aired the announcement from NWS in Norman. They gave locations of several possible tornadoes, which by referring to my road map, I was able to locate and avoid. As soon as the EAS broadcast concluded, your local announcer came on with additional information about nearby storms.

I want to compliment the announcer who was on the board between 3 and 5pm on Friday, May 8th. He was very professional sounding and informative. And he kept updating every 15 minutes which was most appreciated. As a former radio broadcaster & program director at an Alaska station, I still enjoy listening to local stations which broadcast to the community.

One thing I did notice which caught me by surprise, was after your EAS alert, and you went back to music, there was a "tone" signal, sounding like a door bell every minute or so...At first I thought it was my cell phone, but the announcer explained that it sounds every 2 minutes while there is an EAS alert in progress. This is the first I have heard of that feature!

I had to let you know how much I appreciated hearing a real local station broadcasting "in the public interest"! My compliments and thanks to all involved!

Sincerely,
Rod O'Conner
from Maine

*This is why
we do it!*
