Between the 2 Cudd Locations

Mexican cattle could return to market this winter

I read an article that said a newspaper in Mexico is reporting that the Mexican-United States border will be open after the New World screwworm was discovered in cattle last month.

The article also said inspections will begin on cattle in pens at the border. So As I read that, I thought, "Wow, I guess it is opening now." I was talking to a feedlot operator and told him what I read, and he said, "We feed a lot of customers Mexican cattle, and I am quite sure if it was opening now I would know it." He said they tell him it will probably open in February, and it will start with northern Mexican cattle.

Let the good times roll as fat cattle last week in the North brought \$195 per hundredweight, and in the South they brought \$191 to \$192 per hundredweight. One cattleman told me he thought some cattle being bought now had a \$210.00 per hundredweight break even for them when they got fat, while others seemed to think some would break even from low \$190s to \$200.per hundredweight.

I love it when cattle are high, and I love to see cattlemen make money, but never get it in your head that they can't fall in price for one reason or another. I think we are in good shape for the next couple of years, and hopefully longer, but I am not going to play my cards where they have to be this high for me to survive.

Years ago, a friend of mine was buying pork

bellies on futures, and he was convinced there was no way they could go any lower. He was wrong. Never say never.

So far, for me, this is my kind of winter, with a nice rain in November and no snow and temperatures up to 60 degrees for most days. I hear several say we need snow for nitrogen. I'd rather just buy mine.

It's interesting living in a small town, or I should say close to a small town. At our breakfast table it is mostly cowboys, farmers and throw in a few oil field workers from young to old. The other day the topic was who was the lady who got hurt by a bull? They had identified her age and a fairly close location where the ambulance went.

Before breakfast was over, there was another story told about a tricycle being hit by a car years earlier. Later that day, a man who has land close to where the ambulance went called me and said, "I heard a bull got out in the road and hit a lady on a bike." I hope it wasn't my bull.

For the longest time, I thought it was the dryer that was shrinking my clothes. Come to find out it was the refrigerator.

My wife said she wished she could cook in peace and quiet, so I turned off the smoke alarm.

Editor's note: The views expressed here are the author's own and do not represent the view of High Plains Journal. Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Sapulpa, Oklahoma.

Man in Critical Condition After Car Crashes into Pond in Elk City

December 23, 2024 - A single-vehicle accident in Elk City early Sunday morning, where a car crashed into a pond, remains under investigation. According to Elk City Fire Chief Kyle Chervenka, the accident sent an unidentified man to an Oklahoma City hospital in critical condition.

Chervenka said authorities were contacted Sunday morning after locals heard a man yelling for help, but the man could not initially be located. “Beckham County deputies got out there and couldn’t find anything, so they asked for assistance from Elk City PD. They eventually found the car in a pond, directly south of the intersection where Falcon ‘T’s’ to the south at Lakeview,” Chervenka said.

He added that it is suspected the car hit an embankment at a high rate of speed, cleared a five-wire fence, and rolled an undetermined number of times before coming to rest in the pond. Chervenka stated that authorities had to use extraction tools to cut into the vehicle and free the man, who had suffered a leg injury and was also experiencing hypothermia. The man was flown to OU Medical Center in Oklahoma City, where he was last listed in critical condition.

Chervenka noted that it is suspected the man was unfamiliar with the area, as the car had out-of-state plates. The Oklahoma Highway Patrol is currently investigating the crash.

15-Year-Old Dies in Rollover Accident North of Sayre

December 23, 2024 - A tragic accident claimed the life of a 15-year-old Sayre resident on Sunday, December 22, 2024. The fatal crash occurred at approximately 7:57 PM on N 1900 Rd and E 1120 Rd, about four miles north of Sayre in Beckham County.

According to the Oklahoma Highway Patrol, the accident involved a 2018 Polaris Ranger driven by a 15-year-old male whose name is being withheld due to his age. The vehicle was traveling eastbound on E 1120 Rd when the driver lost control, causing the Ranger to leave the roadway and roll. The driver was ejected during the rollover, and the vehicle came to rest on top of him.

The driver was pronounced dead at the scene by Sinor EMS and transported to the Medical Examiner’s office in Oklahoma City.

A passenger in the vehicle, also a 15-year-old male from Sayre, was transported privately to Roger Mills Memorial Hospital in Cheyenne. He was treated and released with minor injuries.

Neither the driver nor the passenger were using seatbelts at the time of the crash. The condition of the driver and the cause of the collision remain under investigation.

Fatal Crash Near Woodward Claims Life of Guymon Man

December 18, 2024— A fatal crash occurred on December 17, 2024, at approximately 8:31 PM on US-270 at South County Road 206, roughly three miles southeast of Woodward in Woodward County.

The collision involved a 1998 Ford F-150 driven by Abraham B. Robledo, 34, of Guymon, Oklahoma. Robledo was transported by Woodward EMS to Integris Health Woodward Hospital, where he was pronounced dead due to injuries sustained in the accident.

Details of the Incident

Authorities reported that Robledo was traveling southeast on US-270 when his vehicle failed to navigate a right-hand curve. The truck veered off the roadway to the left, entering the median. After overcorrecting, the vehicle re-entered the road in the wrong direction before leaving the roadway again to the right. It then entered a broadside skid and overturned one and a half times. Robledo was ejected from the vehicle, which ultimately came to rest upside-down, facing south.

Investigation Ongoing

The condition of the driver and the cause of the collision remain under investigation.

This tragic incident serves as a reminder of the importance of roadway safety and the dangers of losing control on curves. Further updates will be provided as information becomes available.

WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...
Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Drs. Mori & Teri White
