Farm Safety Lessons

by: Jerry Nine – Woodward, Okla.

There are several things we as farmers and cattlemen do that we often don't realize is as dangerous as it is. I am reminded of this after hearing about a story where a man was trying to pull a calf from a heifer. She was lying down so he took the small chain and looped it on his wrist, then he took the other part of the chain and hooked it on the calf's foot still inside the heifer. The heifer jumped up, dragging the man across the pasture, nearly killing him. Never do this.

Another suggestion is never let your kid ride a horse in shoes, as they can slide through the stirrup easier than a boot with a heel on it. Also teach them to ride that horse with the ball of your foot putting pressure on the stirrup. If a horse gets spooked and his foot goes through the stirrup and he falls off, he could easily be dragged to death.

Also another thing you might want to remind your boy, and trust me you won't have to tell him twice is never pee on an electric fence.

If using any power take off like a post hole digger behind a tractor digging post holes never wear loose clothing. That can wrap the

clothing up and tear your arm off or kill you in the blink of an eye.

In sorting cattle, never throw the gate toward the animal, as that calf can kick that gate back at you at like 100 mph.

And never holler loudly at your wife if she is helping you sort cattle or you will look up and be sorting by yourself. I walked by a couple at the sale barn where the husband and wife were sorting their own cattle. So I hollered over to them and said a couple that works together stays together. And the wife said I don't know about that!!

Editor's note: The views expressed here are the author's own and do not represent the view of The Penny News. Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

Abandoned U-Haul Leads to Burglary Investigation in Beckham County

September 28, 2026 Beckham County, OK – An abandoned U-Haul with its hood up along a Beckham County road led sheriff's deputies to a much larger investigation involving an alleged burglary, stolen property, a stolen vehicle and a firearm.

Beckham County Sheriff Derek Manning said deputies were initially dispatched to check the U-Haul because the circumstances surrounding the abandoned vehicle appeared unusual.

"There was a U-Haul that was called in that was abandoned with the hood up out on just off of a county road, which is a little bit of unusual circumstance, and so my deputies went to check it out," Manning said.

While deputies were investigating, U-Haul reported that the vehicle had not been returned on time and the company had been unable to contact the renter. Manning said a man later approached deputies at the scene and claimed he had rented the vehicle and that some of the property inside belonged to him.

The investigation eventually involved three people at the scene.

At about the same time, an electric company received an alert involving a nearby property that Manning described as a grow house that was not operating but remained occupied. Utility workers investigating the alert discovered that a gate lock had been cut, the electrical meter had been pulled and there appeared to be other signs of tampering.

The property owners were out of state at the time.

As deputies continued investigating, Manning said they determined the incidents were connected. Three people were arrested on allegations that included tampering with utility equipment, second-degree burglary and possession of stolen property.

Investigators also discovered that a vehicle had been stolen from the residence, along with a firearm and other property.

Because the homeowner was out

of state, deputies used a video call to walk through the residence with the owner, allowing him to identify items that appeared to be missing.

Investigators also obtained surveillance footage from the property. Although the cameras were not operating after power was cut, Manning said the owner was able to retrieve earlier footage that allegedly showed the suspects at the residence.

"We've got video evidence of them being at the residence. We've got things left in the vehicle that identify back to those folks. We've just got a lot of evidence," Manning said.

According to Manning, investigators later interviewed the suspects as well as another person who was not at the scene when the arrests occurred. Manning said investigators obtained confessions and recovered most of the missing property.

The firearm was also recovered after investigators learned it had allegedly been discarded some distance from the scene when those involved noticed law enforcement investigating the U-Haul.

Manning said investigators also learned that a drone had allegedly been used to scout the property in connection with the burglary. The drone had not been recovered as of his latest update.

What began as a report of an abandoned rental truck ultimately developed into a much broader investigation.

"My detectives did an outstanding job pulling all that together," Manning said. "All started from an abandoned vehicle, and my detectives were remaining aware to the calls and kind of what was going on and starting to put things together. So just a good job by those guys and making all that happen and doing solid police work."

The allegations against those arrested are accusations, and the defendants are presumed innocent unless and until proven guilty in court.

CITY OF GEARY GEARY UTILITY AUTHORITY

115 S. Broadway • P.O. Box 125 • Geary, Oklahoma 73040
(405) 884-5466 • www.cityofgeary.com

EMPLOYMENT OPPORTUNITY Full-Time

Public Works Operator

The City of Geary is accepting applications for a full-time Public Works Operator. This position performs skilled and semi-skilled work in the operation and maintenance of City streets and the gas, water, and sewer systems.

Duties Include

- Road repair and street maintenance
- Excavating and earthwork
- Work on the City's gas, water, and sewer systems
- Operation of City vehicles and equipment as assigned

Requirements

- Must possess a valid driver's license
- Must be able to pass a background check
- Must be able to pass a drug test

Preference will be given to applicants with experience operating a backhoe, mini excavator, and other heavy equipment.

Top preference will be given to applicants who hold a Commercial Driver's License (CDL).

Starting pay will be based on experience and licenses held.

Applications may be picked up in person at Geary City Hall, 115 S. Broadway, Geary, Oklahoma 73040, or completed online at www.cityofgeary.com.

An equal opportunity provider and employer

Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

*Drs. Mori & Teri White

\$17.9 Million

People are spending money in Western Oklahoma. How much of that spending are you getting?

This isn't 1986, when the Oil Bust lingered and jobs were nearly as rare as unicorn sightings.

There may not be much energy exploration locally, but service companies have work for men willing to travel. Agriculture continues steadily producing revenue from crops and cattle. And somehow, we've diversified our economy enough to bring in revenue from other sources.

Heading towards the fourth quarter of 2026, how much are people spending in this area?

After hitting \$1.3 million per month in sales tax revenue for several months at the beginning of the year, for the period from mid-June to mid-July 2026, Elk City brought in an all-time high of \$1.5 million in sales tax collections.

Now the Oklahoma Tax Commission tells us that the following month, from mid-July to mid-August 2026, Elk City did it again, collecting \$1,538,259 in sales taxes.

With a sales tax rate of 9.35%,

that means during that one-month period—the latest for which we have data—shoppers spent \$17,990,233 in Elk City, OK.

Other towns in Western Oklahoma are also doing well. Woodward and Weatherford routinely hit \$1 million in sales tax collections each month. The mid-July to mid-August data from the OTC says Woodward hit \$1.1 million and Weatherford \$1.2 million.

People are spending money in Western Oklahoma.

People are spending a LOT of money in Elk City, almost \$18 million in just **ONE MONTH**.

Would you like to get more of the money that's being spent?

It's not 1986. There's money to be made for businesses that want to tap into the Elk City trade area. You have to persuade citizens to become customers.

To do that, you have to talk to them about things they want to hear. And you have to do that consistently and with enough repetition to drive your story home.

Money is there for the taking if you're willing to go get it.
